**AGENCY:** International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the U.S. International Trade Commission has determined not to review the final initial determination ("ID") issued by the presiding administrative law judge ("ALJ") on January 29, 2003, finding no violation of section 337 of the Tariff Act of 1930, 19 U.S.C. 1337, in the above-captioned investigation. Accordingly, the Commission has terminated the investigation with a finding of no violation of section 337.

General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>). The public record for this investigation may be viewed on the Commission's electronic docket (EDIS-ON-LINE) at <http://dockets.usitc.gov/eol/public>.

**SUPPLEMENTARY INFORMATION:** The Commission instituted this patent-based section 337 investigation on January 24, 2002, based on a complaint filed by the Nikon Corporation of Tokyo, Japan, and Nikon Precision Inc. and Nikon Research Corporation of America of Belmont, California (collectively, "Nikon"). The respondents named in the investigation were ASM Lithography Holding N.V. and ASM Lithography B.V. of the Netherlands and ASM Lithography, Inc. of Tempe, Arizona

(collectively, "ASML"). The complaint alleged that ASML has violated section 337 of the Tariff Act of 1930 by importing into the United States, selling for importation, and/or selling within the United States after importation certain microlithographic machines and components thereof by reason of infringement of certain claims of seven U.S. patents: U.S. Patents Nos. 6,008,500 (the '500 patent), 6,271,640 (the '640 patent), 6,255,796 ("the '796 patent"), 6,323,935 ("the '935 patent"), 5,473,410 ("the '410 patent"), 5,638,211 ("the '211 patent"), and 6,233,041 ("the '041 patent").

On January 29, 2003, the ALJ issued his final ID finding no violation of section 337 based on his finding that claims 1 and 7 of the '500 patent and claim 1 of the '640 patent are anticipated by the Micrascan machine; claim 30 of the '640 is anticipated by the Doran '242 patent and is not enabled; ASML's Twinscan machine does not infringe claims 1 and 16 of the '796 patent or claims 1, 78, and 84 of the '935 patent, nor do Nikon's domestic machines practice claims 1 of the '796 patent or claim 1 of the '935 patent; claim 1 of the '935 patent is invalid for failure to satisfy the written description requirement and is not enabled under 35 U.S.C. 112, ¶ 1, and is invalid for indefiniteness under 35 U.S.C. 112, ¶ 2; claim 19 of the '410 patent is invalid as obvious and is unenforceable by reason of inequitable conduct; and ASML's Twinscan machine does not infringe any claim at issue of the '211 and '041 patents, nor do Nikon's domestic machines practice any claim of the '211 or '041 patents.

On February 10, 2003, Nikon, ASML, and the Commission investigative attorneys filed petitions for review of the final ID. On February 19, 2003, the parties filed responses to each other's petitions for review.

Having reviewed the record in this investigation, including the parties' written submissions, the Commission determined not to review (*i.e.*, to adopt) the ID in its entirety, except that it determined to take no position on the ALJ's finding that claim 30 of the '640 patent is anticipated by the Doran '242 patent and his findings on criteria (A) and (B) of the economic prong of the domestic industry requirement under section 337(a)(3) when a domestic product is made partly or wholly abroad.

This action is taken under the authority of section 337 of the Tariff Act of 1930, 19 U.S.C. 1337, and section 210.42 of the Commission's rules of practice and procedure, 19 CFR 210.42.

By order of the Commission.

Issued: March 17, 2003.

[Investigations Nos. 701-TA-432 and 731-TA-1024-1028 (Preliminary)]

### Prestressed Concrete Steel Wire Strand From Brazil, India, Korea, Mexico, and Thailand

#### Determinations

On the basis of the record<sup>1</sup> developed in the subject investigations, the United States International Trade Commission (Commission) determines, pursuant to sections 703(a) and 733(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a) and 1673b(a)) (the Act), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from India of prestressed concrete steel wire strand ("PC strand") that are alleged to be subsidized by the Government of India and by reason of imports from Brazil, India, Korea, Mexico, and Thailand of PC strand that are alleged to be sold in the United States at less than fair value (LTFV). The subject merchandise is provided for in subheading 7312.10.30 of the Harmonized Tariff Schedule of the United States.

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce (Commerce) of affirmative preliminary determinations in the investigations under sections 703(b) and 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in the investigations under sections 705(a) and 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations

have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

#### Background

On January 31, 2003, a petition was filed with the Commission and Commerce by American Spring Wire Corp., Bedford Heights, OH; Insteel Wire Products Co., Mt. Airy, NC; and Sumiden Wire Products Corp., Stockton, CA, alleging that an industry in the United States is materially injured and threatened with material injury by reason of subsidized imports of PC strand from India and by reason of LTFV imports of PC strand from Brazil, India, Korea, Mexico, and Thailand. Accordingly, effective January 31, 2003, the Commission instituted countervailing duty investigation No. 701-TA-432 and antidumping duty investigations Nos. 731-TA-1024-1028 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of February 7, 2003 (68 FR 6511). The conference was held in Washington, DC, on February 21, 2003, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on March 17, 2003. The views of the Commission are contained in USITC Publication 3589 (March 2003), entitled *Prestressed Concrete Steel Wire Strand from Brazil, India, Korea, Mexico, and Thailand: Investigations Nos. 701-TA-432 and 731-TA-1024-1028 (Preliminary)*.

Issued: March 17, 2003.
