

3. Update on Bureau of Export Administration initiatives.
4. Update on foreign policy controls.
5. Briefing on missile technology issues.

6. Update on the Wassenaar Arrangement.

7. Update on regulatory changes.

The meeting will be open to the public and a limited number of seats will be available. Reservations are not accepted. To the extent time permits, members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting. However, to facilitate distribution of public presentation materials to Committee members, the Committee suggests that you forward your public presentation materials two weeks prior to the meeting to the following address: Ms. Lee Ann Carpenter, OSIES/EA/BXA MS: 3876, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC 20230.

For more information or copies of the minutes, please call Lee Ann Carpenter on (202) 482-2583.

Dated: January 17, 2001.

Lee Ann Carpenter,
Committee Liaison Officer.

BILLING CODE 3510-JT-M

DEPARTMENT OF COMMERCE

International Trade Administration

[A-588-824]

Certain Corrosion-Resistant Carbon Steel Flat Products From Japan: Notice of Initiation and Preliminary Results of Changed Circumstances Review of the Antidumping Order and Intent to Revoke Order in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of initiation and preliminary results of changed circumstances antidumping duty review, and intent to revoke order in part.

SUMMARY: In accordance with 19 CFR 351.216(b), Taiho Corporation of America ("Taiho America") filed two separate requests for changed circumstances reviews of the antidumping order on certain corrosion-resistant carbon steel flat products from Japan with respect to the carbon steel flat products as described below. Domestic producers of the like product have expressed no interest in

continuation of the order with respect to these particular carbon steel flat products. In response to Taiho America's requests, the Department of Commerce ("the Department") is initiating a changed circumstances review with respect to both requests and issuing a notice of intent to revoke in part the antidumping duty order on certain corrosion-resistant carbon steel flat products from Japan. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: January 23, 2001.

FOR FURTHER INFORMATION CONTACT: Catherine Bertrand or Rick Johnson, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-3207, (202) 482-3818, respectively.

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 ("the Act") by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department's regulations are to the regulations as codified at 19 CFR part 351 (2000).

SUPPLEMENTARY INFORMATION:

Background

On December 1, 2000, Taiho America requested that the Department revoke in part the antidumping duty order on certain corrosion-resistant carbon steel flat products from Japan. Specifically, Taiho America requested that the Department revoke the order with respect to imports meeting the following specifications: Carbon steel flat products measuring 0.975 millimeters in thickness and 8.8 millimeters in width consisting of carbon steel coil (SAE 1012) clad with a two-layer lining, the first layer consisting of a copper-lead alloy powder that is balance copper, 9%-11% tin, 9%-11% lead, maximum 1% other materials and meeting the requirements of SAE standard 792 for Bearing and Bushing Alloys, the second layer consisting of 13%-17% carbon, 13%-17% aromatic polyester, with a balance (approx. 66%-74%) of polytetrafluorethylene ("PTFE"). Taiho America also requested that the Department revoke the order with respect to imports meeting the following specifications: Carbon steel flat products measuring 1.02 millimeters in thickness and 10.7 millimeters in width consisting of carbon steel coil (SAE 1008) with a

two-layer lining, the first layer consisting of a copper-lead alloy powder that is balance copper, 9%-11% tin, 9%-11% lead, less than 0.35% iron, and meeting the requirements of SAE standard 792 for Bearing and Bushing Alloys, the second layer consisting of 45%-55% lead, 3%-5% molybdenum disulfide, with a balance (approx. 40%-52%) of polytetrafluorethylene ("PTFE"). See *Memo to the File: Changed Circumstances Review of Certain Corrosion-Resistant Carbon Steel Flat Products from Japan*, dated January 3, 2001. Taiho America is an importer of the products in question.

Scope of Review

These products include flat-rolled carbon steel products, of rectangular shape, either clad, plated, or coated with corrosion-resistant metals such as zinc, aluminum, or zinc-, aluminum-, nickel- or iron-based alloys, whether or not corrugated or painted, varnished or coated with plastics or other nonmetallic substances in addition to the metallic coating, in coils (whether or not in successively superimposed layers) and of a width of 0.5 inch or greater, or in straight lengths which, if of a thickness less than 4.75 millimeters, are of a width of 0.5 inch or greater and which measures at least 10 times the thickness or if of a thickness of 4.75 millimeters or more are of a width which exceeds 150 millimeters and measures at least twice the thickness, as currently classifiable in the HTSUS under item numbers 7210.30.0030, 7210.30.0060, 7210.41.0000, 7210.49.0030, 7210.49.0090, 7210.61.0000, 7210.69.0000, 7210.70.6030, 7210.70.6060, 7210.70.6090, 7210.90.1000, 7210.90.6000, 7210.90.9000, 7212.20.0000, 7212.30.1030, 7212.30.1090, 7212.30.3000, 7212.30.5000, 7212.40.1000, 7212.40.5000, 7212.50.0000, 7212.60.0000, 7215.90.1000, 7215.90.3000, 7215.90.5000, 7217.20.1500, 7217.30.1530, 7217.30.1560, 7217.90.1000, 7217.90.5030, 7217.90.5060, 7217.90.5090. Included in this review are corrosion-resistant flat-rolled products of non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been "worked after rolling")—for example, products which have been beveled or rounded at the edges.

Excluded from this review are flat-rolled steel products either plated or coated with tin, lead, chromium, chromium oxides, both tin and lead ("terne plate"), or both chromium and

chromium oxides ("tin-free steel"), whether or not painted, varnished or coated with plastics or other nonmetallic substances in addition to the metallic coating.

Also excluded from this review are clad products in straight lengths of 0.1875 inch or more in composite thickness and of a width which exceeds 150 millimeters and measures at least twice the thickness.

Also excluded from this review are certain clad stainless flat-rolled products, which are three-layered corrosion-resistant carbon steel flat-rolled products less than 4.75 millimeters in composite thickness that consist of a carbon steel flat-rolled product clad on both sides with stainless steel in a 20%–60%–20% ratio.

Also excluded from this review are certain corrosion-resistant carbon steel flat products meeting the following specifications: (1) Widths ranging from 10 millimeters (0.394 inches) through 100 millimeters (3.94 inches); (2) thicknesses, including coatings, ranging from 0.11 millimeters (0.004 inches) through 0.60 millimeters (0.024 inches); and (3) a coating that is from 0.003 millimeters (0.00012 inches) through 0.005 millimeters (0.000196 inches) in thickness and that is comprised of either two evenly applied layers, the first layer consisting of 99% zinc, 0.5% cobalt, and 0.5% molybdenum, followed by a layer consisting of chromate, or three evenly applied layers, the first layer consisting of 99% zinc, 0.5% cobalt, and 0.5% molybdenum followed by a layer consisting of chromate, and finally a layer consisting of silicate.

Also excluded from this review are carbon steel flat products measuring 1.84 millimeters in thickness and 43.6 millimeters or 16.1 millimeters in width consisting of Carbon steel coil (SAE 1008) clad with an aluminum alloy that is balance aluminum, 20% tin, 1% copper, 0.3% silicon, 0.15% nickel, less than 1% other materials and meeting the requirements of SAE standard 783 for Bearing and Bushing Alloys.

Also excluded from this review are carbon steel flat products measuring 0.97 millimeters in thickness and 20 millimeters in width consisting of carbon steel coil (SAE 1008) with a two-layer lining, the first layer consisting of a copper-lead alloy powder that is balance copper, 9% to 11% tin, 9% to 11% lead, less than 1% zinc, less than 1% other materials and meeting the requirements of SAE standard 792 for Bearing and Bushing Alloys, the second layer consisting of 45% to 55% lead, 38% to 50% PTFE, 3% to 5%

molybdenum disulfide and less than 2% other materials.

Also excluded from this review are doctor blades meeting the following specifications: Carbon steel coil or strip, plated with nickel phosphorous, having a thickness of 0.1524 millimeters (0.006 inches), a width between 31.75 millimeters (1.25 inches) and 50.80 millimeters (2.00 inches), a core hardness between 580 to 630 HV, a surface hardness between 900–990 HV; the carbon steel coil or strip consists of the following elements identified in percentage by weight: 0.90% to 1.05% carbon; 0.15% to 0.35% silicon; 0.30% to 0.50% manganese; less than or equal to 0.03% of phosphorous; less than or equal to 0.006% of sulfur; other elements representing 0.24%; and the remainder of iron.

Also excluded from this review are products meeting the following specifications: 0.975 millimeters in thickness and 8.8 millimeters in width consisting of carbon steel coil (SAE 1012) clad with a two-layer lining, the first layer consisting of a copper-lead alloy powder that is balance copper, 9%–11% tin, 9%–11% lead, maximum 1% other materials and meeting the requirements of SAE standard 792 for Bearing and Bushing Alloys, the second layer consisting of 13%–17% carbon, 13%–17% aromatic polyester, with a balance (approx. 66%–74%) of polytetrafluorethylene ("PTFE").

Also excluded from this review are products meeting the following specifications: Carbon steel flat products measuring 1.02 millimeters in thickness and 10.7 millimeters in width consisting of carbon steel coil (SAE 1008) with a two-layer lining, the first layer consisting of a copper-lead alloy powder that is balance copper, 9%–11% tin, 9%–11% lead, less than 0.35% iron, and meeting the requirements of SAE standard 792 for Bearing and Bushing Alloys, the second layer consisting of 45%–55% lead, 3%–5% molybdenum disulfide, with a balance (approx. 40%–52%) of polytetrafluorethylene ("PTFE").

Initiation of Changed Circumstances Antidumping Duty Administrative Review, and Intent to Revoke Order in Part

Pursuant to sections 751(d)(1) and 782(h)(2) of the Act, the Department may revoke an antidumping or countervailing duty order, in whole or in part, based on a review under section 751(b) of the Act (*i.e.*, a changed circumstances review). Section 751(b)(1) of the Act requires a changed circumstances review to be conducted upon receipt of a request which shows

changed circumstances sufficient to warrant a review. Section 351.222(g) of the Department's regulations provides that the Department will conduct a changed circumstances administrative review under 19 CFR 351.216, and may revoke an order (in whole or in part), if it determines that producers accounting for substantially all of the production of the domestic like product have expressed a lack of interest in the relief provided by the order, in whole or in part, or if other changed circumstances sufficient to warrant revocation exist. In addition, in the event that the Department concludes that expedited action is warranted, 19 CFR 351.221(c)(3)(ii) permits the Department to combine the notices of initiation and preliminary results.

In accordance with sections 751(d)(1) and 782(h)(2) of the Act, and 19 CFR 351.216 and 351.222(g), based on affirmative statements by domestic producers of the like product, Bethlehem Steel Corporation; Ispat Inland Steel; LTV Steel Company, Inc.; National Steel Corporation; and U.S. Steel Group, a unit of USX Corporation ("domestic producers"), of no further interest in continuing the order with respect to certain corrosion-resistant carbon steel flat products meeting the following specifications: Carbon steel flat products measuring 0.975 millimeters in thickness and 8.8 millimeters in width consisting of carbon steel coil (SAE 1012) clad with a two-layer lining, the first layer consisting of a copper-lead alloy powder that is balance copper, 9%–11% tin, 9%–11% lead, maximum 1% other materials and meeting the requirements of SAE standard 792 for Bearing and Bushing Alloys, the second layer consisting of 13%–17% carbon, 13%–17% aromatic polyester, with a balance (approx. 66%–74%) of polytetrafluorethylene ("PTFE"); and Carbon steel flat products measuring 1.02 millimeters in thickness and 10.7 millimeters in width consisting of carbon steel coil (SAE 1008) with a two-layer lining, the first layer consisting of a copper-lead alloy powder that is balance copper, 9%–11% tin, 9%–11% lead, less than 0.35% iron, and meeting the requirements of SAE standard 792 for Bearing and Bushing Alloys, the second layer consisting of 45%–55% lead, 3%–5% molybdenum disulfide, with a balance (approx. 40%–52%) of polytetrafluorethylene ("PTFE") (*see* domestic producers' December 21, 2000 letter to the Department), we are initiating this changed circumstances administrative review. Furthermore, because petitioners have expressed a

lack of interest, we determine that expedited action is warranted, and we preliminarily determine that continued application of the order with respect to certain corrosion-resistant carbon steel flat products falling within the descriptions above is no longer of interest to domestic interested parties. Because we have concluded that expedited action is warranted, we are combining these notices of initiation and preliminary results. Therefore, we are hereby notifying the public of our intent to revoke in part the antidumping duty orders with respect to imports of certain corrosion-resistant carbon steel flat products meeting the above-mentioned specifications from Japan.

If the final revocation in part occurs, we intend to instruct the U.S. Customs Service ("Customs") to liquidate without regard to antidumping duties, as applicable, and to refund any estimated antidumping duties collected for all unliquidated entries of certain corrosion-resistant carbon steel flat products meeting the specifications indicated above, not subject to final results of administrative review as of the date of publication in the **Federal Register** of the final results of this changed circumstances review in accordance with 19 CFR 351.222. We will also instruct Customs to pay interest on such refunds in accordance with section 778 of the Act. The current requirement for a cash deposit of estimated antidumping duties on certain corrosion-resistant carbon steel flat products meeting the above specifications will continue unless and until we publish a final determination to revoke in part.

Public Comment

Interested parties are invited to comment on these preliminary results. Parties who submit argument in this proceeding are requested to submit with the argument (1) a statement of the issue, and (2) a brief summary of the argument. Parties to the proceedings may request a hearing within 14 days of publication. Any hearing, if requested, will be held no later than two days after the deadline for the submission of rebuttal briefs, or the first workday thereafter. Case briefs may be submitted by interested parties not later than 14 days after the date of publication of this notice. Rebuttal briefs and rebuttals to written comments, limited to the issues raised in those comments, may be filed not later than five days after the deadline for submission of case briefs. All written comments shall be submitted in accordance with 19 CFR 351.303 and shall be served on all interested parties on the Department's

service list in accordance with 19 CFR 351.303. Persons interested in attending the hearing should contact the Department for the date and time of the hearing.

The Department will publish the final results of this changed circumstances review, including the results of its analysis of issues raised in any written comments. This notice is published in accordance with section 751(b)(1) of the Act and 19 CFR 351.216 and 351.222.

Dated: January 12, 2001.

Troy H. Cribb,

Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

International Trade Administration

Export Trade Certificate of Review

ACTION: Notice of application to amend certificate.

SUMMARY: The Office of Export Trading Company Affairs ("OETCA"), International Trade Administration, Department of Commerce, has received an application to amend an Export Trade Certificate of Review ("Certificate"). This notice summarizes the proposed amendment and requests comments relevant to whether the amended Certificate should be issued.

FOR FURTHER INFORMATION CONTACT:

Vanessa M. Bachman, Acting Director, Office of Export Trading Company Affairs, International Trade Administration by phone at (202) 482-5131 (this is not a toll-free number) or E-mail at oetca@ita.doc.gov.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 (15 U.S.C. 4001-21) authorizes the Secretary of Commerce to issue Export Trade Certificates of Review. A Certificate of Review protects the holder and the members identified in the Certificate from state and federal government antitrust actions and from private, treble damage antitrust actions for the export conduct specified in the Certificate and carried out in compliance with its terms and conditions. Section 302(b)(1) of the Act and 15 CFR 325.6(a) require the Secretary to publish a notice in the **Federal Register** identifying the applicant and summarizing its proposed export conduct.

Request for Public Comments

Interested parties may submit written comments relevant to the determination

whether an amended Certificate should be issued. If the comments include any privileged or confidential business information, it must be clearly marked and a nonconfidential version of the comments (identified as such) should be included. Any comments not marked privileged or confidential business information will be deemed to be nonconfidential. An original and five copies, plus two copies of the nonconfidential version, should be submitted no later than 20 days after the date of this notice in writing to: Office of Export Trading Company Affairs, International Trade Administration, Department of Commerce, Room 1104H, Washington, D.C. 20230, or transmitted by E-mail to oetca@ita.doc.gov. Information submitted by any person is exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552). However, nonconfidential versions of the comments will be made available to the applicant if necessary for determining whether or not to issue the Certificate. Comments should refer to this application as "Export Trade Certificate of Review, application number 97-4A003."

The Association for the Administration of Rice Quotas, Inc. ("AARQ") original Certificate was issued on January 21, 1998 (63 FR 4223, January 28, 1998) and last amended on June 1, 2000 (65 FR 36410, June 8, 2000). A summary of the application for an amendment follows.

Summary of the Application

Applicant: The Association for the Administration of Rice Quotas, Inc. ("AARQ"), c/o Ludovico Manfredi, Newfieldrice, Inc., 1401 Brickell Avenue, Suite 332, Miami, FL 33131.

Contact: M. Jean Anderson, Esquire, Telephone: (202) 682-7217.

Application No.: 97-4A003.

Date Deemed Submitted: January 10, 2001.

Proposed Amendment: AARQ seeks to amend its Certificate to:

1. Add the following companies as new "Members" of the Certificate within the meaning of section 325.2(1) of the Regulations (15 CFR 325.2(1)): Alliance Grain, Inc., Voorhees, NJ (Controlling Entity: ConAgra Foods, Inc., Omaha); Associated Rice Marketing Cooperative, Durham, CA; California Rice Marketing, LLC, Sacramento, CA; The Sun Valley Rice Co., LLC, Arbuckle;

2. Delete the following company as a "Member" of the Certificate within the meaning of section 325.2(1) of the Regulations (15 CFR 325.2(1)): ContiGroup Companies, Inc., New York, New York;
