

work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedes decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decisions, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3014, Washington, DC 20210.

#### Modifications to General Wage Determination Decisions

The number of decisions listed in the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts" being modified are listed by Volume and State. Dates of publication in the **Federal Register** are in parentheses following the decisions being modified.

*Volume I*  
None.

#### *Volume II*

None.

#### *Volume III*

None.

#### *Volume IV*

None.

#### *Volume V*

None.

#### *Volume VI*

None.

#### *Volume VII*

None.

#### General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon and Related Acts." This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country.

The general wage determinations issued under the Davis-Bacon and related Acts are available electronically by subscription to the FedWorld Bulletin Board System of the National Technical Information Service (NTIS) of the U.S. Department of Commerce at 1-800-363-2068.

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 512-1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the seven separate volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates are distributed to subscribers.

Signed at Washington, DC, this 24th day of January 2001.

#### NUCLEAR REGULATORY COMMISSION

##### Documents Containing Reporting or Recordkeeping Requirements; Office of Management and Budget (OMB) Review

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC has recently submitted to OMB for review the following proposal for collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

1. *Type of submission, new, revision, or extension:* Revision.
2. *The title of the information collection:* Final Rule, 10 CFR part 26, "Changes to the Fitness for Duty Program".
3. *The form number if applicable:* Not applicable.
4. *How often is the collection required:* Annually and on occasion.
5. *Who will be required or asked to report:* All licensees authorized to construct or operate a nuclear power reactor and all licensees authorized to possess, use, or transport unirradiated Category 1 nuclear material.

6. *An estimate of the number of responses:* A reduction of 72 responses (semi-annual to annual report).

7. *The estimated number of annual respondents:* 72 licensees.

8. *An estimate of the number of hours annually needed to complete the requirement or request:* A reduction of approximately of 9,400 hours annually (131 hours per licensee) or a reduction of 2,450 reporting hours and 6,950 of recordkeeping hours.

9. *An indication of whether Section 3504(h), Public Law 96-511 applies:* Applicable.

10. *Abstract:* 10 CFR Part 26, "Fitness-For-Duty Programs," requires licensees to implement fitness-for-duty programs to assure that personnel are not under the influence of any substance or mentally or physically impaired, to retain certain records associated with the management of these programs, and to provide reports concerning the performance of the programs and certain significant events. Compliance with these requirements is mandatory for licensees subject to 10 CFR Part 26.

A revision to 10 CFR Part 26 modifies the information collection requirements to, among other less significant changes, (1) extend coverage to certain classes of fitness-for-duty programs; (2) require licensees to revise their written policy and procedure to incorporate minor administrative procedures, e.g., Medical Review Officer medical review procedures and changes to various technical guidelines contained in Appendix A of 10 CFR Part 26; (3) require all licensees to obtain information in addition to that currently provided in written form from individuals which would indicate whether the individual has a history of substance abuse; and (4) add fitness-for-duty personnel as a third class of people whose negative acts would be reported.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F23, Rockville, MD 20852. OMB clearance packages are available at the NRC worldwide web site <http://www.nrc.gov/NRC/PUBLIC/OMB/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by March 5, 2001. Amy Farrell, Office of Information and Regulatory Affairs (3150-0146), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-7318.

The NRC Clearance Officer is Brenda J. Shelton, 301-415-7233.

Dated at Rockville, Maryland, this 25th day of January 2001.

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-325 and 50-324]

### Carolina Power & Light Company; Brunswick Steam Electric Plant, Units 1 and 2; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption from Title 10 of the Code of Federal Regulations, Part 50, Section 36a(a)(2) (10 CFR 50.36a(a)(2)) for Facility Operating License Nos. DPR-71 and DPR-62, issued to Carolina Power & Light Company (CP&L, the licensee) for operation of the Brunswick Steam Electric Plant, Units 1 and 2, located in Brunswick County, North Carolina.

#### Environmental Assessment

##### Identification of the Proposed

The proposed action is a one-time exemption from the requirements of 10 CFR 50.36a(a)(2) to submit a Radioactive Effluent Release Report no later than 12 months from the date of the last report. Under the proposed exemption, the licensee would delay the next report by 2 months, for a total of 14 months from the previous report. This would be a one-time exemption.

The proposed action is in accordance with the licensee's application for exemption dated December 1, 2000.

##### The Need for the Proposed

In accordance with 10 CFR 50.36a(a)(2), each licensee is required to submit a report to the Commission annually that specifies the quantity of each of the principal radionuclides released to unrestricted areas in liquid and in gaseous effluents during the previous 12 months, including any other information as may be required by the Commission to estimate maximum potential annual radiation doses to the public resulting from effluent releases. The report must be submitted as specified in § 50.4, and the time between submission of the reports must be no longer than 12 months. CP&L has proposed an amendment to Technical

Specification 5.6.3 to change the submittal date for the report to "prior to May 1." The approval of the amendment necessitates the required submittal date for the year 2000 report be changed to "prior to May 1, 2001." With this change, the licensee needs a one-time exemption to allow 14 months between reports.

In summary, the exemption does not affect the information required to be submitted or the time period the report covers, only the date the report is submitted.

##### Environmental Impacts of the Proposed

The NRC has completed its evaluation of the proposed action and concludes that the proposed action involves an administrative activity (a due date change for a required report) unrelated to plant operations.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released off site, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed action does not involve any historic sites. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action. Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

##### Alternatives to the Proposed

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

##### Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for the Brunswick Steam Electric Station.

##### Agencies and Persons Consulted

In accordance with its stated policy, on December 20, 2000, the staff consulted with Mr. Johnny James of the North Carolina Department of
