SUPPLEMENTARY INFORMATION:

Background

Title VI of the North American Free Trade Agreement Implementation Act, Pub. L. 103-182, 107 Stat. 2057 (December 8, 1993), contains provisions pertaining to Customs Modernization (107 Stat. 2170). Subpart B of title VI of the Act concerns the National Customs Automation Program (NCAP), an electronic system for the processing of commercial imports. Within subpart B, section 631 of the Act added section 411 to the Tariff Act of 1930 (19 U.S.C. 1411-1414), which defines the NCAP, provides for the establishment of and participation in the NCAP, and includes a list of existing and planned components. Section 411(a)(2)(F) identifies the electronic (*i.e.*, paperless) filing of drawback claims, records or entries as a planned NCAP component.

Section 101.9(b) of the Customs Regulations (19 CFR 101.9(b)) provides for the testing of NCAP planned components. The Paperless Drawback

prototype is being tested in accordance with this provision.

A notice describing the Paperless Drawback Prototype, and setting forth the prototype's terms and conditions, was published in the **Federal Register** (67 FR 61197) on September 27, 2002. That document stated that the prototype was to commence no earlier than August 1, 2002, and the deadline by which drawback claimants were required to submit applications to Customs to participate in the prototype was October 28, 2002. In an effort to encourage greater participation in the prototype, Customs is reopening the application period until 30 days from the date of publication of this notice in the **Federal Register**. The Paperless Drawback Prototype will commence no earlier than 30 days from the application deadline date.

All of the remaining Paperless Drawback Prototype terms and conditions set forth in the September 27, 2002, **Federal Register** notice remain in effect.

Dated: April 11, 2003.
