

particularly in and adjacent to the communities of New Dorp Beach, Oakwood Beach and Annandale Beach, New York.

1. Description of the Previously Authorized Project: The Federal project authorized in House Document 181, 89th Congress (October 27, 1965), 1st Session provided combined shore and hurricane protection between Ft. Wadsworth and Tottenville Beach; shore protection at Great Kills Park and between Arbutus Lake and Sequine Point. The recommended protective works included beach fill with dunes, groins, levees, floodwalls, interior drainage facilities including pumping stations and relocations. The authorized project was not constructed due to a lack of non-Federal support. The current study is based upon renewed local interest expressed by the New York State Department of Environmental Conservation and the New York City Department of Environmental Protection.

2. Two types of environmental analysis will be conducted; impacts associated with structural and non-structural storm damage reduction improvements and non-structural shore protection improvements, including sand borrow area investigations and analyses required for mitigation planning purposes.

3. Public scoping meeting(s) are expected to be scheduled in April 2001. Meeting(s) will be held in Staten Island at locations not yet determined. Results from the public scoping meeting(s) with the District and Federal, state and local agency coordination will be addressed in the DEIS. Parties interested in receiving notices of public scoping meeting(s) or copies of the Scoping Document should contact Jenine Gallo at the above address.

4. Federal agencies interested in participating as a Cooperating Agency are requested to submit a letter of intent to Colonel William H. Pearce, District Engineer at the above address.

5. Estimated Date of DEIS availability: December 2003.
