SUPPLEMENTARY INFORMATION: 5 CFR 1320.12(a) requires that we provide a 60-day notice in the **Federal Register** concerning a collection of information to solicit comments on:

(a) Whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;

(b) the accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;

(c) ways to enhance the quality, utility, and clarity of the information collected; and

(d) ways to minimize the information collection burden on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

BLM makes payments in lieu of taxes to units of local governments for certain Federal lands within their boundaries through authority provided under the Payment in Lieu of Taxes Act of October 20, 1976 (90 Stat. 2662, 31 U.S.C. 6901-6907). The implementing regulations (43 CFR part 1881) require the Governor

of each State to furnish BLM with a listing of payments made to local governments by the State on behalf of the Federal Government under 11 receipt-sharing statutes. BLM provides the States with a printout matrix designed to facilitate recording the requested information. BLM uses the information provided by the States to compute the PILT payments to local governments within the State.

Based on BLM's experience in administering the PILT program, we estimate the public reporting burden is 20 hours. The respondents already maintain this information for their own record keeping purposes and need only transfer the information to the printout matrix that BLM will provide. The respondents are offices designated by the Governor of each State, usually the Treasurer's Office. The frequency of response is once annually, reporting on the previous fiscal year revenues. The number of responses per year is 50. We estimate the total annual burden is 1,000 hours.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.

Dated: July 11, 2002.

The lands are not required for any federal purpose. The direct sale is consistent with current Bureau planning for this area and would be in the public interest. 3. The lands are subject to all valid existing rights. The lands may also be subject to applications received prior to publication of this notice if processing the application would have no adverse effect on the appraised FMV.

Encumbrances of record are available for review during business hours, 7:30 a.m. to 4:15 p.m., PDT, Monday through Friday, at the Bureau of Land Management, Las Vegas Field Office, 4701 North Torrey Pines Drive, Las Vegas, NV.

The purchaser/patentee, by accepting a patent, agrees to indemnify, defend, and hold the United States harmless from any costs, damages, claims, causes of action, penalties, fines, liabilities, and judgments of any kind or nature arising from the past, present, and future acts or omissions of the patentee or their employees, agents, contractors, or lessees, or any third-party, arising out of, or in connection with, the patentee's use, occupancy, or operations on the patented real

property. This indemnification and hold harmless agreement includes, but is not limited to, acts and omissions of the patentee and their employees, agents, contractors, or lessees, or any third party, arising out of or in connection with the use and/or occupancy of the patented real property which has already resulted or does hereafter result in: (1) Violations of federal, state, and local laws and regulations that are now, or may in the future become, applicable to the real property; (2) Judgments, claims or demands of any kind assessed against the United States; (3) Costs, expenses, or damages of any kind incurred by the United States; (4) Other releases or threatened releases of solid or hazardous waste(s) and/or hazardous substances(s), as defined by federal or state environmental laws; off, on, into or under land, property and other interests of the United States; (5) Other activities by which solids or hazardous substances or wastes, as defined by federal and state environmental laws are generated, released, stored, used or otherwise disposed of on the patented real property, and any cleanup response, remedial action, or other actions related in any manner to said solid or hazardous substances or wastes; or (6) Natural resource damages as defined by federal and state law.
