AGENCIES: Nuclear Regulatory Commission, Federal Emergency Management Agency.

ACTION: Notice of availability.

SUMMARY: The Nuclear Regulatory Commission (NRC) and the Federal Emergency Management Agency (FEMA) have issued an Addenda to NUREG-0654/FEMA-REP-1, Rev. 1, "Criteria for Preparation and Evaluation of Radiological Emergency Response Plans and Preparedness in Support of Nuclear Power Plants." This NUREG is the basic emergency planning guidance document for radiological emergency planning and preparedness for commercial nuclear power plants and is used by licensees and by State and local government emergency response agencies to develop and maintain radiological emergency plans for nuclear power plants.

EFFECTIVE DATE: March, 2002.

The Addenda to NUREG-0654/FEMA-REP-1, Rev. 1, also is available electronically by visiting NRC's home page (<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/>) or FEMA's home page (<http://www.fema.gov/pte/rep/>).

A copy of the Addenda to NUREG-0654/FEMA-REP-1, Rev. 1, is available for a fee in the NRC Public Document Room, 11555 Rockville Pike, Rockville, Maryland, Room O1F21.

FOR FURTHER INFORMATION CONTACT: Kathy Halvey Gibson, Chief, Emergency Preparedness and Health Physics Section, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Telephone (301) 415-1086; electronic mail address: khg@nrc.gov or Vanessa E. SUPPLEMENTARY INFORMATION: This notice announces the availability of the Addenda to NUREG-0654/FEMA-REP-1, Rev. 1, "Criteria for Preparation and Evaluation of Radiological Emergency Response Plans and Preparedness in Support of Nuclear Power Plants." NUREG-0654/FEMA-REP-1, Rev. 1, was issued in November 1980 and is the basic emergency planning guidance document for radiological emergency planning and preparedness for commercial nuclear power plants. NUREG-0654/FEMA-REP-1, Rev. 1, is used by licensees and by State and local government emergency response agencies to develop and maintain radiological emergency plans for nuclear power plants. NUREG-0654/FEMA-REP-1, Rev. 1, is also used by staff of the NRC and FEMA to review, respectively, licensee and State and local government radiological emergency plans and preparedness, and to make findings and determinations regarding the adequacy of these plans. As part of FEMA's strategic review of its radiological emergency preparedness program, FEMA and NRC staff determined that it was not necessary to revise NUREG-0654/FEMA-REP-1, Rev. 1, but that to enhance its usefulness, the outdated citations in the document should be replaced with updated citations through means of an addenda. An initial version of the addenda was posted on the FEMA web site and provided to the member agencies of the Federal Radiological Preparedness Coordinating Committee for comment.

Additionally, a draft version of the addenda was provided to all stakeholders for comment on March 26, 2001. Comments received were incorporated as appropriate in the final addenda.

Dated at Rockville, Maryland, this 4th day of April, 2002.

For the Nuclear Regulatory Commission.

Glenn M. Tracy,

Chief, Reactor Safeguards, Radiation Safety and Emergency Preparedness Branch, Office of Nuclear Reactor Regulation, Nuclear Regulatory Commission.

For the Federal Emergency Management Agency on April 17, 2002.

Bruce Baughman,

Director, Office of National Preparedness, Federal Emergency Management Agency.

SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension: Rule 15c3-1 SEC File No. 270-197, OMB Control No. 3235-0200; Rule 17a-10 SEC File No. 270-154, OMB Control No. 3235-0122; Rule 17a-19 and Form X-17a-19, SEC File No. 270-148, OMB Control No. 3235-0133; Form BDW SEC File No. 270-17, OMB Control No. 3235-0018.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collections of information summarized below. The Commission plans to submit these existing collections of information to the Office of Management and Budget for extension and approval.

Rule 15c3-1 (17 CFR 240.15c3-1) under the Securities Exchange Act of 1934 ("Exchange Act") requires a broker or dealer registered with the Commission to maintain at all times sufficient liquid assets in excess of liabilities to promptly satisfy the claims of customers in the event the broker or dealer fails. The rule facilitates monitoring the financial condition of brokers and dealers by the Commission and the various self-regulatory organizations. There are approximately 8,000 broker-dealer respondents registered with the Commission who incur an aggregate burden of 950 hours per year to comply with this rule.

Rule 17a-10 (17 CFR 240.17a-10) under the Exchange Act requires broker-dealers that are exempted from the filing requirements of paragraph (a) of Rule 17a-5 (17 CFR section 240.17a-5) to file with the Commission an annual statement of income (loss) and balance sheet. It is anticipated that approximately 1,100 broker-dealers will spend 12 hours per year complying with Rule 17a-10. The total burden is estimated to be approximately 13,200 hours.

Rule 17a-19 (17 CFR 240.17a-19) and Form X-17A-19 of the Exchange Act requires National Securities Exchanges and Registered National Securities

Associations to file a Form X-17A-19 with the Commission within 5 days of the initiation, suspension or termination of a member in order to notify the Commission that a change in designated examining authority may be necessary.

It is anticipated that approximately eight National Securities Exchanges and Registered National Securities Associations collectively will make 2,600 total annual filings pursuant to Rule 17a-19 and that each filing will take approximately 15 minutes. The total burden is estimated to be approximately 650 total annual hours.

Fully registered broker-dealers and notice-registered broker-dealers use Form BDW (17 CFR 249.501a) to withdraw from registration with the Commission, the self-regulatory organizations, and the states. It is estimated that approximately 900 fully registered broker-dealers annually will incur an average burden of 15 minutes, or 0.25 hours, to file for withdrawal on Form BDW via the internet with Web CRD, a computer system operated by the National Association of Securities Dealers, Inc. that maintains information regarding fully registered broker-dealers and their registered personnel. It is further estimated that 140 futures commission merchants that are notice-registered broker-dealers annually will incur an average burden of 15 minutes, or 0.25 hours, to file for withdrawal on Form BDW by sending the completed Form BDW to the National Futures Association, which maintains information regarding notice-registered broker-dealers on behalf of the Commission. The annualized compliance burden per year is 260 hours.

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.
