

SUPPLEMENTARY INFORMATION: The Office of Management and Budget's (OMB) regulation (5 CFR part 1320) implementing provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13) requires that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). This notice identifies an information collection that RUS is submitting to OMB for reinstatement.

Comments are invited on: (a) Whether this collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of appropriate automated, electronic, mechanical or other technological collection techniques or other forms of information technology. Comments may be sent to F. Lamont Heppe, Jr., Director, Program Development and Regulatory Analysis, Rural Utilities Service, U.S. Department of Agriculture, STOP 1522, 1400 Independence Ave., SW., Washington, DC 20250-1522. Title: 7 CFR Part 1724, Electric Engineering, Architectural Services and Design Policies and Procedures.

OMB Control Number: 0572-0118.

Type of Request: Reinstatement of a previously approved collection.

Abstract: The rule requires borrower to use three RUS contract forms under certain circumstances. The use of standard forms helps assure RUS that:

- Appropriate standards and specifications are maintained;
- RUS loan security is not adversely affected; and
- Loan and loan guarantee funds are used effectively and for the intended purpose.

Standardization of forms by RUS results in substantial savings to:

- Borrowers—If standard forms were not used, borrowers would need to prepare their own documents at significant expense; and
- Government—If standard forms were not used, each document submitted by a borrower would require extensive and costly review by both RUS and the Office of General Counsel.

Estimate of Burden: Public reporting burden for this collection of information

is estimated to average 1 hour per response.

Respondents: Businesses, not-for-profit institutions and others.

Estimated Number of Respondents: 155.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 155 hours.

Copies of this information collection can be obtained from Dawn Wolfgang, Program Development and Regulatory Analysis, at (202) 720-0812. Fax: (202) 720-4120.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: October 17, 2002.

Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Survey to Measure Effectiveness of Community-Oriented Policing for Endangered Species Act Enforcement.

Form Number(s): None.

OMB Approval Number: 0648-0435.

Type of Request: Regular submission.

Burden Hours: 316.

Number of Respondents: 787.

Average Hours Per Response: 45 minutes for a survey of Washington State Department of Fish and Wildlife and NOAA personnel; 60 minutes for an interview of public officials, managers, and key stakeholders; and 20 minutes for a survey of citizens.

Needs and Uses: Community-oriented policing (COP) promotes the use of various resources and policing-community partnerships for developing strategies to identify, analyze, and address community problems at their source. Recognizing the significant role non-traditional enforcement efforts will play in Endangered Species Act enforcement in the Northwest, a measurement tool has been developed to ensure that the performance

outcomes of these non-traditional enforcement (COP) efforts are effectively measured. Through this instrument, COP efforts can be evaluated for success and elements essential for achieving successful outcomes in future programs can be identified and quantified. Anadromous species enforcement will be the focus of the survey.

Affected Public: Individuals or households, Federal, State, Local or Tribal Government.

Frequency: One-time.

Respondent's Obligation: Voluntary.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at MClayton@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, Room 10202, New Executive Office Building, Washington, DC 20503.
