INTERNATIONAL TRADE COMMISSION**[Investigation No. 731-TA-1033 (Preliminary)]****Hydraulic Magnetic Circuit Breakers From South Africa****Determination**

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission (Commission) determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)) (the Act), that there is no reasonable indication that an industry in the United States is materially injured or threatened with material injury, or that the establishment of an industry in the United States is materially retarded, by reason of imports from South Africa of hydraulic magnetic circuit breakers, provided for in subheadings 8535.21.00 and 8536.20.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).

Background

On April 14, 2003, a petition was filed with the Commission and Department of Commerce (Commerce) by Airpax Corp., Cambridge, MD, alleging that an industry in the United States is materially injured and threatened with material injury by reason of LTFV imports of hydraulic magnetic circuit breakers from South Africa. Accordingly, effective April 14, 2003, the Commission instituted antidumping duty investigation No. 731-TA-1033 (Preliminary).

Notice of the institution of the Commission's investigation and of a

public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of April 22, 2003 (68 FR 19849). The conference was held in Washington, DC, on May 5, 2003, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on May 29, 2003. The views of the Commission are contained in USITC Publication 3600 (June 2003), entitled *Hydraulic Magnetic Circuit Breakers from South Africa: Investigation No. 731-TA-1033 (Preliminary)*.

OSHA is providing the public with 60 days to provide comments on the poultry processing ergonomics guidelines. During the development of the nursing home ergonomics guidelines (the final version was published March 13, 2003), the Agency provided 30 days for comment, then extended the comment period an additional 30 days at the request of several stakeholders. The 60-day period provided adequate time for the public to provide comments on the nursing home guidelines, so OSHA is also allowing 60 days for the public to comment on the poultry processing ergonomics guidelines.

II. Background

On April 5, 2002, the Department of Labor announced a four-pronged comprehensive approach for addressing musculoskeletal disorders (MSDs), which calls for OSHA to develop industry and task-specific guidelines. OSHA's third industry-specific guidelines address ergonomic concerns in poultry processing facilities. The draft poultry are compatible with OSHA's 1990 Ergonomic Program Management Guidelines for Meatpacking Plants. The two documents are similar in several key respects, recommending an ergonomics process that relies on management support, employee involvement, training, problem identification, solutions, addressing reports of injuries, and evaluating ergonomics efforts. However, the documents are also different in some respects, reflecting the advances in understanding that have occurred during the 13 years that have passed since the publication of the meatpacking guidelines. The poultry guidelines are based on the meatpacking guidelines, but have been shortened and formatted to resemble OSHA's more recent ergonomics guidelines for nursing homes and the retail grocery industries. The other major differences are that the poultry guidelines:

- Use terms "musculoskeletal disorder" and "MSD" instead of "cumulative trauma disorder" and "CTD",
- Include many more examples of practical ergonomic solutions tailored to the poultry industry, and
- Are less detailed and more flexible about how to address reports of injuries and provide medical management.

OSHA invites comment on the similarities and differences between the two guidelines, particularly whether the draft guidelines affect the ergonomics efforts that poultry processors have developed using the meatpacking guidelines.

The draft guidelines contain an introduction and two main sections. The introduction provides an overview of MSDs in poultry processing and explains the role of ergonomics in reducing the incidence of these injuries. A section entitled "Ergonomics Process" describes a process for developing and implementing a strategy for analyzing the workplace, implementing ergonomic solutions, training, addressing reports of injuries, and evaluating progress.

The heart of the guidelines, the Implementing Solutions section, describes examples of ergonomic solutions (engineering solutions, work practices, and personal protective equipment) that may be used in poultry processing to control exposure to ergonomic risk factors commonly encountered in the industry. The recommendations cover workstation design, tools, manual material handling, and fitting/selection of personal protective equipment. The draft guidelines finish with a list of references and sources of additional information poultry processing facilities can use to help them with their ergonomics efforts.

OSHA encourages interested parties to comment on all aspects of the draft guidelines. The Agency is particularly interested in:

- Information about successful ergonomics efforts firms in the poultry processing industry have used to address ergonomic concerns,
- Innovative solutions poultry processing firms have used to effectively solve ergonomic problems, and
- Checklists or flowcharts poultry processing firms use to identify workplace problems, identify risk factors, or evaluate aspects of their ergonomics process. OSHA is particularly interested in short, user-friendly checklists for identifying workplace problems that employers have successfully in their workplaces.

III. Stakeholder Meeting

Following the close of the comment period, OSHA will hold a stakeholder meeting in the Washington, DC metropolitan area during the week of August 18. The Agency will announce the exact date and location of the stakeholder meeting at a later date.

This notice was prepared under the direction of John L. Henshaw, Assistant Secretary for Occupational Safety and

Health. It is issued under sections 4 and 8 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 653, 657).

Issued at Washington, DC, this 30th day of May, 2003.

John L. Henshaw,

Assistant Secretary of Labor.
