

on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725—17th Street, NW, Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send email to splimpto@nsf.gov. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703-292-7556.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Title of Collection: Survey of Graduate Students and Postdoctorates in Science and Engineering.

OMB Approval Number: 3145-0062.

Expiration Date of Approval: September 30, 2002.

Type of Request: Intent to seek approval to extend with revision an information collection for three years.

Proposed Project

Graduate students in science, engineering, and health fields in U.S. colleges and universities, by source and mechanism of support and by demographic characteristics. An electronic/mail survey, the Survey of Graduate Students and Postdoctorates in Science and Engineering originated in 1966 and has been conducted annually since 1972. The survey is the academic graduate enrollment component of the NSF statistical program that seeks to “provide a central clearinghouse for the collection, interpretation, and analysis of data on the availability of, and the current and projected need for, scientific and technical resources in the United States, and to provide a source of information for policy formulation by other agencies of the Federal government” as mandated in the National Science Foundation Act of 1950.

The proposed project will continue the current survey cycle for three to five years. The annual Fall surveys for 2002 through 2006 will survey the universe of approximately 725 reporting units at approximately 600 institutions offering accredited graduate programs in science, engineering, or health. The survey has provided continuity of statistics on graduate school enrollment and support for graduate students in all science & engineering (S&E) and health fields, with separate data requested on

demographic characteristics (race/ethnicity and gender by full-time and part-time enrollment status). Statistics from the survey are published in NSF’s annual publication series Graduate Students and Postdoctorates in Science and Engineering, in NSF publications Science and Engineering Indicators, Women, Minorities, and Persons with Disabilities in Science and Engineering, and are available electronically on the World Wide Web.

The survey will be sent primarily to the administrators at the Institutional Research Offices. To minimize burden, NSF instituted a Web-based survey in 1998 through which institutions can enter data directly or upload preformatted files. The Web-based survey includes a complete program for editing and trend checking and allows institutions to receive their previous year’s data for comparison. Respondents will be encouraged to participate in this Web-based survey should they so wish. Traditional paper questionnaires will also be available, with editing and trend checking performed as part of the survey processing. Overall burden is expected to be reduced from 2002 to 2004 due to expanded use by institutions of the Web-based data collection system.

In Fall 2000, the survey achieved a total response rate of 99.4 percent for institutions and 99.0 percent for departments.

Estimate of Burden

Burden estimates are as follows:

	Total No. of institutions	Departments	Burden hours
Fiscal year:			
1998	722	11,718	1.83
1999	720	11,833	2.53
2000	717	11,899	2.42

Respondents: Individuals.

Estimated Number of Responses: 11,899 (from the 2000 collection).

Estimated Total Annual Burden on Respondents: 28,796 hours (from the 2000 collection).

Frequency of Responses: Annually.

Dated: April 1, 2002.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-M

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Geosciences; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Committee for Geosciences (1755).

Dates: April 24–26, 2002.

Time: 10:00 a.m.–5:30 p.m. Wednesday, April 24, 2002. 8:30 a.m.–5:30 p.m. Thursday, April 25, 2002. 8:30 a.m.–3:00 p.m. Friday, April 26, 2002.

Place: National Science Foundation, 4201 Wilson Boulevard, Suite 1235 Arlington, VA 22230.

Type of Meeting: Open.

Contact Person: Dr. Thomas Spence, Directorate for Geosciences, National Science Foundation, Suite 705, 4201 Wilson Boulevard, Arlington, Virginia 22230, Phone 703-292-8500.

Minutes: May be obtained from the contact person listed above.

Purpose of Meeting: To provide advice, recommendations, and oversight concerning support for research, education, and human resources development in the geosciences.

Agenda

Day 1: Education and Diversity Subcommittee Meeting, Division Subcommittee Meetings.

Day 2: Directorate activities and plans, Education, Human Resources, and Diversity.

Day 3: Information Exchange, GPRA.

Dated: April 2, 2002.

Susanne Bolton,

Committee Management Officer.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget (OMB) Review

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

1. *Type of submission, new, revision, or extension:* Revision.

2. *The title of the information collection:* Proposed rule, Compatibility with IAEA Transportation Safety Standards (TS-R-1) and Other Transportation Safety Amendments (10 CFR part 71).

3. *The form number, if applicable:* Not applicable.

4. *How often the collection is required:* Biennial and on occasion.

5. *Who will be required or asked to report:* NRC licensees, Certificate of Compliance (CoC) holders, and applicants for a CoC.

6. *An estimate of the number of responses:* 83 (A total of 37 responses [8 for CoC holders and applicants and 29 annualized one-time responses from licensees] plus 46 recordkeepers).

7. *The estimated number of annual respondents:* 75 (46 CoC holders and applicants and an annualized 29 one-time licensee respondents).

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 1,505 hours (676 hours for reporting and 829 hours for recordkeeping).

9. *An indication of whether Section 3507(d), Pub. L. 104-13 applies:* Applicable.

10. *Abstract:* The proposed rule amends NRC regulations on packaging and transporting radioactive material to be compatible with the International Atomic Energy Agency (IAEA) standards and to codify other applicable requirements. The proposed rule would add CoC holders and applicants to the list of regulated entities subject to mandatory requirements such as quality assurance program and reporting. A new subpart I, Type B(DP) Package Approval, is being created to achieve a parallel regulatory structure with part 72 regulations and to provide an alternative approach for approving Type B(DP) dual purpose packages used for storage and transport of spent fuels. If used, subpart I will reduce burden, improve effectiveness and efficiency, and ensure consistency between parts 71 and 72 requirements.

Submit, by May 6, 2002, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the submittal may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room 0-1F23, Rockville, MD 20852. The proposed rule indicated in "Compatibility with IAEA Transportation Safety Standards (TS-R-1) and Other Transportation Safety Amendments" is or has been published in the **Federal Register** within several days of the publication date of this **Federal Register** Notice. The OMB clearance package and rule are available at the NRC worldwide web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html> for 60 days after the signature date of this notice and are also available at the rule forum site, <http://ruleforum.llnl.gov>.

Comments and questions should be directed to the OMB reviewer by May 6, 2002:

Bryon Allen, Office of Information and Regulatory Affairs (3150-0008), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-3087.

The NRC Clearance Officer is Brenda Jo. Shelton, 301-415-7233.

Dated at Rockville, Maryland, this 28th day of March, 2002.

For the Nuclear Regulatory Commission.

Brenda Jo. Shelton,

NRC Clearance Officer, Office of the Chief Information Office.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 71-0122, Approval No. 0122 EA-01-164]

In the Matter of J.L. Shepard & Associates, San Fernando, CA; Confirmatory Order Relaxing Order (Effective Immediately)

I

J.L. Shepherd & Associates (JLS&A) was the holder of Quality Assurance (QA) Program Approval for Radioactive Material Packages No. 0122 (Approval No. 0122), issued by the U.S. Nuclear Regulatory Commission (NRC or Commission) pursuant to 10 CFR part 71, subpart H. QA activities authorized by Approval No. 0122 include: design, procurement, fabrication, assembly, testing, modification, maintenance, repair, and use of transportation packages subject to the provisions of 10 CFR part 71. Approval No. 0122 was originally issued January 17, 1980. In addition to having a QA program approved by the NRC to satisfy the provisions of 10 CFR part 71, subpart H, to transport or deliver for transport licensed material in a package, JLS&A is required by 10 CFR part 71, Subpart C, to have and comply with the package's Certificate of Compliance (CoC) issued by the NRC. Based on JLS&A's failure to comply with 10 CFR part 71, QA Program Approval No. 0122 was withdrawn, by the immediately effective NRC Order, dated July 3, 2001, (66 FR 36603, July 12, 2001).

II

The NRC lacked confidence that JLS&A would implement the QA Program approved by the NRC in accordance with 10 CFR part 71, Subpart H, in a manner that would assure the required preparation and use of transportation packages in full conformance with the terms and conditions of an NRC CoC and with 10 CFR part 71. JLS&A's QA Approval No. 0122 was withdrawn by an immediately effective Order issued July 3, 2001, (July 2001 Order).

By letters dated August 16, and September 13, 2001, JLS&A responded to the July 2001 Order, and requested
