

Note: Use Column A to record funds requested for the initial period of performance (i.e. 12 months, 18 months, etc.); Column B to record changes to Column A (i.e. requests for additional funds or line item changes; and Column C to record the totals (A plus B).

Instructions for Part II—Budget Information

Section A—Budget Summary by Categories

1. *Personnel:* Show salaries to be paid for project personnel which you are required to provide with W2 forms.

2. *Fringe Benefits:* Indicate the rate and amount of fringe benefits.

3. *Travel:* Indicate the amount requested for staff travel. Include funds to cover at least one trip to Washington, DC for project director or designee.

4. *Equipment:* Indicate the cost of non-expendable personal property that has a useful life of more than one year with a per unit cost of \$5,000 or more. Also include a detailed description of equipment to be purchased including price information.

5. *Supplies:* Include the cost of consumable supplies and materials to be used during the project period.

6. *Contractual:* Show the amount to be used for (1) procurement contracts (except those which belong on other lines such as supplies and equipment); and (2) sub-contracts/grants.

7. *Other:* Indicate all direct costs not clearly covered by lines 1 through 6 above, including consultants.

8. *Total, Direct Costs:* Add lines 1 through 7.

9. *Indirect Costs:* Indicate the rate and amount of indirect costs. Please include a copy of your negotiated Indirect Cost Agreement.

10. *Training /Stipend Cost:* (If allowable).

11. *Total Federal funds Requested:* Show total of lines 8 through 10.

Section B—Cost Sharing/Matching Summary

Indicate the actual rate and amount of cost sharing/matching when there is a cost sharing/matching requirement. Also include percentage of total project cost and indicate source of cost sharing/matching funds, i.e. other Federal source or other Non-Federal source.

Note: Please include a Detailed cost analysis of each line item.

Appendix C: Guidelines for Project Selection.

In developing their proposals, potential sub-contractors should propose an approach that will support the goals of USDOL's Child Labor Education Initiative. The Grantee will review and accept proposals for funding from

organizations on objectives that buttress USDOL's Child Labor Education Initiative's four broad objectives:

1. *Raise awareness of the importance of education for all children and mobilize a wide array of actors to improve and expand education infrastructures.*

Actions under this objective will include awareness raising, development of multi-sectoral partnerships and networks in support of the education of child workers in target countries/worldwide, and making child workers a key target group in "Education for All" and basic education initiatives in target countries. Relevant Education for All and Dakar Framework for Action targets include: (1) early childhood education and care; (2) primary education; (3) learning achievement and outcomes; (4) training in essential skills; and (5) education for better living. Partnerships and networks can include organizations of parents, teachers, the private sector, NGOs, the media, and faith-based organizations interested in promoting the welfare and education of children and the reduction and eventual elimination of child labor.

2. *Strengthen formal and transitional education systems that encourage working children and those at risk of working to attend school.*

All actions under this objective will correspond to the needs of children removed from work and children at risk of working and could include pilot direct action programs to test approaches to the retention and academic success of these special target groups. Projects to be funded under the education innovations program could include targeted teacher training to improve classroom methods and strengthen the capacity of educators to nurture the academic success of children removed from child labor; development and field testing of learning materials that improve educational quality and are relevant to communities where working children live; development or improvement of pre-vocational and vocational programs; innovative partnerships with the private sector and other organizations to enhance the relevance of schooling for children and to provide marketable skills for children reaching employable age; development and pilot testing of pre-school and extracurricular/enrichment activities for children removed from work or at risk of entering the workforce.

3. *Strengthen national institutions and policies on education and child labor.*

Projects to be funded under the education innovations program to correspond with this objective could include country assessments with recommendations on how to effectively incorporate child laborers as a target group in Education for All and other national basic education policies; activities such as conferences and workshops that encourage consultation and joint policy and program planning among national institutions working in education and child labor policy; provision of training and technical assistance to staff of key organizations (e.g., education system and school administrators, teachers' unions, policy units in Ministries of target countries, etc.) to increase their capacity in

areas such as leadership, management, strategic planning, educational finance, implementation of policy change, and outreach to constituencies in order to effectively implement education programs that benefit child laborers; the development and/or strengthening of monitoring and evaluation of the educational status and performance of children removed from work or at risk of entering the workforce.

4. *Ensure the long-term sustainability of these efforts.*

Projects to be funded under the education innovations program to correspond to this objective could include the development of strategies for increasing resources for the education of children removed from child labor; strengthening the capacity of organizations in the target countries to mobilize resources and develop volunteer and other programs that benefit children removed from work or at risk of entering the workforce; the development of corporate citizen and philanthropic education initiatives that benefit children removed from work or at risk of entering the workforce.

[FR Doc. 02-9517 Filed 4-17-02; 8:45 am]

BILLING CODE 4510-28-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petitions for Modification

The following parties have filed petitions to modify the application of existing safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. Consolidation Coal Company

[Docket No. M-2002-028-C]

Consolidation Coal Company, Consol Plaza, 1800 Washington Road, Pittsburgh, Pennsylvania 15241-1421 has filed a petition to modify the application of 30 CFR 75.364(b)(2) (Weekly examination) to its Loveridge No. 22 Mine (I.D. No. 46-01433) located in Marion County, West Virginia. The petitioner requests that the Proposed Decision and Order for its previously granted petition for modification, docket number M-93-275-C, be amended as it relates to air courses ventilating the No. 3 North seals and the No. 2-1/2 North seals at the Loveridge No. 22 Mine. The petitioner requests that paragraph 4 of the PDO be amended to permit a certified person to conduct weekly examinations of each of the eight (8) monitoring stations to evaluate the quality of (methane and oxygen content measured by a hand held instrument) and the quantity of air entering and exiting the monitoring station, and to determine air course leakage. The petitioner asserts that the proposed alternative method would provide at

least the same measure of protection as the existing standard.

2. Consolidation Coal Company

[Docket No. M-2002-029-C]

Consolidation Coal Company, Consol Plaza, 1800 Washington Road, Pittsburgh, Pennsylvania 15241-1421 has filed a petition to modify the application of 30 CFR 75.364(b)(2) (Weekly examination) to its Loveridge No. 22 Mine (I.D. No. 46-01433) located in Marion County, West Virginia. The petitioner requests a modification of that part of the existing standard that requires a certified person to make a weekly examination of the return air course from the Back Door Seals and the 2 East Seals through the Main South headings to the Sugar Run return fan. The petitioner proposes to establish evaluation check points 1 through 9 to insure proper ventilation between the Back Door Seals and 2 East Seals area through the Main South headings to the Sugar Run return fan instead of conducting weekly examinations of the entire area. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

3. Warrior Coal, LLC

[Docket No. M-2002-030-C]

Warrior Coal, LLC, P.O. Box Drawer 1210, Madisonville, Kentucky 42431 has filed a petition to modify the application of 30 CFR 75.1103-4(a) (Automatic fire sensor and warning device systems; installation; minimum requirements) to its Cardinal Mine (I.D. No. 15-17216) located in Hopkins County, Kentucky. The petitioner requests a modification of the existing standard to permit a carbon monoxide detection system to be installed in belt entries to identify a sensor location in lieu of identifying each belt flight. The petitioner proposes to install a carbon monoxide monitoring system as an early warning fire detection system in all belt entries. The petitioner has outlined specific procedures in this petition that would be used when implementing this proposed alternative method. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

4. Drummond Company, Inc.

[Docket No. M-2002-031-C]

Drummond Company, Inc., P.O. Box 10246, Birmingham, Alabama 35202-0246 has filed a petition to modify the application of 30 CFR 75.902 (Low- and medium-voltage ground check monitor circuits) to its Shoal Creek Mine (I.D.

No. 01-02901) located in Jefferson County, Alabama. The petitioner requests a modification of that part of the existing standard that pertains to circuits interruption by an approved ground check device causing a circuit breaker to open. The petitioner proposes to interrupt the low- and medium voltage circuits with ground check relays used in conjunction with fully rated contactors in lieu of circuit breakers. The petitioner states that this circuit arrangement would be used on low- and medium voltage power distribution circuits necessary for belt conveyor operation. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

5. Fools Gold Energy Corporation

[Docket No. M-2002-032-C]

Fools Gold Energy Corporation, 2255 Upper Johns Creek Road, Kimper, Kentucky 41539 has filed a petition to modify the application of 30 CFR 75.503 (Permissible electric face equipment; maintenance) and 30 CFR 18.41(f) (Plug and receptacle-type connectors) to its No. 4 Mine (I.D. No. 15-16036) located in Pike County, Kentucky. The petitioner proposes to use permanently installed, spring-loaded locking devices to secure battery plugs on mobile battery-powered machines to prevent unintentional loosening of the battery plugs from battery receptacles, and to eliminate the potential hazards associated with difficult removal of padlocks during emergency situations. The petitioner asserts that using padlocks to secure battery plugs would result in diminution of safety to the miners.

6. Grace Mining, Inc.

[Docket No. M-2002-033-C]

Grace Mining, Inc., P.O. Box 520, Virgie, Kentucky 41572 has filed a petition to modify the application of 30 CFR 75.503 (Permissible electric face equipment; maintenance) and 30 CFR 18.41(f) (Plug and receptacle-type connectors) to its No. 4 Mine (I.D. No. 15-16583) located in Pike County, Kentucky. The petitioner proposes to use permanently installed, spring-loaded locking devices to secure battery plugs on mobile battery-powered machines to prevent unintentional loosening of the battery plugs from battery receptacles, and to eliminate the potential hazards associated with difficult removal of padlocks during emergency situations. The petitioner asserts that using padlocks to secure

battery plugs would result in diminution of safety to the miners.

7. Chestnut Coal

[Docket No. M-2002-034-C]

Chestnut Coal, R.D. 3, Box 142B, Sunbury, Pennsylvania 17801 has filed a petition to modify the application of 30 CFR 75.1312(a) (Explosives and detonators in underground magazines) to its No. 10 Slope Mine (I.D. No. 36-07059) located in Northumberland County, Pennsylvania. The petitioner requests a modification of the existing standard to permit the quantity of explosives kept underground to be more than the maximum 48 hour supply. The petitioner proposes to transport explosive powder underground once a week and store the powder in an adequate storage magazine located in a dry area instead of storing a 48-hour supply of powder. The petitioner states that the powder would be used on a regular basis and any powder left over from the previous week would be rotated so that the old supply is used first. The petitioner also states that if the mine is idle for an extended period of time, any powder left in the magazine would be removed from the mine and sent back to the supplier. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

8. Drummond Company, Inc.

[Docket No. M-2002-035-C]

Drummond Company, Inc., P.O. Box 10246, Birmingham, Alabama 35202-0246 has filed a petition to modify the application of 30 CFR 75.900 (Low- and medium-voltage circuits serving three-phase alternating current equipment; circuit breakers) to its Shoal Creek Mine (I.D. No. 01-02901) located in Jefferson County, Alabama. The petitioner requests a modification of the existing standard that pertain to the use of circuit breakers to provide undervoltage and grounded phase protection to low- and medium voltage circuits. The petitioner proposes to interrupt the low- and medium voltage circuits with ground check relays used in conjunction with fully rated contactors in lieu of using circuit breakers. The petitioner states that this circuit arrangement would be used on low- and medium voltage power distribution circuits necessary for belt conveyor operation. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

9. New Century Mining, Inc.

[Docket No. M-2002-036-C]

New Century Mining, Inc., P.O. Box 1781, Alabaster, Alabama 35007-1781 has filed a petition to modify the application of 30 CFR 77.214(a) (Refuse piles; general) to its Pineywoods Preparation Plant (I.D. No. 01-02976) located in Shelby County, Alabama. The petitioner requests a modification of the existing standard to permit construction of a coarse refuse disposal area, Coarse Refuse Disposal Area No. 5, within the face-up area of the abandoned Kodiak Mine No. 1. The petitioner proposes to cover the existing sealed entries with additional impervious, non-combustible earthen material which would contain enough fines to ensure an airtight seal and place the material in lifts not to exceed 12 inches. The petitioner has listed in this petition specific procedures that would be used when implementing its proposed alternative method. The petitioner asserts that application of the existing standard would result in a diminution of safety to the miners and that the proposed alternative method would provide at least the same measure of protection as the existing standard.

10. Rivers Edge Mining, Inc.

[Docket No. M-2002-037-C]

Rivers Edge Mining, Inc., 1970 Barrett Court, P.O. Box 1990, Henderson, Kentucky 42420 has filed a petition to modify the application of 30 CFR 75.503 (Permissible electric face equipment; maintenance) and 30 CFR 18.41(f) (Plug and receptacle-type connectors) to its Rivers Edge Mine (I.D. No. 46-08890) located in Boone County, West Virginia. The petitioner proposes to use a threaded ring and a spring-loaded device instead of a padlock on all battery plug connectors on mobile battery-powered machines used in by the last open crosscut to prevent the plug connector from accidentally disengaging while under load. Warning tags stating "Do Not Disengage Plugs Under Load" will be placed on all battery plug connectors on the battery-powered machines. The petitioner states that training in the safe practices and provision for compliance with its proposed alternative method would be provided to all persons who are required to operate or maintain the battery-powered machines. The petitioner asserts that application of the existing standard would result in a diminution of safety to the miners and that the proposed alternative method would provide at least the same measure of protection as the existing standard.

11. Coastal Coal—West Virginia, LLC

[Docket No. M-2002-038-C]

Coastal Coal—West Virginia, LLC, Brooks Run Operation, 61 Missouri Run Road, Cowen, West Virginia 26206 has filed a petition to modify the application of 30 CFR 75.1002 (Location of trolley wires, trolley feeder wires, high-voltage cables and transformers) to its Mine No. 4A East (I.D. No. 46-07125) located in Webster County, West Virginia. The petitioner proposes to use continuous mining machines with nominal voltage power circuits not to exceed 2,400 volts at its Mine No. 4A East. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

Request for Comments

Persons interested in these petitions are encouraged to submit comments via e-mail to "comments@mssha.gov," or on a computer disk along with an original hard copy to the Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Room 627, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before May 20, 2002. Copies of these petitions are available for inspection at that address.

Dated at Arlington, Virginia this 15th day of April, 2002.

Marvin W. Nichols, Jr.,

Director, Office of Standards, Regulations, and Variances.

BILLING CODE 4510-43-P

NUCLEAR REGULATORY COMMISSION
Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* 10 CFR part 26, "Fitness for Duty Program".

2. *Current OMB approval number:* 3150-0146.

3. *How often the collection is required:* On occasion.

4. *Who is required or asked to report:* All licensees authorized to construct or operate a nuclear power reactor and all licensees authorized to possess, use, or transport unirradiated Category 1 nuclear material.

5. *The number of annual respondents:* 74.

6. *The number of hours needed annually to complete the requirement or request:* 63,284 (6265 hours of reporting burden and 57,019 hours of recordkeeping burden).

7. *Abstract:* 10 CFR part 26, "Fitness for Duty Program," requires licensees of nuclear power plants and licensees authorized to possess, use, or transport unirradiated Category 1 nuclear material to implement fitness-for-duty programs to assure that personnel are not under the influence of any substance or mentally or physically impaired, to retain certain records associated with the management of these programs, and to provide reports concerning significant events and program performance. Compliance with these program requirements is mandatory for licensees subject to 10 CFR part 26.

Submit, by June 17, 2002, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F23, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Brenda Jo. Shelton, U.S. Nuclear Regulatory Commission, T-6 E6, Washington, DC 20555-0001, by telephone at 301-415-7233, or by Internet electronic mail at infocollects@nrc.gov.
