SUPPLEMENTARY INFORMATION:

A. Background

This rule proposes to add a new DFARS subpart and a contract clause to implement Section 1008 of the National Defense Authorization Act for Fiscal Year 2001 (Public Law 106-398).

Section 1008 provides that—

- Contractors must submit electronically, and DoD must process electronically, requests for payment under DoD contracts;
- DoD must transmit any supporting documentation electronically within DoD;
- The Secretary of Defense may exempt cases in any category if the Secretary determines that the requirement for using electronic means for submitting or transmitting payment requests is unduly burdensome; and
- This requirement shall apply to contracts for which solicitations are issued after June 30, 2001. DoD may delay implementation if the Secretary of Defense makes a finding that it is impracticable to implement this requirement by June 30, 2001, and publishes such notice in the **Federal Register**. In no event may implementation be delayed to a date after October 1, 2002.

Consistent with Section 1008(b) of the Defense Authorization Act, DoD submitted a plan to Congress describing how Section 1008 would be implemented. On August 21, 2001, DoD published a notice in the **Federal Register** (66 FR 43841) which announced a delay in implementation of Section 1008 until October 1, 2002.

This proposed DFARS rule—

- Requires contractors to submit requests for contract financing and invoice payments in electronic form;

- Requires DoD officials receiving payment requests in electronic form to process the payment requests and supporting documentation in electronic form;

- Identifies three acceptable electronic forms for transmission of payment requests. The rule also permits the contracting officer to authorize the contractor to use another electronic form, with the concurrence of the payment office and the contract administration office; and

- Identifies exemption categories being considered by DoD. The Director of Defense Procurement intends to process a request for the Secretary of Defense to approve exemptions for the categories identified in the rule.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

DoD does not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because any start-up costs that contractors will incur to comply with the rule are expected to be minimal, and should be offset by the reduced administrative costs that are expected to result from the electronic submission and processing of invoices. In addition, the rule provides for an exemption to the requirement for electronic submission in cases where the requirement would be unduly burdensome. Therefore, DoD has not performed an initial regulatory flexibility analysis. DoD invites comments from small businesses and other interested parties. DoD also will consider comments from small entities concerning the affected DFARS subparts in accordance with 5 U.S.C. 610. Such comments should be submitted separately and should cite DFARS Case 2002-D001.

C. Paperwork Reduction Act

This rule does not impose any additional information collection requirements that require the approval of the Office of Management and Budget (OMB) under 44 U.S.C. 3501, *et seq.* The information collection requirements for contractors to provide non-electronic payment requests already have been approved by OMB as indicated below:

FAR clause No.	Clause title	OMB control No.	Expiration date
52.216-7	Allowable Cost and Payment	9000-0069	June 30, 2002.

FAR clause No.	Clause title	OMB control No.	Expiration date
52.232-7	Payments Under Time-and-Materials and Labor-Hour Contracts	9000-0070	June 30, 2002.
52.232-12	Advance Payments	9000-0073	June 30, 2002.
52.232-16	Progress Payments	9000-0010	Sept 30, 2002.
52.232-32	Performance-Based Payments	9000-0138	Sept 30, 2004.

Extensions of the currently approved information collection requirements under OMB control numbers 9000-0069, 9000-0070, 9000-0073, and 9000-0010 are current being processed (see the following **Federal Register** notices, respectively, for further information: 67 FR 19558, April 22, 2002; 67 FR 17675, April 11, 2002; 67 FR 17676, April 11, 2002; 67 FR 34683, May 15, 2002).

SUPPLEMENTARY INFORMATION: On November 22, 1985, we received a petition from Mr. Harold F. Olson, Director of the New Mexico Department of Game and Fish, to add 11 species of New Mexican mollusks to the Federal list of endangered and threatened wildlife. Roswell springsnail (*Pyrgulopsis roswellensis* formerly *Fontelicella* sp. (Hershler 1994)), Koster's tryonia, and Pecos assiminea were among the 11 species. We determined the petition presented substantial information and found that the requested action may be warranted and published a positive 90-day petition finding in the **Federal Register** on August 20, 1986 (51 FR 29671). A subsequent 12-month finding published in the **Federal Register** on July 1, 1987 (52 FR 24485), concluded that the petitioned action was warranted but

precluded by other higher priority listing actions. A proposed rule to list these four species as endangered with critical habitat was published in the **Federal Register** on February 12, 2002 (67 FR 6459). The proposed rule constitutes our 12-month recycled petition finding for the Roswell springsnail, Koster's tryonia, and Pecos assiminea. The proposed rule includes a proposal for Noel's amphipod, which is found in the same locations as the other three species and shares the same threats and management needs.

These species occur at sinkholes, springs, and associated spring runs and wetland habitats. They are found at two sites in Chaves County, NM, one site in Pecos County, TX, and one site in Reeves County, TX. Pecos assiminea is also known from one area in Coahuila, Mexico.

In the proposed rule we determined that these three snails and one amphipod have an exceedingly limited distribution and are imperiled by local and regional groundwater depletion, surface and groundwater contamination, oil and gas extraction activities within the supporting aquifer and watershed, and direct loss of their habitat (*e.g.*, through burning or removing marsh vegetation, cementing, or filling of habitat). This proposal, if made final, will implement the Federal protection and recovery provisions of the Act for these invertebrate species.

Public hearings are designed to gather relevant information that the public may have that we should consider in our rule-making. During the hearing we will present information about the proposed action. We invite the public to submit information and comments either at the hearings or in writing. This notice and public hearing will allow all interested parties to submit comments on the proposed rule and proposed designation. We are seeking comments or suggestions from the public, other concerned governmental agencies, tribes, the scientific community, industry, or any other interested parties concerning the proposal.

We may have to limit the time allotted for oral statements if the number of people who wish to comment necessitates such a limitation. We encourage persons wishing to comment at the hearings to provide a written copy of their statement at the start of the hearing. There is no limit on the length of written comments. Persons may send written comments to our office (see **ADDRESSES** section) at any time during the open comment period. We will give equal consideration to oral and written comments. Concurrently with the
