IV. What Information Collection Activity or ICR Does this Action Apply to?

EPA is seeking comments on the following ICR:

Title: Worker Protection Standard Training and Notification.

ICR numbers: EPA ICR No. 1759.03, OMB No. 2070-0148.

ICR status: This ICR is a renewal of an existing ICR that is currently approved by OMB and is due to expire September 30, 2001.

Abstract: This data collection program is designed to provide the EPA with information from agricultural employers regarding training agricultural workers and pesticide handlers in the safe handling of pesticides used on farms, on forests, in nurseries and in greenhouses. The workplace practices are designed to reduce or eliminate exposure to pesticides and establish procedures for responding to exposure-related emergencies. Employers are required to inform state regulatory agencies of measures taken to train workers, display basic pesticide safety information and application information, provide agricultural workers, pesticide handlers, agricultural employers, and medical personnel with basic information so they are able to take precautionary or

responsive measures, as appropriate. This training and notification is targeted to agricultural workers who perform tasks related to the cultivation and harvesting of plants in areas treated with pesticides and pesticide handlers who mix, load, and apply pesticides for use in these areas.

V. What are EPA's Burden and Cost Estimates for this ICR?

Under the PRA, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal Agency. For this collection it includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized in this notice. The annual public burden is estimated to be 2,242,442 hours. The following is a summary of the estimates taken from the ICR:

Respondents/affected entities: Agricultural workers, pesticide handlers, employers in farms, nurseries, forestry, and greenhouse establishments.

Estimated total number of potential respondents: 3,245,393.

Frequency of response: As needed.

Estimated total/average number of responses for each respondent: 6.

Estimated total annual burden hours: 2,242,442.

Estimated total annual burden costs: \$83,025,567.

VI. Are There Changes in the Estimates from the Last Approval?

The public respondent burden hours and costs for this ICR remain the same. There have been no changes to the regulations or to the way the program is administered, and the respondent community numbers have not changed.

VII. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR

1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
