

are generally one-time costs and have already been incurred. Staff's best

estimate of the average burden for these entities is as follows:

Event	Number of hours/costs per event and labor category* (per respondent)	Approx. Number of respondents	Approx. annual hours (millions)	Approx. total costs (millions)
Reviewing GLBA-implementing policies and practices.	Managerial/professional time: 4 hrs/\$200	70,000	.28	\$14.0
Disseminating annual disclosure	Clerical: 15 hrs/\$150; skilled labor: 5 hrs/\$100.	70,000	1.40	17.5
Changes to privacy policies and related disclosures.	Clerical: 15 hrs/\$150; skilled: 5 hrs/\$100	1,000	.02	.25
Total			1.70	31.75

* Staff calculated labor costs by applying appropriate hourly cost figures to burden hours. The hourly rates used were \$50 for managerial/professional time (e.g., compliance evaluation and/or planning), \$20 for skilled technical time (e.g., designing and producing notices, reviewing and updating information systems), and \$10 for clerical time (e.g., reproduction tasks, filing, and, where applicable to the given event, typing or mailing). Consumers have a continuing right to opt-out, as well as a right to revoke their opt-out at any time. When a respondent changes its information sharing practices, consumers are again given the opportunity to opt-out. Again, staff assumes that the time required of consumers to respond affirmatively to respondents' opt-out programs (be it manually or electronically) would be minimal.

** The estimate of respondents is based on the following assumptions: (1) 100,000 respondents, approximately 70% of whom maintain customer relationships exceeding one year, (2) no more than 1% (1,000) of whom make additional changes to privacy policies at any time other than the occasion of the annual notice; and (3) such changes will occur no more often than once per year.

As calculated above, the average PRA burden for all affected entities in a given year would be 1,000,000 hours and \$19,875,000.

Estimated Capital/Other Non-Labor Costs Burden: Staff estimates that the capital or other non-labor costs associated with the document requests are minimal. Covered entities will already be equipped to provide written notices (e.g., computers with word processing programs, typewriters, copying machines, mailing capabilities.) Most likely, only entities that already have on-line capabilities will offer consumers the choice to receive notices via electronic format. As such, these entities will already be equipped with the computer equipment and software necessary to disseminate the required disclosures via electronic means.
