SUPPLEMENTARY INFORMATION:**I. Background**

On December 14, 1998, we published a notice in the **Federal Register** (63 FR 68780) announcing the establishment of the Medicare Coverage Advisory Committee (MCAC). The charter for the MCAC was signed by the Secretary on November 24, 1998.

The MCAC, chartered under 42 U.S.C. 217(a), section 222 of the Public Health Service Act, as amended, is governed by the provisions of the Federal Advisory Committee Act (FACA) (Public Law 92-463 as amended (5 U.S.C. Appendix 2)), which sets forth standards for the formulation and use of advisory committees.

The MCAC consists of 6 specialty panels and an executive committee (EC), with a total of 120 appointed members from authorities in clinical and administrative medicine, biologic and

physical sciences, public health administration, health care data and information management and analysis, the economics of health care, medical ethics, and other related professions. The MCAC, functioning on its panel basis, reviews and evaluates medical literature, reviews technical assessments, and examines data and information on the effectiveness and appropriateness of medical items and services that are covered or eligible for coverage under Medicare. The panels work from an agenda provided by the MCAC that lists specific issues. The panels develop technical advice to be reviewed and ratified by the EC to assist us in determining reasonable and necessary applications of medical services and technology.

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Notice of funding availability.

SUMMARY: The Substance Abuse and Mental Health Services Administration (SAMHSA) Center for Substance Abuse Prevention (CSAP) announces the

availability of FY 2001 funds for grants for the following activity. This notice is not a complete description of the activity; potential applicants *must* obtain a copy of the Program Announcement, including Part I, CSAP Cooperative Agreement for the Southeast Center for the Application of Prevention Technologies, and Part II, General Policies and Procedures Applicable to all SAMHSA Applications for Discretionary Grants and Cooperative Agreements, before preparing and submitting an application.

Activity	Application deadline	Est. funds FY 2001	Est. No. of awards	Project period
Cooperative Agreement for the Southeast Center for the Application of Prevention Technologies.	March 22, 2001	\$1,500,000	1	2 years

The actual amount available for the award may vary, depending on unanticipated program requirements and the number and quality of applications received. FY 2001 funds for the activity discussed in this announcement were appropriated by the Congress under Public Law 106-310. SAMHSA's policies and procedures for peer review and Advisory Council review of grant and cooperative agreement applications were published in the **Federal Register** (Vol. 58, No. 126, page 35962) on July 2, 1993.

General Instructions: Applicants must use application form PHS 5161-1 (Rev. 7/00). The application kit contains the two-part application materials (complete programmatic guidance and instructions for preparing and submitting applications), the PHS 5161-1 which includes Standard Form 424 (Face Page), and other documentation and forms. Application kits may be obtained from: National Clearinghouse for Alcohol and Drug Information (NCADI), P.O. Box 2345, Rockville, MD 20847-2345. Telephone: 1-800-729-6686.

The PHS 5161-1 application form and the full text of the activity are also available electronically via SAMHSA's World Wide Web Home Page: <http://www.samhsa.gov>.

When requesting an application kit, the applicant must specify the particular activity for which detailed information is desired. All information necessary to

apply, including where to submit applications and application deadline instructions, are included in the application kit.

Purpose: The cooperative agreement for SE Center for Application of Prevention Technology, number SP01-001, referred to as "The SE CAPT," solicits applications for projects that provide clients with technical assistance and training in order to apply consistently the latest research-based knowledge about effective substance abuse prevention programs, practices, and policies.

Eligible Applicants: Applications may be submitted by public and private domestic nonprofit entities such as units of State or local government, community-based organizations, universities, colleges, and hospitals. Applicants must be physically located within the National Prevention Network's Southeast Region.

Amount: CSAP is making \$1.5 million available to support one award under this GFA in FY 2001. This \$1.5 million amount may be increased using CSAP and other funds in each year of the project up to a total of \$3 million. Actual funding levels for each budget period may be significantly augmented on a discretionary basis if current exploratory talks with other federal agencies sharing our interest in substance abuse prevention result in interagency agreements transferring funds to us for this program's use. There

may be no such increases. However, under optimum conditions, substantial increases of funding in any given year are possible. Such increases would be for the purpose of providing the same services to the same clients with greater frequency or to additional clients. All potential applicants should also be aware that any expansion based on interagency agreements for this purpose will not be competed but will be limited to the applicant funded under this announcement.

Period of Support: Support may be requested for a period of up to two years. An annual award will be made subject to continued availability of funds and progress achieved.

Criteria for Review and Funding:

General Review Criteria: Competing applications requesting funding under this activity will be reviewed for technical merit in accordance with established PHS/SAMHSA peer review procedures. Review criteria that will be used by the peer review groups are specified in the application guidance material.

Award Criteria for Scored

Applications: Applications will be considered for funding on the basis of their overall technical merit as determined through the peer review group and the appropriate National Advisory Council review process.

Availability of funds will also be an award criteria. Additional award criteria specific to the programmatic activity
