II. Background on the Receipt of Request to Amend Registrations to Terminate Uses

The sole registrant of 1, 4-bis(bromoacetoxy)-2-butene (Bis-2), has voluntarily requested EPA to amend the registration of the Bis-2 Technical Grade Active Ingredient, "BBAB" (EPA Registration No. 1447-374) and its End Use Product "Busan 1210" (EPA Registration No. 1448-353) to terminate two of their three uses. The letter from Buckman Laboratories International, Inc. was dated March 22, 2002 and was received by EPA on March 27, 2002. The letter included a waiver of the 180-day comment period. The letter requested that the Agency amend the registrations to terminate the use of Bis-2 products as preservatives in water-based coatings and paints as well as the use as anti-coagulants in oil field, oil secondary (enhanced) recovery systems. The registrant did not request an existing stocks provision. Bis-2 products would remain registered for use as an anti-coagulant in pulp and paper mill systems process (cleaning) water.

III. What Action is the Agency Taking?

This notice announces receipt by the Agency, under section 6(f)(1) of FIFRA from the sole registrant of Bis-2 pesticide products of a request to amend its Bis-2 registrations to terminate the use of Bis-2 products as preservatives in water-based coatings and paints as well as anti-coagulants in oil field, oil secondary (enhanced) recovery systems.

REGISTRATIONS INVOLVED IN THE REQUEST FOR AMENDMENTS TO TERMINATE USES

Registration Number	Product Name
1448-353 (End-use product)	Busan 1210 (80% active ingredient)
1448-374 (Technical grade active ingredient)	BBAB (95% active ingredient)

IV. The Agency's Authority for Taking this Action

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that a pesticide registration of the registrant be canceled or amended to terminate one or more uses. The Act further provides that before acting on the request, EPA must publish a notice of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Provisions for Disposition of Existing Stocks

In any order in response to this request for amendment to terminate uses, the Agency proposes to include the following provisions for treatment of any existing stocks of the products identified in the Table above:

All distribution, sale, or use by the registrant of existing stocks of affected manufacturing use and end-use products that bear the terminated uses will be unlawful under FIFRA effective 1 year from the Agency's receipt of the request for amendments to terminate uses. Any stocks of such products not in the hands of the registrant may continue to be sold, distributed, and used until such stocks are exhausted. For purposes of the cancellation order that the Agency intends to issue at the close of the comment period for this announcement, the term "existing stocks" will be defined, pursuant to EPA's existing stocks policy at 56 FR 29362, Wednesday, June 26, 1991, as those stocks of a registered pesticide product which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation or amendment. Any distribution, sale, or use of existing stocks after the effective date of the cancellation order that is not consistent with the terms of that order will be considered a violation of section 12(a)(2)(K) and/or 12(a)(1)(A) of FIFRA, unless it is for purposes of shipping

such stocks for relabeling, repackaging, export consistent with the requirements of section 17 of FIFRA, or disposal.
