## CONSUMER PRODUCT SAFETY COMMISSION

### Notification of Request for Extension of Approval of Information Collection Activity—Customer Satisfaction Surveys

**AGENCY:** Consumer Product Safety Commission.

**ACTION:** Notice.

**SUMMARY:** In the November 16, 2001 *Federal Register* (66 FR 57707), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) to announce the agency's intention to seek extension of approval of 5 customer satisfaction surveys to determine the kind and quality of services CPSC customers want and customers' level of satisfaction with existing services. The Commission now announces that it has submitted to the Office of Management and Budget a request for extension of approval of that collection of information.

CPSC will use the information it obtains in these surveys to improve its work on behalf of the American public. In addition, the CPSC Office of Planning and Evaluation will use information from the surveys to prepare sections of the agency's annual performance report (required by the Government Performance and Results Act (GPRA)). This information will provide measures of the quality and effectiveness of agency efforts related to three goals in its strategic plan (informing the public, industry services, and customer satisfaction). In the past, information from these surveys has shown an overall high level of customer satisfaction. If this information is not periodically collected, we would not have useful measures of our effectiveness in

reaching consumers and others, and the information necessary to guide program development and improvement would not be available. We would be unable to measure our ability to meet our identified GPRA goals.

CPSC will collect this information in several ways, such as using telephone interviews and mail questionnaires. Fewer than 5 customer surveys or information collection activities a year would be conducted using this clearance.

**SUPPLEMENTARY INFORMATION:** Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. § 824a(e)).

On January 10, 2002, EES applied to the Department of Energy (“DOE”) for authority to export electric energy from the United States to Canada. EES, a Delaware corporation with its principal place of business in Bangor, Maine, is a wholly-owned indirect subsidiary of Emera Incorporated, a Nova Scotia corporation that is a diversified energy and services company. EES does not own or control any electric generation or transmission facilities nor does it have a franchised service area. Emera Incorporated owns and operates transmission facilities in the United States through its operating divisions. EES will be engaged in the marketing of power as both a broker and as a marketer of electric power at wholesale. EES plans to purchase the power that it will sell from cogeneration facilities, federal power marketing agencies, electric utilities and exempt wholesale generators within the United States.

In FE Docket No. EA–257, EES proposes to export electric energy to Canada and to arrange for the delivery of those exports to Canada over the international transmission facilities owned by Citizens Utilities, Eastern Maine Electric Cooperative, Joint Owners of the Highgate Project, Maine Electric Power Company, Maine Public

Service Company and Vermont Electric Transmission Company.

The construction of each of the international transmission facilities to be utilized by EES has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

*Procedural Matters:* Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC’s Rules of Practice and Procedures (18 CFR 385.211, 385.214). Smith, Secretary and General Counsel, Emera Incorporated, 1894 Barrington Street, 18th Floor, Barrington Tower, PO Box 910, Halifax, Nova Scotia, CANADA B3J 2W5.

A final decision will be made on this application after the environmental impact has been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by the DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the Fossil Energy Home Page at <http://www.fe.doe.gov>. Upon reaching the Fossil Energy Home page, select “Regulatory” Programs,” then “Electricity Regulation,” and then “Pending Proceedings” from the options menus.
