

Proposed Rules

Federal Register

Vol. 68, No. 102

Wednesday, May 28, 2003

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 110

RIN 3150-AH21

General License for Import of Major Nuclear Reactor Components

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) proposes to amend its regulations to issue a general license for the import of major components of utilization facilities for end-use at NRC-licensed reactors. The amendment is necessary to facilitate imports of major components of domestic nuclear reactors in furtherance of protection of public health and safety and will also reduce unnecessary regulatory burdens related to the maintenance of NRC-licensed reactors. In the Rules and Regulations section of this **Federal Register**, the NRC is publishing a direct final rule on this subject, because the Agency views this action as noncontroversial and anticipates that it will not receive significant adverse comments. A detailed rationale for the rulemaking is set forth in the direct final rule notice. If the NRC does not receive any significant adverse comments on this rule, then the rule will become final on August 11, 2003, without further proceedings. If the NRC receives significant material and adverse comments, the direct final rule will be withdrawn and the NRC will address all public comments received in a later final rule based on this proposed rule. The NRC will not begin a second comment period.

DATES: The comment period for this proposed rule ends on June 27, 2003. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure only that comments received on or before this date will be considered.

ADDRESSES: You may submit comments by any one of the following methods. Please include the following number [RIN 3150-AH21] in the subject line of your comments. Comments on rulemakings submitted in writing or in electronic form will be made available to the public in their entirety on the NRC rulemaking Web site. Personal information will not be removed from your comments.

Mail comments to: Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, ATTN: Rulemakings and Adjudications Staff.

E-mail comments to: SECY@nrc.gov. If you do not receive a reply e-mail confirming that we have received your comments, contact us directly at (301) 415-1966. You may also submit comments via the NRC's rulemaking Web site at <http://ruleforum.llnl.gov>. Address questions about our rulemaking Web site to Carol Gallagher, (301) 415-5905; e-mail CAG@nrc.gov.

Hand deliver comments to: 11555 Rockville Pike, Rockville, Maryland 20852, between 7:30 am and 4:15 p.m. on Federal workdays.

Fax comments to: Secretary, U.S. Nuclear Regulatory Commission at (301) 415-1101.

Publicly available documents related to this rulemaking may be examined and copied for a fee at the NRC's Public Document Room (PDR), Public File Area O1 F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland. Selected documents, including comments, can be viewed and downloaded electronically via the NRC's rulemaking Web site at <http://ruleforum.llnl.gov>.

Publicly available documents created or received at the NRC are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/NRC/reading-rm/adams.html>. From this site, the public can gain entry into the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737 or by e-mail to PDR@nrc.gov.

FOR FURTHER INFORMATION CONTACT: Grace H. Kim, Senior Attorney, Office of the General Counsel, U.S. Nuclear

Regulatory Commission, Washington, DC 20555-0001, telephone (301) 415-3605, e-mail GHK@nrc.gov.

SUPPLEMENTARY INFORMATION: See the information provided in the direct final rule of the same title, which is found in the Rules and Regulations section of this **Federal Register**.

Dated at Rockville, Maryland, this 9th day of May, 2003.

For the Nuclear Regulatory Commission.

William D. Travers,

Executive Director For Operations.

BILLING CODE 7590-01-P

SMALL BUSINESS ADMINISTRATION

13 CFR Part 121

Small Business Size Standards; Waiver of the Nonmanufacturer Rule

AGENCY: Small Business Administration.

ACTION: Notice of intent to grant a waiver of the nonmanufacturer rule for overhead fiber optic groundwire and ancillary hardware components.

SUMMARY: The U. S. Small Business Administration (SBA) is considering granting a waiver of the Nonmanufacturer Rule for Overhead Fiber Optic Groundwire and Ancillary Hardware Components. The basis for waivers is that no small business manufacturers are supplying these classes of products to the Federal government. The effect of a waiver would be to allow otherwise qualified regular dealers to supply the products of any domestic manufacturer on a Federal contract set aside for small businesses or awarded through the SBA 8(a) Program. The purpose of this notice is to solicit comments and potential source information from interested parties.

DATES: Comments and sources must be submitted on or before May 30, 2003.

ADDRESSES: Address comments to Edith Butler, Program Analyst, U.S. Small Business Administration, 409 3rd Street, SW., Washington DC, 20416, Tel: (202) 619-0422.

FOR FURTHER INFORMATION CONTACT: Edith Butler, Program Analyst, (202) 619-0422 FAX (202) 205-7280.

SUPPLEMENTARY INFORMATION: Public Law 100-656, enacted on November 15, 1988, incorporated into the Small

Business Act the previously existing regulation that recipients of Federal contracts set aside for small businesses or SBA's 8(a) Program must provide the product of a small business manufacturer or processor, if the recipient is other than the actual manufacturer or processor. This requirement is commonly referred to as the Nonmanufacturer Rule. The SBA regulations imposing this requirement are found at 13 CFR 121.406 (b). Section 303(h) of the law provides for waiver of this requirement by SBA for any "class of products" for which there are no small business manufacturers or processors in the Federal market.

To be considered available to participate in the Federal market on these classes of products, a small business manufacturer must have submitted a proposal for a contract solicitation or received a contract from the Federal government within the last 24 months.

The SBA defines "class of products" based on a six digit North American Industry Classification System (NAICS) and the four digit Product and Service Code established by the Federal Procurement Data System.

The U.S. Small Business Administration is currently processing a request to waive the Nonmanufacturer Rule for Overhead Fiber Optic Groundwire, NAICS 335921 and Ancillary Hardware Components, NAICS 334417. The public is invited to comment or provide source information to SBA on the proposed waiver of the nonmanufacturer rule for this NAICS code.

Linda G. Williams,

Associate Administrator for Government Contracting.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 98-ANE-68-AD]

RIN 2120-AA64

Airworthiness Directives; Rolls-Royce Deutschland Ltd & Co KG Models Tay 650-15 and 651-54 Turbofan Engines

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The Federal Aviation Administration (FAA) proposes to

supersede an existing airworthiness directive (AD), applicable to Rolls-Royce Deutschland Ltd & Co KG (RRD) (formerly Rolls-Royce plc) models Tay 650-15 and 651-54 turbofan engines with certain part numbers of fan blades and fan discs. That AD currently requires initial and repetitive visual and ultrasonic inspections of fan blades for cracks, and, if necessary, replacement with serviceable parts. In addition, that AD requires recording instances when engines are operated in a stabilized manner in newly prohibited ranges. This proposal would also require recording instances when engines are operated inadvertently in reverse thrust in prohibited ranges, and would require before further flight initial and repetitive ultrasonic inspections of fan blades for cracks and if necessary, positioning of fan blades and fan discs, if certain reverse thrust events occurred. This proposal is prompted by updated prohibited ranges of engine operation and the introduction of an N1 Alert System in Fokker Model F.28 Mark 0100 airplanes with Tay 650-15 engines installed. The actions specified by the proposed AD are intended to prevent fan blade failures, which can result in an uncontained engine failure, engine fire, and damage to the airplane.

DATES: Comments must be received by July 28, 2003.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), New England Region, Office of the Regional Counsel, Attention: Rules Docket No. 98-ANE-68-AD, 12 New England Executive Park, Burlington, MA 01803-5299. Comments may be inspected at this location, by appointment, between 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Comments may also be sent via the Internet using the following address: 9-ane-adcomment@faa.gov. Comments sent via the Internet must contain the docket number in the subject line.

The service information referenced in the proposed rule may be obtained from Rolls-Royce plc, Technical Publications Department, PO Box 31, Derby, England DE248BJ; telephone 44 1332 242424, fax 44 1332 249936. This information may be examined, by appointment, at the FAA, New England Region, Office of the Regional Counsel, 12 New England Executive Park, Burlington, MA.

FOR FURTHER INFORMATION CONTACT: James Lawrence, Aerospace Engineer, Aircraft Certification Office, FAA, Engine and Propeller Directorate, 12 New England Executive Park, Burlington, MA, 01803-5299; telephone (781) 238-7176, fax (781) 238-7199.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this action may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this action must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 98-ANE-68-AD." The postcard will be date stamped and returned to the commenter.

Availability of NPRM's

Any person may obtain a copy of this NPRM by submitting a request to the FAA, New England Region, Office of the Regional Counsel, Attention: Rules Docket No. 98-ANE-68-AD, 12 New England Executive Park, Burlington, MA 01803-5299.

Discussion

On October 31, 2001, the FAA issued airworthiness directive (AD) 2001-22-18, Amendment 39-12497 (66 FR 56755, November 13, 2001), to require initial and repetitive visual and ultrasonic inspections of fan blades for cracks, and, if necessary, replacement with serviceable parts. In addition, that AD requires recording instances when Tay 650-15 engines are operated in a stabilized manner at any intermediate position between idle reverse and emergency maximum reverse thrust except during powerback operations. That AD also requires recording instances when Tay 651-54 engines are operated in a stabilized manner at any intermediate position between idle and maximum reverse thrust. The Luftfahrt-
