

**DEPARTMENT OF TRANSPORTATION****Office of the Secretary****49 CFR Part 40****Procedures for Transportation Workplace Drug and Alcohol Testing Programs***CFR Correction*

In Title 49 of the Code of Federal Regulations, Parts 1 to 99, revised as of October 1, 2001, on page 593, § 40.45 is corrected by revising paragraph (a) to read as follows:

**§ 40.45 What form is used to document a DOT urine collection?**

(a) The Federal Drug Testing Custody and Control Form (CCF) must be used to document every urine collection required by the DOT drug testing program. The CCF must be a five-part carbonless manifold form. You may view this form on the Department's web site (<http://www.dot.gov/ost/dapc>) or the HHS web site (<http://www.workplace.samhsa.gov>).

BILLING CODE 1505-01-D

**DEPARTMENT OF COMMERCE****National Oceanic and Atmospheric Administration****50 CFR Part 622**

[Docket No. 001005281-0369-02; I.D. 012502C]

**Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic; Closure**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Closure.

**SUMMARY:** NMFS closes the commercial run-around gillnet fishery for king mackerel in the exclusive economic zone (EEZ) in the southern Florida west coast subzone. This closure is necessary to protect the Gulf king mackerel resource.

**DATES:** The closure is effective 6 a.m., local time, January 28, 2002, through 6:00 a.m., January 21, 2003.

**FOR FURTHER INFORMATION CONTACT:** Mark Godcharles, telephone: 727-570-5305, fax: 727-570-5583, e-mail: [Mark.Godcharles@noaa.gov](mailto:Mark.Godcharles@noaa.gov).

**SUPPLEMENTARY INFORMATION:** The fishery for coastal migratory pelagic fish (king mackerel, Spanish mackerel, cero, cobia, little tunny, dolphin, and, in the Gulf of Mexico only, bluefish) is managed under the Fishery Management Plan for the Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic (FMP). The FMP was prepared by the Gulf of Mexico and South Atlantic Fishery Management Councils (Councils) and is implemented under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

Based on the Councils' recommended total allowable catch and the allocation ratios in the FMP, on April 30, 2001 (66 FR 17368, March 30, 2001) NMFS implemented a commercial quota of 2.25 million lb (1.02 million kg) for the eastern zone (Florida) of the Gulf migratory group of king mackerel. That quota is further divided into separate quotas for the Florida east coast subzone and the northern and southern Florida west coast subzones. On April 27, 2000, NMFS implemented the final rule (65 FR 16336, March 28, 2000) that divided the Florida west coast subzone of the eastern zone into northern and southern subzones, and established their separate quotas. The quota newly implemented for the southern Florida west coast subzone is 1,040,625 lb (472,020 kg). That quota is further divided into two equal quotas of 520,312 lb (236,010 kg) for vessels in each of two groups fishing with run-around gillnets and hook-and-line gear (50 CFR 622.42(c)(1)(i)(A)(2)(i)).

Under 50 CFR 622.43(a)(3), NMFS is required to close any segment of the king mackerel commercial fishery when its quota has been reached, or is projected to be reached, by filing a notification at the Office of the **Federal Register**. NMFS has determined that the commercial quota of 520,312 lb (236,010 kg) for Gulf group king mackerel for vessels using run-around gillnet gear in the southern Florida west coast subzone will be reached on January 27, 2002. Accordingly, the commercial fishery for king mackerel for such vessels in the southern Florida west coast subzone is closed at 6 a.m., local time, January 28, 2002, through 6:00 a.m., January 21, 2003, the beginning of the next fishing season, i.e., the day after the 2003 Martin Luther King Jr. Federal holiday.

The Florida west coast subzone is that part of the eastern zone south and west of 25°20.4' N. lat. (a line directly east from the Miami-Dade County, FL, boundary). The Florida west coast subzone is further divided into northern

and southern subzones. The southern subzone is that part of the Florida west coast subzone which from November 1 through March 31 extends south and west from 25°20.4' N. lat. to 26°19.8' N. lat. (a line directly west from the Lee/Collier County, FL, boundary), i.e., the area off Collier and Monroe Counties. From April 1 through October 31, the southern subzone is that part of the Florida west coast subzone which is between 26°19.8' N. lat. and 25°48' N. lat. (a line directly west from the Monroe/Collier County, FL, boundary), i.e., the area off Collier County.

**Classification**

This action responds to the best available information recently obtained from the fishery. The closure must be implemented immediately to prevent an overrun of the commercial quota (50 CFR 622.42(c)(1)) of Gulf group king mackerel, given the capacity of the fishing fleet to harvest the quota quickly. Overruns could potentially lead to further overfishing and unnecessary delays in rebuilding this resource. Therefore, any delay in implementing this action would be impractical and contradictory to the Magnuson-Stevens Act, the FMP, and the public interest. NMFS finds, for good cause, that the implementation of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is waived.

This action is taken under 50 CFR 622.43(a) and is exempt from review under E.O. 12866.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: January 25, 2002.

BILLING CODE 3510-22-S

**DEPARTMENT OF COMMERCE****National Oceanic and Atmospheric Administration****50 CFR Part 679**

[Docket No. 011218304-1304-01; I.D. 012402B]

**Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 630 of the Gulf of Alaska**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Modification of a closure.

**SUMMARY:** NMFS is opening directed fishing for pollock in Statistical Area 630 of the Gulf of Alaska (GOA) for 24 hours. This action is necessary to fully use the first seasonal apportionment of the total allowable catch (TAC) of pollock specified for this area.

**DATES:** Effective 1200 hrs, Alaska local time (A.l.t.), January 29, 2002, until 1200 hrs, A.l.t., January 30, 2002.

**FOR FURTHER INFORMATION CONTACT:** Mary Furuness, 907-586-7228.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The "A" season allowance of the 2002 pollock TAC in Statistical Area 630 of the GOA was established as 1,122 metric tons by an emergency rule implementing 2002 harvest specifications and associated

management measures for the groundfish fisheries off Alaska (67 FR 956, January 8, 2002).

NMFS closed the directed fishery for pollock in Statistical Area 630 of the GOA under § 679.20(d)(1)(iii) on January 21, 2002 (67 FR 3126, January 23, 2002).

NMFS has determined that approximately 522 mt currently remain in the directed fishing allowance. Therefore, NMFS is terminating the previous closure and is opening directed fishing for pollock in Statistical Area 630 of the GOA. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance will be reached after 24 hours. Consequently, NMFS is prohibiting directed fishing for pollock in Statistical Area 630 of the GOA effective 1200 hrs, A.l.t., January 30, 2002.

#### **Classification**

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, finds that the need to immediately implement this action to allow full use

the amount of the 2002 A season pollock TAC specified for Statistical Area 630 of the GOA constitutes good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(3)(B) and 50 CFR 679.20(b)(3)(iii)(A), as such procedures would be unnecessary and contrary to the public interest. Similarly, the need to implement these measures in a timely fashion to allow full use the amount of the 2002 A season pollock TAC specified for Statistical Area 630 of the GOA constitutes good cause to find that the effective date of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.
