Abstract: The major objective of Exporter Services is to expand U.S. agricultural exports by helping U.S. companies to sell their products outside the United States. These services are offered to both new and experienced exporters. Companies wanting to export can participate in the following programs: "The Buyer Alert" service is a proven way for U.S. companies to inform foreign buyers about their products; "Trade Leads" provide U.S. exporters with sales opportunities generated by overseas offices of FAS and contains information about the buyer, products they are seeking, and general terms of the purchase; the "U.S. Suppliers' List" service is an on-line searchable database of over 5,000 U.S. exporters and their products, used by FAS to help facilitate connecting potential buyers with U.S. suppliers; and the "Foreign Buyer List" service is available to U.S. companies to learn about 20,000 buyers in more than 25 countries who specialize in the import and distribution of U.S. products in their country. Each year a certain number of Trade Shows are selected in the best prospective markets to host a U.S.A. pavilion where U.S. companies can promote their products to buyers. The latest technology makes it possible to integrate an on-line virtual trade show with these export services. The Exporter Assistance section of the FAS web site <http://www.fas.usda.gov/>, a one-stop-shop for either the experienced or novice exporter offers information about exporting and easy access to

register for these services. Customer service surveys and evaluations are anticipated in order to improve the effectiveness of these services. The information is necessary to manage, plan, and evaluate the effectiveness of these services, which are intended to help U.S. companies to market and sell their products in overseas markets. Authority for these activities falls under 7 U.S.C. 1761 and is voluntary for U.S. companies to participate. A small fee is charged for some of the services. Estimate of Burden: The burden to U.S. exporters is estimated to average 0.25 hours per response.

Respondents: U.S. agricultural exporters of food, farm, and forest products.

Estimated Number of Respondents: 7500 per annum.

Estimated Number of Responses per Respondent: 4 per annum.

Estimated Total Annual Burden of Respondents: 7,500 hours per annum.

Copies of this information collection can be obtained from Kimberly A. Chisley, the Agency Information Collection Coordinator, at (202) 720-2568.

All responses to this notice will be summarized and included in the request for OMB approval.

All comments will also become a matter of public record.

Signed at Washington, D.C. on April 2, 2002.
