SUPPLEMENTARY INFORMATION:

Description

The information collection submitted for OMB review contains the following:

1. Collection of Information: FERC-539 "Gas Pipeline Certificates: Import/Export"
2. Sponsor: Federal Energy Regulatory Commission
3. Control No. 1902-0062.

The Commission is now requesting that OMB approve a three-year extension of the expiration date, with no changes to the existing collection. The information filed with the Commission is mandatory. Requests for confidential treatment of the information are provided for under Section 388.112 of the Commission's regulations.

4. Necessity of the Collection of Information: Submission of the information is necessary to enable the Commission to carry out its responsibilities in implementing the statutory provisions of Section 3 of the Natural Gas Act (NGA), 15 U.S.C. 717-717w. Section 3 requires prior authorization before exporting or importing natural gas from or to the United States. Section 3 authorizes the Commission to grant an application, in whole or in part, with modifications and upon terms and conditions as the Commission may find necessary or appropriate. The 1992 amendments to Section 3 of the NGA concern the importation or exportation from/to a nation which has a free trade agreement with the United States. With the passage of both the North American Free Trade Agreement and the Canadian Free Trade Agreement, the construction, operation and sitting of import or export facilities are also the subject of the Commission's regulatory focus.

In Order No. 608, 64 FR 51209-51222 (September 22, 1999), the Commission created voluntary procedures whereby prospective applicants could use a collaborative process to resolve significant issues prior to filing an application. This collaborative process allows applicants and interested parties to come together and come to mutual agreements that may help to defuse some of the controversial issues which may otherwise arise once an application has been filed with the Commission.
