

continues to qualify to have interim authorization. During the interim authorization period, for CRTs regulated under the TC Rule, these State regulations will operate in lieu of the Federal hazardous waste regulations.

I. Who Handles Permits After This Authorization Takes Effect?

Massachusetts will issue permits for all the provisions for which it is authorized and will administer the permits it issues. EPA will continue to administer any RCRA hazardous waste permits or portions of permits which we issued prior to the effective date of this authorization. EPA will continue to implement and issue permits for HSWA requirements for which Massachusetts is not yet authorized.

J. How Does Today's Action Affect Indian Country (18 U.S.C. 115) in Massachusetts?

Massachusetts is not authorized to carry out its hazardous waste program in Indian country within the State. Therefore, this action has no effect on Indian country. EPA will continue to implement and administer the RCRA program in these lands.

K. What Is Codification and Is EPA Codifying Massachusetts' Hazardous Waste Program as Authorized in This Rule?

Codification is the process of placing the State's statutes and regulations that comprise the State's authorized hazardous waste program into the Code of Federal Regulations. We do this by referencing the authorized State rules in 40 CFR part 272. We are today authorizing, but not codifying the enumerated revisions to the Massachusetts program. We reserve the amendment of 40 CFR part 272, subpart W for the codification of Massachusetts' program until a later date.

L. Administrative Requirements

The Office of Management and Budget has exempted this action from the requirements of Executive Order 12866 (58 FR 51735, October 4, 1993) and, therefore, this action is not subject to review by OMB. This action authorizes State requirements for the purpose of RCRA 3006 and imposes no additional requirements beyond those imposed by State law. Accordingly, I certify that this action will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this action authorizes pre-existing requirements under State law and does not impose any additional enforceable duty beyond that required

by State law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4). For the same reason, this action also does not significantly or uniquely affect the communities of tribal governments, as specified by Executive Order 13084 (63 FR 27655, May 10, 1998). This action will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely authorizes State requirements as part of the State RCRA hazardous waste program without altering the relationship or the distribution of power and responsibilities established by RCRA. This action also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant and it does not make decisions based on environmental health or safety risks.

Under RCRA section 3006(b), EPA grants a State's application for authorization as long as the State meets the criteria required by RCRA. It would thus be inconsistent with applicable law for EPA, when it reviews a State authorization application, to require the use of any particular voluntary consensus standard in place of another standard that otherwise satisfies the requirements of RCRA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must

submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this document and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2). This action, nevertheless, will be effective 60 (sixty) days after publication pursuant to the procedures governing immediate final rules.

Radio Broadcasting Services; Greenwood, MS; Hyannis, NE; and Wall, SD

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document grants three proposals that allot new channels to Greenwood, Mississippi; Hyannis, Nebraska; and Wall, South Dakota. The Audio Division, at the request of David P. Garland, allots Channel 277A at Greenwood, Mississippi, as the community's fourth local FM transmission service. *See* 67 FR 52924, August 14, 2002. Channel 277A can be allotted to Greenwood in compliance with the Commission's minimum distance separation requirements with a site restriction 10.1 kilometers (6.3 miles) east of the community to avoid a short-spacing to an application site of Station KZYQ, Channel 278C2, Lake Village, Arkansas. The coordinates for Channel 277A at Greenwood are 33-32-19 North Latitude and 90-04-27 West Longitude. Filing windows for Channel 277A at Greenwood, Mississippi; Channel 250C1 at Hyannis, Nebraska; and Channel 288C at Wall South Dakota, will not be opened at this time. Instead, the issue of opening a filing window for these channels will be addressed by the Commission in a

subsequent order. *See* Supplementary Information, *infra*.

DATES: Effective December 2, 2002.
