DEPARTMENT OF LABOR

Occupational Safety and Health Administration

29 CFR Part 1926

[Docket # S-018]

RIN 1218-AB88

Safety Standards for Signs, Signals, and Barricades

AGENCY: Occupational Safety and Health Administration, Labor.

ACTION: Proposed rule; request for comments.

SUMMARY: The Occupational Safety and Health Administration (OSHA) is

proposing to amend construction industry standards to require that traffic control signs, signals, barricades or devices protecting construction workers conform to Part VI of the 1988 Edition of the Federal Highway Administration (FHWA) Manual on Uniform Traffic Control Devices (MUTCD), with 1993 revisions (Revision 3) or the Millennium Edition of the FHWA MUTCD (Millennium Edition), instead of the American National Standards Institute (ANSI) D6.1-1971, Manual on Uniform Traffic Control Devices for Streets and Highways (1971 MUTCD). This action is consistent with OSHA's June 16, 1999 interpretation letter stating that the agency would allow employers to comply with Revision 3 in lieu of the 1971 MUTCD.

Because OSHA believes the amendment is non-controversial, the Agency is issuing it as a Direct Final Rule published in the Final Rules section of today's **Federal Register**. If no significant adverse comment is received on the Direct Final Rule, OSHA will confirm the effective date of the Final Rule. If significant adverse comment is received, OSHA will withdraw the Direct Final Rule and proceed with rulemaking on this proposal. A subsequent **Federal Register** document will be published to announce OSHA's action.

DATES: Written comments and requests for a hearing on this proposed rule must be submitted or sent electronically by June 14, 2002.

ADDRESSES: Submit three copies of written comments to OSHA Docket Office, Docket No. S-018, U.S. Department of Labor, 200 Constitution Avenue NW., Room N-2625, Washington, DC 20210; telephone (202) 693-2350.

SUPPLEMENTARY INFORMATION:

Background

This proposed rule applies to employers involved in road construction and repair operations. It addresses the types of signs, signals, and barricades that must be used in areas where road-work is being performed. A complete discussion of the changes noted in Revision 3 and the Millennium Edition, as well as an economic analysis, is published in the preamble to the Direct Final Rule. That discussion is incorporated in this proposal.

other regulatory impacts of this action on the regulated community. OSHA is not requesting comment on any issues or opening the record for any issue other than those related to this amendment to 29 CFR 1926.200, 201, and 1926.202.
