SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Director of OMB provide interested Federal agencies and the public an early opportunity to comment on information collection requests. The Office of Management and Budget (OMB) may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Leader, Information Management Group, Office of the Chief Information Officer, publishes this notice containing proposed information collection requests at the beginning of the Departmental review of the information collection. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. Type of Review: Revision.

Title: Evaluation of the Partnership Grants Program, Title II, Higher Education Act.

Abstract: The purpose of the Title II Partnership Grants Program evaluation is to assess the impact, strengths and weaknesses of the Partnership Grants Program, one of the three programs authorized in Title II of the Higher Education Act (HEA) Amendments of 1998. This request, to revise the Title II evaluation to include a school/university partnership survey for elementary school principals, will assist the U.S. Department of Education in understanding the characteristics of collaborations between public elementary schools and institutions of higher education (IHEs) that are participating in Title II partnership activities, as well as the associations between school/IHE collaborations and school-level student achievement outcomes.

Additional Information: This survey is an essential component of the evaluation of the Title II HEA Partnership Grants Program and has been designed to address the Administration's interest in understanding the associations between school/university partnership activities and student assessments at the school level. Without an emergency clearance, the data collection would have to be postponed until Fall, 2002, which would have two adverse consequences. First, it would require a change in the target year of inquiry to be the 2001–2002 school year, which would likely increase the sampling frame substantially. This would, therefore, have a serious effect on survey costs. Second, this survey is designed to be longitudinal. Delaying the first data collection until Fall, 2002 would mean that no data would be available about the earliest stages of partnership activities. This will make it difficult to describe the evolution of partnership activities from their earliest stages forward. Clearance is needed by May 13,

2002 to ensure that survey data can be collected before the end of the 2001–02 school year this Spring/Summer.
