SUPPLEMENTARY INFORMATION: 5 CFR 1320.12(a) requires that we provide a 60-day notice in the **Federal Register** concerning a collection of information to solicit comments on:

(a) Whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;

(b) The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;

(c) Ways to enhance the quality, utility, and clarity of the information collected; and

(d) Ways to minimize the information collection burden on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

The Federal Land Policy and Management Act of 1976, 30 U.S.C. 28f (Pub. L. 105-277), and the regulations under 43 CFR parts 3830-3833, 3840-3843, 3850-3852 authorizes BLM to collect information from owners of unpatented claims, mill sites and tunnel sites to manage the general mining law activities on public lands.

BLM uses Form 3830-2 (Maintenance Fee Waiver) to collect the information to waive the \$100 annual maintenance fee that owners of unpatented mining claims, mill sites, and tunnel sites must pay. The owners of unpatented mining

claims, mill sites, and tunnel sites must submit the following information to BLM:

- (1) The mining claims names and BLM serial numbers;
- (2) A declaration that the owners own or have interest in 10 or fewer claims or sites;
- (3) A declaration of compliance with the assessment work requirements;
- (4) The names and addresses of all owners of the claims and sites; and
- (5) The owners'/agents' signatures.

BLM uses Form 3830-3 (Notice of Intent to Locate A Lode or Placer Mining Claim(s) and/or A Tunnel Site(s) and Lands Patented Under the Stock Raising Homestead Act of 1916, amended to collect information on an applicant who files a notice of intent to locate or explore for a mining claim or tunnel site. The applicant must submit the following information to BLM:

- (1) The name and mailing address of the applicant filing the notice of intent to locate or explore for a mining claim or tunnel site;
- (2) A legal land description of the lands which the notice of intent will apply;
- (3) A brief description of the proposed mineral activities;
- (4) A map and legal land description of lands subject to mineral exploration;
- (5) The name, address, and phone number of the person managing the activities; and
- (6) The dates the activities will take place.

BLM uses the information on recording claims, annual assessment work, notice of intent to hold, and transfer of interest to:

- (1) Determine the number and location of unpatented mining claims, mill sites and tunnel sites located on Federal lands to assist in the surface management of these lands and any minerals found there;
- (2) Remove any cloud on the title to those lands due to abandoned mining claims;
- (3) Provide information as to the location of active claims; and
- (4) Keep informed of transfers of interest and ownership.

Without this information, BLM could not protect the rights of surface and mineral owners. Also, the Government's ability to locate, control, and manage surface disturbance is compromised.

Based upon BLM experience, the public reporting information collection burden takes eight minutes per response. The respondents are owners of unpatented mining claims, mill sites, and tunnel sites located on public lands and individuals or organizations who seek to explore for or locate a mining

claim. The estimated number of responses per year is 236,852 and the total annual burden is 31,580 hours.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.

Dated: January 9, 2003.

Bureau of Land Management, Information Collection Clearance Officer.
