Public reporting burden for this collection of information is estimated to average **1.8 hours per response**, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

This information is collected to implement section 502 of the National Affordable Housing Act of 1990, as amended, which established specific indicators to assess the management performance of public housing agencies (PHAs) in all major areas of management operations. PHAs will complete the PHAS Certification form HUD-50072 and electronically submit it to HUD. If a PHA does not have this capability in-house, the PHA should consider utilizing local resources, such as the library or another local government entity that has Internet access. In the event local resources are not available, a PHA may go to the nearest HUD Public Housing program office and assistance will be given to the PHA to transmit this PHAS certification. The information is used by HUD as a component of PHAS to assess all major areas of PHA's management operations, designate PHAs as troubled and PHAs troubled with respect to the program for assistance from the Capital Fund under Section 9, enter into a Memorandum of Agreement (MOA) with troubled PHAs and PHAs troubled with respect to the program for assistance from the Capital Fund under Section 9, and report annually to Congress on the status of troubled PHAs and PHAs troubled with respect to the program for assistance from the Capital Fund under Section 9. This information is required for HUD to fulfill statutory requirements of the 1990 Act. The information collected does not lend itself to confidentiality.

Instructions: A PHA/AME's electronic responses to this certification must be the PHA/AME's actual data; e.g., prior to any adjustments to the indicators. Round percentages to the nearest two decimal points.
