

Type of Review: Revision of a currently approved collection.

Title: Home Wiring Provisions.

Form Number: N/A.

Respondents: Business or other for-profit entities; Individuals or households.

Number of Respondents: 30,500.

Estimated Time per Response: 5 mins. (0.083 hrs) to 20 hrs.

Frequency of Response:

Recordkeeping; Annual and on occasion reporting requirements; Third party disclosure.

Total Annual Burden: 46,114 hours.

Needs and Uses: On January 29, 2003, the Commission issued a First Order on Reconsideration and Second Report and Order, FCC 03–9, which grants in part and denies in part the petitions for reconsideration filed in response to the Report and Order. The Commission's home run wiring rules were modified in the First Order on Reconsideration to provide that in the event of sale, the home run wiring be made available to the MDU owner or alternative provider during the 24-hour period prior to actual service termination by the incumbent and that home run wiring located behind sheet rock is physically inaccessible for purposes of determining the demarcation point between home wiring and home run wiring. In the Second Report and Order, the Commission adopted a limited exemption for small non-cable MVPDs from the signal leakage reporting requirements and concluded that the cable and home run wiring rules should apply to all MVPDs in the same manner that they apply to cable operators. The Commission declined to restrict exclusive contracts or ban perpetual contracts. The Commission also declined to allow MDU owners to require sharing of incumbent-owned cable wiring.

The Commission is currently examining its enforcement practices and procedures. Enforcement matters are processed, numbered as Matters Under Review (MURs), and assigned to enforcement attorneys. The Commission investigates MURs pursuant to the compliance procedures set forth at 11 CFR part 111, and various internal directives.
