Magalie R. Salas,
Secretary.

[FR Doc. 02-19307 Filed 7-30-02; 8:45 am]

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Intent To File Application for a New License

July 25, 2002.

Take notice that the following notice of intent has been filed with the Commission and is available for public inspection:

- a. *Type of filing:* Notice of Intent to File an Application for New License.
- b. *Project No:* 2155.
- c. *Date filed:* July 12, 2002.
- d. *Submitted By:* Pacific Gas and Electric Company.
- e. *Name of Project:* Chili Bar Project.
- f. *Location:* Project is located on the South Fork of the American River in El Dorado County, California.
- g. *Filed Pursuant to:* Section 15 of the Federal Power Act, 18 CFR 16.6.
- h. Pursuant to Section 16.19 of the Commission's regulations, the licensee is required to make available the information described in Section 16.7 of the regulations. Such information is available from Pacific Gas and Electric Company, Hydro Generation-License Compliance, Mail Code N11C, P.O. Box 770000, San Francisco, CA, 94105. Contact Mr. Richard Doble at (415) 973-4480.
- i. *FERC Contact:* James Fargo, 202-219-2848. James.Fargo@Ferc.Gov.
- j. *Expiration Date of Current License:* July 31, 2007.
- k. *Project Description:* The Chili Bar project has one powerhouse with one generator with a rated capacity of 7,000 kilowatts.
- l. The licensee states its unequivocal intent to submit an application for a new license for Project No. 2155. Pursuant to 18 CFR 16.9(b)(1) each application for a new license and any competing license applications must be filed with the Commission at least 24 months prior to the expiration of the existing license. All applications for license for this project must be filed by July 31, 2005.

A copy of the Notice of Intent is on file with the Commission and is available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link— select "Docket #" and follow the

instructions (call 202-208-2222 for assistance). A copy is also available for inspection and reproduction at the address in the item above.

Linwood A. Watson, Jr.,
Deputy Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7253-1]

Agency Information Collection Activities: Submission for OMB Review; Comment Request, National Emissions Standards for Hazardous Air Pollutant Emissions for Polyether Polyol Production

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: National Emissions Standards for Hazardous Air Pollutants (NESHAP) for Polyether Polyols Production, OMB Control Number 2060-0415, expiration date July 31, 2002. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before August 30, 2002.

ADDRESSES: Send comments, referencing EPA ICR Number 1811.03 and OMB Control Number 2060-0415, to the following addresses: Susan Auby, United States Environmental Protection Agency, Collection Strategies Division (Mail Code 2822T), 1200 Pennsylvania Avenue, NW., Washington, DC 20460-0001; and to the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR, contact Susan Auby at EPA by phone at (202) 566-1672, by E-Mail at auby.susan@epa.gov or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR Number 1811.03. For technical questions about the ICR, contact Sandra Jones at EPA, Office of Compliance at

202-564-7038, by E-Mail at jones.sandra@epa.gov.

SUPPLEMENTARY INFORMATION:

Title: National Emissions Standards for Hazardous Air Pollutant Emissions for Polyether Polyol Production, OMB Control Number 2060-0415, EPA ICR Number 1811.03, expiration date July 31, 2002.

Abstract: The National Emissions Standards for Hazardous Air Pollutants for Polyether Polyols production, (40 CFR part 63 subpart PPP) was proposed on June 1, 1999 and published January 30, 2002. These regulations apply to new and existing facilities that engage in the manufacture of polyether polyols (which also include polyether mono-ols) and emit hazardous air pollutants (GAP). Owners or operators of polyester polyols production facilities to which this regulation is applicable must choose one of the compliance options described in the rule or install and monitor a specific control system that reduces HAP emissions to the compliance level. The respondents are also subject to sections of Subpart A relating to NESHAP.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on January 30, 2002. No comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 248 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Polyester Polyol Plants.

Estimated Number of Respondents: 82.

Frequency of Response: Semi-annually, Annually, and Initially.

Estimated Total Annual Hour Burden: 88,680.

Estimated Total Annualized Capital, O&M Cost Burden: \$513,051.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR Number 1811.03 and OMB Control Number 2060-0415 in any correspondence.

Dated: July 23, 2002.

Oscar Morales,

Director, Collection Strategies Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[AD-FRL-7253-9]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501, *et seq.*), this document announces that EPA has forwarded the following continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and approval: Regional Haze Regulations, ICR number 1813.02., and OMB Control Number 2060-0421, expiration date: September 30, 2002. The ICR describes the nature of the information collection and its expected burden and cost.

DATES: Comments must be submitted on or before August 30, 2002.

ADDRESSES: Send comments, referencing EPA ICR No. 1813.02, and OMB Control No. 2060-0421, to the following addresses: Sandy Farmer, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822), 1200 Pennsylvania Avenue, NW, Washington, DC 20460-0001; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR, contact Sandy Farmer

at EPA by phone at (202) 260-2740, by e-mail at farmer.sandy@epa.gov, or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1813.02. For technical questions about the ICR, contact Thomas Driscoll by phone at (919) 541-5135, by e-mail at driscoll.tom@epa.gov, or by mail at Integrated Policy and Standards Group (C504-02), U.S. Environmental Protection Agency, Research Triangle Park, NC 27711.

SUPPLEMENTARY INFORMATION: *Title:* Regional Haze Regulations, ICR number 1813.02., and OMB Control Number 2060-0421, expiration date: September 30, 2002. This is a request for reinstatement, with change, of a previously approved collection for which approval is expiring.

Abstract: Section 169A of the Clean Air Act (CAA) establishes a national goal for protecting visibility in 156 scenic areas. These 156 "Class I" areas are federally protected areas. The national visibility goal is to remedy existing impairment in these Class I areas, consistent with the requirements of section 169A and 169B of the CAA. Entities that are affected by these rulemakings (subject to best available retrofit technology (BART) Guidelines) would be those facilities built between 1962 and 1977, are major sources (emit greater than 250 tons per year) of any of the visibility impairing pollutants, and are one of 26 source categories which include electricity generating utilities, facilities with industrial boilers, and petrochemical facilities. The regional haze rule sets forth requirements for State Implementation Plans (SIPs) under this program. The rule requires SIPs to include visibility progress goals for each Class I area, as well as emissions reductions strategies and other measures needed to meet these goals. The rule also provides an optional approach, the proposed Western Regional Air Partnership (WRAP) Annex rule, that may be followed by nine Western States and eligible Indian Tribes and contains a number of recommended strategies designed to improve visibility at the 16 Class I areas on the Colorado Plateau.

All information submitted to EPA for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in 40 CFR part 2, subpart B—Confidentiality of Business Information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9

and 48 CFR Chapter 15. The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of EPA, including whether the information will have practical utility;

(ii) evaluate the accuracy of EPA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Burden Statement. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previous applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The total burden is computed from the time and effort needed to complete the primary activities in the Regional Haze Rule. These activities include the committal Federal Implementation Plan as required in 40 CFR 51.308; the requirement to begin the analysis process for BART determinations, progress goals, and control strategies in 40 CFR 51.308; and the initial implementation plan submission required in 40 CFR 51.309.

These burden hour and costs estimates are incremental to the activities and accomplishments of the States, Tribes, and potentially regulated facilities associated with the grants to the Regional Planning Organizations.

The estimated incremental burden hours for States, Tribes, and potentially regulated entities are 78,000, 29,000, and 28,000 respectively for the 3-year ICR renewal period (October 1, 2002 through September 30, 2005). The estimated corresponding incremental cost is \$3.1 million, \$1.2 million, and
