The Arnold Engineering Company Ferrite Products Division Sevierville, TN; Notice of Affirmative Determination Regarding Application for Reconsideration

By letter of October 19, 2001, a
company requested administrative
reconsideration of the Department of
Labor's Notice of Negative
Determination Regarding Eligibility to
Apply for Worker Adjustment
Assistance, applicable to workers of the
subject firm. The denial notice was
signed on September 25, 2001, and
published in the **Federal Register** on
October 11, 2001 (66 FR 51973).

The company supplied an additional
list of customers. The company believes
these customers reduced their purchases
from the subject plant and began
importing ceramic hard ferrite magnets
during the relevant time period. The
Department of Labor will conduct a
survey of these additional customers to
determine if imports contributed
importantly to the declines in
employment at the subject plant.

Conclusion

After careful review of the
application, I conclude that the claim to
sufficient weight to justify
reconsideration of the Department of
Labor's prior decision. The application
is, therefore, granted.

Signed at Washington, DC, this 8th day of

Dystar L.P., Mt. Holly, North Carolina; DyStar L.P., Headquarters Office, Charlotte, North Carolina; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the
Trade Act of 1974 (19 U.S.C. 2273) the
Department of Labor issued a Notice of
Certification Regarding Eligibility to
Apply for Worker Adjustment
Assistance on December 7, 2001,
applicable to workers of DyStar L.P., Mt.

Holly, North Carolina. The notice was published in the **Federal Register** on December 26, 2001 (66 FR 66426).

At the request of the company, the Department reviewed the certification for workers of the subject firm. The company reports that worker separations occurred at the Headquarters Office, Charlotte, North Carolina location of DyStar L.P. The Charlotte, North Carolina workers provide administrative support function services for the subject firm's production facilities including Mt. Holly, North Carolina.

Based on these findings, the Department is amending this certification to include workers of DyStar L.P., Headquarters Office, Charlotte, North Carolina.

The intent of the Department's certification is to include all workers of DyStar L.P. who were adversely affected by increased imports.

The amended notice applicable to TA-W-39,329 is hereby issued as follows:

All workers of DyStar L.P., Mt. Holly, North Carolina (TA-W-39,329) and DyStar L.P. Headquarters Office, Charlotte, North Carolina (TA-W-39,329A) who became totally or partially separated from employment on or after May 15, 2000, through December 7, 2003, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Signed at Washington, DC, this 15th day of January, 2002.

Keokuk Ferro-Sil, Inc. Keokuk, Iowa; Notice of Revised Determination on Reconsideration

By letter of November 14, 2001, the company requested administrative reconsideration regarding the Department's Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, applicable to the workers of the subject firm.

The initial investigation resulted in a negative determination issued on October 31, 2001, based on the finding that a survey of customers indicated that increased imports did not contribute importantly to worker separations. The denial notice was published in the **Federal Register** on November 9, 2001 (66 FR 56711).

The company alleged that 75% ferrosilicon is competitive with 50% ferrosilicon and therefore imports of 75% ferrosilicon should be considered as impacting the subject plant workers.

The Department upon examination of the data supplied by the company is in agreement that 50% and 75% ferrosilicon are competitive with each other for the bulk of their uses. Upon examination of industry trade statistics pertaining to ferrosilicon it is apparent that 50% and 75% ferrosilicon imports increased significantly, while U.S. production declined during the relevant period.

Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that increased imports of articles like or directly competitive with those produced at Keokuk Ferro-Sil, Inc., Keokuk, Iowa contributed importantly to the declines in sales or production and to the total or partial separation of workers at the subject firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Keokuk Ferro-Sil, Inc., Keokuk, Iowa who became totally or partially separated from employment on or after August 23, 2000 through two years from the date of this certification, are eligible to apply for adjustment assistance under section 223 of the Trade Act of 1974.
