DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****[Project No. 184-065 California]****El Dorado Irrigation District; Notice of Public Meetings**

April 1, 2002.

The Federal Energy Regulatory Commission (Commission) is reviewing the application for a new license for the El Dorado Project (FERC No. 184), which was filed on February 22, 2000. The El Dorado Project, licensed to the El Dorado Irrigation District (EID), is located on the South Fork American River, in El Dorado, Alpine, and Amador Counties, California. The project occupies lands of the Eldorado National Forest.

The EID, several state and Federal agencies, and several non-governmental agencies have asked the Commission for time to work collaboratively with a facilitator to resolve certain issues relevant to this proceeding. These meetings are a part of that collaborative process. On Monday, April 8, there will be meetings of the aquatics-hydrology workgroup and the project economics workgroup. On Tuesday, April 9, the terrestrial resources workgroup will meet. The meetings will focus on further defining interests and development of management objectives. We invite the participation of all interested governmental agencies, non-governmental organizations, and the general public in this meeting.

On Monday, April 8, the aquatics-hydrology workgroup will meet from 9 am until 3 pm and the project economics workgroup will meet from 3 pm to 5 pm. On Tuesday, April 9, the terrestrial workgroup will meet from 11 am to 5 pm. Both meetings will be held in the Folsom Hilton Garden Inn, located at 221 Iron Point Road, Folsom, California.

For further information, please contact Elizabeth Molloy at (202) 208-0771 or John Mudre at (202) 219-1208.

Proposed Settlement Agreement

AGENCY: Environmental Protection Agency.

ACTION: Notice of proposed settlement agreement; request for public comment.

SUMMARY: In accordance with section 113(g) of the Clean Air Act, as amended, 42 U.S.C. 7413(g), notice is hereby given of a proposed settlement agreement in *Aluminum Association v. U.S. EPA*, No. 00-1211 (D.C. Circuit). This case concerns the National Emission Standard for Hazardous Air Pollutants for Secondary Aluminum Production, 40 CFR part 63, subpart RRR, published at 65 FR 15710 on March 23, 2000. The proposed settlement agreement was lodged with the United States Court of Appeals for the District of Columbia Circuit on April 1, 2002.

DATES: Written comments on the proposed settlement agreement must be received by May 6, 2002.

ADDRESSES: Written comments should be sent to Timothy D. Backstrom, Air and Radiation Law Office (2344A), Office of General Counsel, U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20004. A copy of the proposed settlement agreement is available from Phyllis J. Cochran, (202) 564-7606. A copy of the proposed settlement agreement was also lodged in the case with the Clerk of the United

States Court of Appeals for the District of Columbia Circuit on April 1, 2002.

SUPPLEMENTARY INFORMATION: EPA promulgated the National Emission Standard for Hazardous Air Pollutants for Secondary Aluminum Production, 40 CFR Part 63, Subpart RRR, on March 23, 2000. 65 FR 15710. The Aluminum Association filed a timely petition for review and settlement discussions followed.

The proposed settlement agreement provides that some revisions to Subpart RRR will be made by a proposed rule, and some more urgent revisions will be made by a direct final rule. The proposed rule and direct final rule are to be signed by the EPA Administrator by May 10, 2002, and final action on the proposed rule is due by December 13, 2002.

One issue addressed by the settlement agreement is the desire of the Petitioner to allow for different sources within a secondary aluminum facility to be ducted to the same emission controls. The existing rule expressly provides for emission averaging within a secondary aluminum processing unit or SAPU, an affected source which may include multiple emission units. However, due to statutory constraints, the rule does not permit new emission units to be included in the same SAPU with existing emission units. The amendments to be proposed address this issue in two ways: (1) By permitting existing emission units to be redesignated as new, and (2) by establishing criteria which would permit compliance demonstrations for other commonly ducted units.

The proposed rule also includes alternative procedures for adoption of an operation, maintenance, and monitoring (OM&M) plan, and technical amendments addressing compliance by unvented in-line flux boxes, compliance by sidewall furnaces, procedures for conducting performance tests, alternative monitoring methods, and recordkeeping for flux boxes which do not use reactive flux. The direct final rule will be used to resolve confusion in the structure of the current rule concerning compliance dates, and to defer a few early compliance obligations which would otherwise come due before the principal rulemaking process can be concluded.

For a period of thirty (30) days following the date of publication of this notice, EPA will receive written comments relating to the proposed settlement agreement from persons who were not named as parties or interveners to the litigation in question. EPA or the Department of Justice may withdraw or

withhold consent to the proposed settlement agreement if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act. Unless EPA or the Department of Justice determine, based on any comment which may be submitted, that consent to the settlement agreement should be withdrawn, the terms of the agreement will be affirmed.

Dated: April 1, 2002.

Alan W. Eckert,

Associate General Counsel, Air and Radiation Law Office.

Operating Permits Program; Notice of Location of Response Letters to Citizens Concerning Program Deficiencies in Texas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: The EPA is adding a letter to its web site which responds to citizens' comments on alleged deficiencies in the Texas air operating permits programs. The citizen comments were submitted to EPA as a result of a 90-day comment period EPA provided for members of the public to identify deficiencies they perceive exist in State and local agency operating permits programs required by title V of the Clean Air Act (Act). The 90-day comment period was from December 11, 2000, until March 12, 2001.

FOR FURTHER INFORMATION CONTACT: Jeff Herring, C304-04, Information Transfer and Program Integration Division, Environmental Protection Agency, Research Triangle Park, North Carolina, 27711. Telephone: 919-541-3195. Internet address: herring.jeff@epa.gov.

SUPPLEMENTARY INFORMATION: On December 11, 2000 (65 FR 77376), EPA announced a 90-day comment period during which the public could submit comments identifying deficiencies they perceived to exist in State and local agency operating permits programs required by title V of the Act. The 90-day comment period ended on March 12, 2001.

The December 11, 2000 notice solicited comment from the public regarding either deficiencies in the elements of the approved program, such
