

NOTIFICATION PROCEDURE:

Individuals seeking to determine whether information about them is contained in this system should address written inquiries to the Commanding Officer, Naval Education and Training Professional Development and Technology Center, 6490 Saufley Field Road, Pensacola, FL 32509-5241.

Individuals should provide their full name, Social Security Number, branch of service, and signature.

RECORD ACCESS PROCEDURES:

Individuals seeking access to information about them contained in this system should address written inquiries to the Commanding Officer, Naval Education and Training Professional Development and Technology Center, 6490 Saufley Field Road, Pensacola, FL 32509-5241.

Individuals should provide their full name, Social Security Number, branch of service, and signature.

CONTESTING RECORD PROCEDURES:

The Navy's rules for accessing records, and for contesting contents and appealing initial agency determinations are published in Secretary of the Navy Instruction 5211.5; 32 CFR part 701; or may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Subject individual; Standard Training Activity Support System; Navy Personnel Command; Application for Tuition Assistance Form (NAVMC 10883); education counselors; educational institutions; Tuition Assistance Authorization form (NAVEDTRA 1560/5); and Academic Skills contractor.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

BILLING CODE 5001-08-P

DEPARTMENT OF EDUCATION**Notice of Proposed Information Collection Requests**

AGENCY: Department of Education.

SUMMARY: The Acting Leader, Regulatory Information Management Group, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before June 24, 2002.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: April 18, 2002.

William Burrow,

Acting Leader, Regulatory Information Management, Office of the Chief Information Officer.

Federal Student Aid

Type of Review: Revision.

Title: Federal Family Education Loan (FFEL) Deferment Requests.

Frequency: Annually.

Affected Public: Individuals or household.

Reporting and Recordkeeping Hour Burden

Responses: 1,148,819, *Burden Hours:* 183,811.

Abstract: These forms will serve as the means of collecting information necessary to determine whether a FFEL

borrower qualifies for a specific type of loan deferment.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, or should be addressed to Vivian Reese, Department of Education, 400 Maryland Avenue, SW, Room 4050, Regional Office Building 3, Washington, DC 20202-4651. Requests may also be electronically mailed to the internet address OCIO_IMG_Issues@ed.gov or faxed to 202-708-9346. Please specify the complete title of the information collection when making your request. Comments regarding burden and/or the collection activity requirements should be directed to Joseph Schubart at (202) 708-9266 or via his internet address Joe.Schubart@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

DEPARTMENT OF EDUCATION

[CFDA No. 84.259A]

Native Hawaiian Vocational Education Program

AGENCY: Office of Vocational and Adult Education, Department of Education.

ACTION: Notice of availability of assistance for ALU LIKE, Inc. under the Native Hawaiian Vocational Education Program (NHVEP).

SUMMARY: The NHVEP provides financial assistance to projects that provide vocational training and related activities for the benefit of Native Hawaiians. Eligible program applicants are organizations primarily serving and representing Native Hawaiians that are recognized by the Governor of the State of Hawaii (the Governor).

In December 2001, the Governor recommended that the Department of Education consider ALU LIKE, Inc. of Honolulu for funding under the NHVEP. We have, therefore, requested an application from ALU LIKE, Inc. We will review the ALU LIKE, Inc. application for compliance with section 116(h) of the Carl D. Perkins Vocational and Technical Education Act of 1998 (the Perkins Act). If the application is approved, we will award a grant of up to five years to ALU LIKE, Inc. on or about July 31, 2002.

Funds currently available for the NHVEP are \$2,750,000 from the FY 2001 appropriation and \$2,950,000 from the FY 2002 appropriation. Funding for

subsequent project years is subject to the availability of appropriations and to the grantee making substantial progress in meeting its goals and objectives, in accordance with 34 CFR 75.253.

FOR FURTHER INFORMATION CONTACT: Paul Geib, U.S. Department of Education, 400 Maryland Avenue, SW., room 4525, Mary E. Switzer Building, Washington, DC 20202-7242. Telephone: (202) 205-9962 or via Internet: paul.geib@ed.gov.

If you use a telecommunications device for the deaf (TDD), you may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m. Eastern Time.

Individuals with disabilities may obtain this document in an alternative format (e.g., Braille, large print, audiotope, or computer diskette) on request to the program contact person listed at the beginning of this section.

Electronic Access to This Document

You may view this document, as well as all other Department of Education documents published in the **Federal Register**, in text or Adobe Portable Document Format (PDF) on the Internet at the following site: www.ed.gov/legislation/FedRegister.

To use PDF you must have Adobe Acrobat Reader, which is available free at this site. If you have questions about using PDF, call the U.S. Government Printing Office (GPO), toll free, at 1-888-293-6498; or in the Washington, DC area at (202) 512-1530.

Note: The official version of this document is the document published in the **Federal Register**. Free Internet access to the official edition of the **Federal Register** and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>.

Program Authority: 20 U.S.C. 2326.

Dated: April 19, 2002.

Carol D'Amico,

Assistant Secretary, Office of Vocational and Adult Education.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

National Nuclear Security Administration Office of Los Alamos Site Operations; Floodplain Statement of Finding for the Connector Road Between Technical Areas 22 and 8 at Los Alamos National Laboratory, Los Alamos, New Mexico

AGENCY: National Nuclear Security Administration, Office of Los Alamos Site Operations, Department of Energy.

ACTION: Floodplain Statement of Finding.

SUMMARY: This Floodplain Statement of Findings is for the construction of a connector road about one mile in length between Technical Areas (TAs) 22 and 8 at Los Alamos National Laboratory (LANL). A short segment, less than 200 feet in length, of the road will cross a floodplain area within Pajarito Canyon, located within the western portion of LANL. In accordance with 10 CFR part 1022, the Department of Energy (DOE), National Nuclear Security Administration (NNSA) Office of Los Alamos Site Operations has prepared a floodplain/wetland assessment and will perform this proposed action in a manner so as to avoid or minimize potential harm to or within the affected floodplain.

FOR FURTHER INFORMATION CONTACT: Elizabeth Withers, U.S. Department of Energy, National Nuclear Security Administration, Office of Los Alamos Site Operations, 528 35th Street, Los Alamos, NM 87544. Telephone (505) 667-8690, of facsimile (505) 667-9998; or electronic address: ewithers@doeal.gov. For Further Information on General DOE Floodplain Environmental Review Requirements, contact: Carol M. Borgstrom, Director, Office of NEPA Policy and Compliance, EH-42, Department of Energy, 100 Independence Avenue, SW., Washington DC 20585-0119. Telephone (202) 586-4600 or (800) 472-2756, facsimile (202) 586-7031.

SUPPLEMENTARY INFORMATION: In accordance with DOE regulations for compliance with floodplain and wetlands environmental review requirements (10 CFR part 1022), NNSA prepared a floodplain/wetland assessment for this action. The NNSA published a Notice of Floodplain Involve (Volume 67, Number 63). This Notice announced that the floodplain/wetland assessment document was available for a 15-day review period and that copies of the document could be obtained by contacting Ms. Withers at the above address or were available for review at two public DOE reading rooms in Los Alamos and Albuquerque, New Mexico. No comments were received from the **Federal Register** notice on the proposed floodplain action.

Project Description: In March 2002, NNSA considered a proposal for constructing about a mile-long, two lane paved road that would link TA-22 with an existing road, Anchor Ranch Road, within TA-8. This new road will provide a second means for access to facilities located at TA-22; the existing TA-22 access road will be restricted to

emergency use. The new road will correct traffic safety hazards associated with use of the existing TA-22 access road. The area surrounding TA-22 and TA-8 is forested and having a secondary access road to the TA-22 facilities is an important fire safety measure. Construction of the road will commence in fiscal year 2003 and be completed in less than 12 months.

Alternatives: Alternative routes for the road were considered but eliminated from future consideration. A combination of site factors were considered that lead to the identification of the proposed route as being the least disruptive to existing environmental resources in the area. The location of the road will also serve as a appropriately placed fuel break for enhancing the protection of TA-22 facilities in the event of a wildfire.

Floodplain Impacts: The proposed action would have the potential for minimal impacts the floodplain. Should a rain event occur during this activity, there may be some sediment movement down canyon because of the loosened condition of the soil from the clearing and construction activities.

Floodplain Mitigation: Placement of Best Management Practices (such as silt fences, straw bales or wattles, or wooden or rock structures to slow down water runoff and run-on at cleared sites) at the construction area and post-construction reseeding and revegetation along the sides of the roadway will minimize soil disturbance and reduce or prevent the potential for soil erosion. The road design will include an appropriately culvert so that downstream flow and function of the floodplain will not be impeded. No debris will be left at the work site. No vehicle maintenance or fueling within 100 feet of the floodplain would occur. Any sediment movement from the site would be short term and temporary.

Issued in Los Alamos, New Mexico on April 16, 2002.

Joseph Vozella,

Acting Director, Department of Energy, National Nuclear Security Administration, Office of Los Alamos Site Operations.
