[Docket No. CP02-62-000]

National Fuel Gas Supply Corporation; Notice of Application

January 17, 2002.

Take notice that on January 11, 2002, National Fuel Gas Supply Corporation (National Fuel), 10 Lafayette Square, Buffalo, New York 14203, filed in Docket No. CP02-62-000, an application pursuant to Section 7(b) of the Natural Gas Act (NGA) for authorization to abandon certain pipeline facilities, located in McKean County, Pennsylvania, all as more fully set forth in the application which is on

file with the Commission and open to public inspection. Copies of this filing are on file with the Commission and are available for public inspection. This filing may be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" from the RIMS Menu and follow the instructions (call (202) 208-2222 for assistance).

National Fuel proposes to abandon approximately 12,354 feet of 16-inch diameter steel pipeline, known as Line C-Maloney Farm, located in Bradford and Foster Townships, McKean County, Pennsylvania. National Fuel states that Line C-Maloney Farm was constructed and placed in service by their predecessor, United Natural Gas Company, in 1947. National Fuel proposes to abandon Line C-Maloney Farm due to the age and condition of the pipeline, and the cost to replace certain deteriorated sections of this pipeline. National Fuel asserts that Line C-Maloney Farm has not been utilized since 1987, but is still maintained in accordance with Department of Transportation Guidelines & Practices. National Fuel avers that in order to continue to meet Department of Transportation standards, Line C-Maloney Farm would require a cathodic protection upgrade at an estimated cost of \$106,400.

National Fuel states that it would remove approximately 9,187 feet of 16-inch diameter pipeline, and would abandon approximately 3,167 feet of 16-inch diameter pipeline in place, due to its proximity to residences and areas of steep slopes. National Fuel declares that the abandonment project would begin at a point of interconnection with National Fuel Gas Distribution Corporation at Station T-No. 2593 and extend northwest terminating at the Pennsylvania-New York state line.

National Fuel indicates that since Line C-Maloney Farm has not been utilized since 1987, there will be no abandonment or decrease in service to any customers of National Fuel as a result of the proposed abandonment.

National Fuel states that the estimated cost to abandon the subject facilities is \$40,000.

Any questions regarding this application should be directed to David W. Reitz, Assistant General Counsel, National Fuel Gas Supply Corporation, 10 Lafayette Square, Buffalo, New York 14203, at (716) 857-7949, or at reitz@natfuel.com.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before February 7, 2002,
