

as a baseline for comparing the other alternatives.

On August 3, 1998, the National Park Service published in the **Federal Register** a notice of intent to prepare a Draft Supplemental Environmental Impact Statement for the Old Agency area (Project 3P13) of the Natchez Trace Parkway.

The National Park Service will implement the Revised Proposed Action as described in the Final Supplemental Environmental Impact Statement for the Old Agency Road Area (Project 3P13) of the Natchez Trace Parkway which was made available to the public in February of 2001.

The Selected Action (Revised Proposed Action) was developed after public review of the Draft Supplemental Environmental Impact Statement. Under the Selected Action, the Natchez Trace Parkway motor road will cross the Old Natchez Trace (Old Agency Road) approximately at-grade and closely follow the existing topography through the NPS right-of-way connecting existing parkway to the east and to the west of the project area. To provide local east-west vehicular circulation and traffic capacity, Old Agency Road Relocated will be constructed south of the parkway motor road from near Whippoorwill Lane to Highland Colony Parkway. To further enhance local north-south traffic circulation through the project area, traffic will crossover the parkway via a bridge which will link Old Agency Road and Old Agency Road Relocated. The new crossover road between Old Agency Road and Old Agency Road Relocated will begin approximately across from St. Andrew's school ballfield parking lot. Access to the Choctaw Agency site will be provided directly from the parkway motor road, and a parking area for visitors will be developed. Old Agency Road from near Whippoorwill Lane to Richardson Road will be closed to vehicular traffic and restored to Old Natchez Trace appearances (the asphalt road surface will be removed, the surface will be graded to drain, planted with turf grasses, and kept mowed); vehicular traffic will be rerouted to Old Agency Road Relocated.

Access to Interstate 55 to the east of the project area will be through the remaining existing Old Agency Road as well as along Old Agency Road Relocated to Highland Colony Parkway. In addition, short portions of Brame Road, and a portion of the northern entrance to the Dinsmor subdivision will be revegetated, and a portion of the Greenwood Plantation driveway will also be closed within the NPS right-of-way and restored to its appearance of

historical significance. Access to Brame Road, Dinsmor subdivision and the Greenwood Plantation will be via the new Old Agency Road Relocated. A deed-reserved driveway will be provided from Old Agency Road Relocated to a tract of land south of the parkway and just east of Dinsmor subdivision. Access to the Canterbury and Windrush subdivisions will continue to be accessed via Old Agency Road. Old Agency Road Relocated will provide access and circulation for local through-traffic, and a new intersection will be constructed at Highland Colony Parkway.

Natural resource impacts (such as vegetation, soils, wildlife) for the Selected Action and each of the five alternatives considered are very similar because the parkway motor road would follow nearly the same alignment through the NPS right-of-way in each alternative. In general, natural resource impacts are considered negligible under the Selected Action and all alternatives due to the already highly fragmented landscape and preponderance of locally abundant and edge-adapted plant and animal species occupying the project area. No federally or state threatened or endangered species or their habitats are impacted under the Selected Action. The Selected Action would negatively impact 0.62 ha (1.53 ac) of Palustrine wetlands. Negative wetland impacts between the Selected Action and the alternatives would vary by just 0.2 ha (0.5 ac). As described in the wetland Statement of Findings (reviewed and approved by the Southeast Regional Director, National Park Service), wetland loss will be mitigated at a 2:1 ratio. Implementation of the Selected Action will not result in impairment from indirect, direct, or cumulative impacts and will not violate the NPS Organic Act.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-747 (Review)]

Fresh Tomatoes From Mexico

AGENCY: United States International Trade Commission.

ACTION: Notice of Commission determination to conduct a full five-year review concerning the suspended investigation on fresh tomatoes from Mexico.

SUMMARY: The Commission hereby gives notice that it will proceed with a full review pursuant to section 751(c)(5) of the Tariff Act of 1930 (19 U.S.C. 1675(c)(5)) to determine whether termination of the suspended investigation on fresh tomatoes from Mexico would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time. A schedule for the review will be established and announced at a later date. For further information concerning the conduct of this review and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subparts A, D, E, and F (19 CFR part 207).

EFFECTIVE DATE: January 4, 2002.

FOR FURTHER INFORMATION CONTACT: Vera Libeau (202-205-3176), Office of Investigations, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>). The public record for this investigation may be viewed on the Commission's electronic docket (EDIS-ON-LINE) at <http://dockets.usitc.gov/eol/public>.

SUPPLEMENTARY INFORMATION: On January 4, 2002, the Commission determined that it should proceed to a full review in the subject five-year review pursuant to section 751(c)(5) of the Act. The Commission found that both the domestic and respondent interested party group responses to its notice of institution (66 FR 49975, October 1, 2001) were adequate. A record of the Commissioners' votes, the Commission's statement on adequacy,

and any individual Commissioner's statements will be available from the Office of the Secretary and at the Commission's Web site.

Authority: This review is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.62 of the Commission's rules.

Issued: January 16, 2002.

By order of the Commission.

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 701-TA-409-412 and 731-TA-909 (Final)]

Low Enriched Uranium From France, Germany, The Netherlands and the United Kingdom

AGENCY: International Trade Commission.

ACTION: Reopening of the record and request for comments for the subject investigations.

SUMMARY: The U.S. International Trade Commission (the Commission) hereby gives notice that it is reopening the record in these investigations for the purpose of considering new factual information submitted on January 15, 2002, by petitioner USEC Inc. concerning the agreement between the governments of the United States and Russia regarding the purchase of certain low enriched uranium. The Commission is not reopening the record for any purpose other than to receive comments from any party on this new factual information. On or before January 17, 2002, parties may submit final comments, not to exceed 10 pages, double-spaced and single-sided, on stationery measuring 8½ by 11 inches, addressing only this new factual information, but such final comments must not contain any new factual information not previously submitted for the record and must otherwise comply with section 207.68 of the Commission's rules.

All written submissions must conform with the provisions of section 201.8 of the Commission's rules; any submissions that contain business proprietary information (BPI) must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's rules do not authorize filing of submissions with the Secretary by facsimile or electronic means.

In accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the investigations must be served on all other parties to the investigations (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

SUPPLEMENTARY INFORMATION: On September 5, 2001, the Commission published notice establishing a schedule for the conduct of the final phase of the subject investigations (66 FR 46467, September 5, 2001). Subsequently, the Department of Commerce extended the date for its final determinations in the investigations and on November 19, 2001, the Commission published notice establishing a revised schedule for the investigations (66 FR 57986, November 19, 2001).

For further information concerning these investigations see the Commission's notices cited above and the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subparts A and C (19 CFR part 207).

Authority: These investigations are being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.21 of the Commission's rules.

By order of the Commission.

Issued: January 16, 2002.

Marilyn R. Abbott,

Acting Secretary.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-988 (Preliminary)]

Pneumatic Directional Control Valves From Japan

AGENCY: International Trade Commission.

ACTION: Institution of antidumping investigation and scheduling of a preliminary phase investigation.

SUMMARY: The Commission hereby gives notice of the institution of an investigation and commencement of preliminary phase antidumping investigation No. 731-TA-988 (Preliminary) under section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)) (the Act) to determine whether there is a reasonable indication that an industry in the United States is materially injured or threatened with material

injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from Japan of pneumatic directional control valves, provided for in subheading 8481.20.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value. Unless the Department of Commerce extends the time for initiation pursuant to section 732(c)(1)(B) of the Act (19 U.S.C. 1673a(c)(1)(B)), the Commission must reach a preliminary determination in antidumping investigations in 45 days, or in this case by February 28, 2002. The Commission's views are due at Commerce within five business days thereafter, or by March 7, 2002.

For further information concerning the conduct of this investigation and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subparts A and B (19 CFR part 207).

EFFECTIVE DATE: January 14, 2002.
