

proposed collection of information including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collections techniques or other forms of information, e.g., permitting electronic submissions of responses.

III. Current Actions

In order for the Department to meet its statutory responsibilities under the INA there is a need for an extension of an existing collection of information pertaining to the State Alien Labor Certification Activity Report.

Type of Review: Extension.

Agency: Employment and Training Administration.

Title: State Alien Labor Certification Activity Report.

OMB Number: 1205-0319.

Agency Number: Form ETA 9037.

Recordkeeping: Semi-Annually.

Affected Public: State governments.

Total Responses: 108.

Average Time per Response: 2 hours.

Total Burden Cost (Capital/Startup): 0.

Total Burden Cost (Operating/Maintaining): \$50 per response.

Comment Language: Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Signed at Washington DC, this 19th day of February, 2002.

Grace A. Kilbane,

Administrator, Office of Workforce Security.

[FR Doc. 02-4521 Filed 2-25-02; 8:45 am]

BILLING CODE 4510-30-P

DEPARTMENT OF LABOR

Pension and Welfare Benefits Administration

[Exemption Application No. D-10949]

Kimball International, Inc. Retirement Plan (the Plan)

AGENCY: Pension and Welfare Benefits Administration, Department of Labor (the Department).

ACTION: Notice of technical correction.

On January 9, 2002 (67 FR 1242), the Department published in the **Federal**

Register an exemption (the Exemption) from the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 and from certain taxes imposed by the Internal Revenue Code of 1986, which would allow the sale by the Plan of stock of SVB&T Corporation.

The Department notes that in the second column, in the first paragraph of the Exemption on page 1246 of the **Federal Register** the operative language should read as follows: "The restrictions of sections 406(a), 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to the proposed sale (the Sale) by the Plan of stock (the Shares) of SVB&T Corporation (Springs Valley) to Springs Valley, the parent company of the Plan trustee, Springs Valley Bank & Trust, and a party in interest with respect to the Plan, provided that the following conditions are met."

The Department hereby amends the Exemption to incorporate such change.

FOR FURTHER INFORMATION CONTACT: Mr. Khalif Ford of the Department at (202) 693-8540. (This is not a toll-free number.)

Signed at Washington, DC, this 20th day of February, 2002.

Ivan L. Strasfeld,

Director of Exemption, Determinations, Pension and Welfare Benefits Administration, Department of Labor.

[FR Doc. 02-4500 Filed 2-25-02; 8:45 am]

BILLING CODE 4520-29-P

NATIONAL FOUNDATION FOR THE ARTS AND THE HUMANITIES

National Endowment for the Arts; National Council on the Arts 145th Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the National Council on the Arts will be held on March 8, 2002, from 9:00 a.m. to 11:45 a.m. in Room M-09 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW, Washington, DC 20506.

This meeting will be open to the public on a space available basis. Following opening remarks and announcements, there will be a tribute to Chairman Michael Hammond featuring cellist Norman Fischer of the Concord Quartet from Rice University. This will be followed by Congressional and budget updates. Other topics will include: Application Review for Access,

Arts Learning, Heritage/Preservation, Challenge America, Partnership Agreements, Leadership Initiatives and Policy Research & Analysis; review of Guidelines for Arts Learning, Arts on Radio & Television, American Jazz Masters Fellowships, Folk Arts Infrastructure Initiative, National Heritage Fellowships, Partnership Agreements, and Resources for Change: Technology; and general discussion.

If, in the course of the open session discussion, it becomes necessary for the Council to discuss non-public commercial or financial information of intrinsic value, the Council will go into closed session pursuant to subsection (c)(4) of the Government in the Sunshine Act, 5 U.S.C. 552b.

Additionally, discussion concerning purely personal information about individuals, submitted with grant applications, such as personal biographical and salary data or medical information, may be conducted by the Council in closed session in accordance with subsection (c)(6) of 5 U.S.C. 552b.

Any interested persons may attend, as observers, Council discussions and reviews that are open to the public. If you need special accommodations due to a disability, please contact the Office of AccessAbility, National Endowment for the Arts, 1100 Pennsylvania Avenue, NW, Washington, DC 20506, 202/682-5532, TTY-TDD 202/682-5429, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from the Office of Communications, National Endowment for the Arts, Washington, DC 20506, at 202/682-5570.

Dated: February 20, 2002.

Kathy Plowitz-Worden,

Panel Coordinator, Office of Guidelines, Panel & Council Operations.

BILLING CODE 7537-01-P

NATIONAL SCIENCE FOUNDATION

Notice of Intent To Seek Approval Continue an Information Collection

AGENCY: National Science Foundation.

ACTION: Notice and request for comments.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request reinstatement of this collection. In accordance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), we are providing an opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the

submission requesting that OMB approve clearance of this collection for no longer than 3 years.

DATES: Written comments on this notice must be received by April 29, 2002, to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Written comments regarding the information collection and requests for copies of the proposed information collection request should be addressed to Suzanne Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230, or by e-mail to splimpto@nsf.gov.

FOR FURTHER INFORMATION CONTACT: Contact Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230; telephone 703-292-7556; or send e-mail to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Title of Collection: National Science Foundation Science Honorary Awards.
OMB Approval Number: 3145-0035.
Expiration Date of Approval: August 31, 2002.

Type of Request: Intent to seek approval to continue an information collection for three years.

Abstract: The National Science Foundation (NSF) administers several honorary awards, among them the President's National Medal of Science, the Alan T. Waterman Award, the NSB Vannevar Bush Award, and the NSB Public Service Award.

Use of the Information: The Foundation has the following honorary award programs:

- *President's National Medal of Science.* Statutory authority for the President's National Medal of Science is contained in 42 U.S.C. 1881 (Pub. L. 86-209), which established the award and stated that "(t)he President shall * * * award the Medal on the recommendations received from the National Academy of Sciences or on the basis of such other information and evidence as * * * appropriate."

Subsequently, Executive Order 10961 specified procedures for the Award by establishing a National Medal of Science Committee which would "receive recommendations made by any other nationally representative scientific or engineering organization." On the basis of these recommendations, the

Committee was directed to select its candidates and to forward its recommendations to the President.

In 1962, to comply with these directives, the Committee initiated a solicitation form letter to invite these nominations. In 1979, the Committee initiated a nomination form as an attachment to the solicitation letter. A slightly modified version of the nomination form was used in 1980. The Committee agreed that such a form standardized the nomination format, benefiting the nominator, making the Committee's review process more efficient and permitted better staff work in a shorter period of time. Form NSF-1122 will be used to further standardize the nomination procedures, thus continuing to allow for more effective committee review, and permitting better staff work in a shorter period of time.

The Committee has established the following guidelines for selection of candidates:

1. The total impact of an individual's work on the present state of physical, biological, mathematical, engineering, or social and behavioral sciences is to be the principal criterion.

2. Achievements of an unusually significant nature in relation to the potential effects of such achievements on the development of scientific thought.

3. Unusually distinguished service in the general advancement of science and engineering, when accompanied by substantial contributions to the content of science at some time.

4. Recognition by peers within the scientific community.

5. Contributions to innovation and industry.

6. Influence on education through publications, students.

7. Must be a U.S. citizen or permanent resident who has applied for citizenship.

Nominations remain active for a period of four years, including the year of nomination. After that time, candidates must be renominated with a new nomination package for them to be considered by the Committee.

Nomination forms should be typewritten, single-spaced using a font no smaller than 12 characters per inch. Renominations may be submitted via an updated nomination form.

- *Alan T. Waterman Award.* Congress established the Alan T. Waterman Award in August 1975 (42 U.S.C. 1881a (Pub. L. 94-86) and authorized NSF to "establish the Alan T. Waterman Award for research or advanced study in any of the sciences or engineering" to mark the 25th anniversary of the National Science Foundation and to honor its first

Director. The annual award recognizes an outstanding young researcher in any field of science or engineering supported by NSF. In addition to a medal, the awardee receives a grant of \$500,000 over a three-year period for scientific research or advanced study in the mathematical, physical, medical, biological, engineering, social, or other sciences at the institution of the recipient's choice.

The Alan T. Waterman Award Committee was established by NSF to comply with the directive contained in Pub. L. 94-86. The Committee solicits nominations from members of the National Academy of Sciences, National Academy of Engineering, scientific and technical organizations, and any other source, public or private, as appropriate.

In 1976, the Committee initiated a form letter to solicit these nominations. In 1980, a nomination form was used which standardized the nomination procedures, allowed for more effective Committee review, and permitted better staff work in a short period of time. On the basis of its review, the Committee forwards its recommendations to the Director, NSF, and the National Science Board (NSB).

Candidates must be U.S. citizens or permanent residents and must be 35 years of age or younger or not more than seven years beyond receipt of the Ph.D. degree by December 31 of the year in which they are nominated. Candidates should have demonstrated exceptional individual achievements in scientific or engineering research of sufficient quality to place them at the forefront of their peers. Criteria include originality, innovation, and significant impact on the field.

- *Vannevar Bush Award.* The NSB established the Vannevar Bush Award in 1980 to honor Dr. Bush's unique contributions to public service. The annual award recognizes an individual who, through public service activities in science and technology, has made an outstanding "contribution toward the welfare of mankind and the Nation."

The NSB ad hoc Vannevar Bush Award Committee annually solicits nominations from selected scientific engineering and educational societies. Candidates must be a senior stateperson who is an American citizen and meets two or more of the following criteria:

1. Distinguished him/herself through public service activities in science and technology.

2. Pioneered the exploration, charting and settlement of new frontiers in science, technology, education and public service.

3. Leadership and creativity has inspired others to distinguished careers in science and technology.

4. Contributed to the welfare of the Nation and mankind through activities in science and technology.

5. Leadership and creativity has helped mold the history of advancements in the Nation's science, technology, and education.

Nomination submissions are in letter format, accompanied by a curriculum vitae (without publication), a brief citation summarizing the nominee's scientific or technological contributions to our national welfare in promotion of the progress of science, and two reference letters. Nominations remain active for three years, including the year of nomination.

- *NSB Public Service Award.* The NSB Public Service Award Committee was established in November 1996. This annual award recognizes people and organizations who have increased the public understanding of science or engineering. This award is given to an individual and to a group (company, corporation, or organization), but not to members of the U.S. Government.

Eligibility includes any individual or group (company, corporation or organization) that has increased the public understanding of science or engineering. Members of the U.S. Government are not eligible for consideration.

Candidates for the individual and group (company, corporation or organization) award must have made contributions to public service in areas other than research, and should meet one or more of the following criteria:

1. Increased the public's understanding of the processes of science and engineering through scientific discovery, innovation and its communication to the public.
2. Encouraged others to help raise the public understanding of science and technology.

3. Promoted the engagement of scientists and engineers in public outreach and scientific literacy.

4. Contributed to the development of broad science and engineering policy and its support.

5. Influenced and encouraged the next generation of scientists and engineers.

6. Achieved broad recognition outside the nominee's area of specialization.

7. Fostered awareness of science and technology among broad segments of the population.

Nomination Procedures

1. Prepare a summary of the nominee's activities as they relate to the selection criteria. Include the

nominator's name, address and telephone number, and the name, address, and telephone number of the nominee, as well as the nominee's vita, if appropriate (no more than three pages).

2. The selection committee recommends the most outstanding candidate(s) for each category to the NSB, which approves the awardees.

3. Nominations remain active for a period of three years, including the year of nomination. After that time, candidates must be renominated with a new nomination package for them to be considered by the selection committee.

4. Nominations should be mailed or faxed to the NSB Public Service Award Advisory Committee. Electronic mail does not protect confidentiality and should not be used for this purpose.

Estimate of Burden: These are annual programs with application deadlines varying according to the program. Public burden also may vary according to program; however, it is estimated that each submission is averaged to be 15 hours per respondent for each program. If the nominator is thoroughly familiar with the scientific background of the nominee, time spent to complete the nomination may be considerably reduced.

Respondents: Individuals, businesses or other for-profit organizations, universities, non-profit institutions, and Federal and State governments.

Estimated Number of Responses per Award: 137 responses, broken down as follows: For the President's National Medal of Science, 55; for the Alan T. Waterman Award, 50; for the Vannevar Bush Award, 12; for the Public Service Award, 20.

Estimated Total Annual Burden on Respondents: 1,242 hours, broken down by 450 hours for the President's National Medal of Science (10 hours per 45 respondents); 600 hours for the Alan T. Waterman Award (10 hours per 60 respondents); 72 hours for the Vannevar Bush Award (6 hours per 12 respondents); and 120 hours for the Public Service Award (6 hours per 20 respondents).

Frequency of Responses: Annually.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of

information technology; or (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: February 21, 2002.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.
