FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 9:35 a.m. on Tuesday, June 3, 2003, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session to consider matters relating to the Corporation's corporate and enforcement activities.

In calling the meeting, the Board determined, on motion of Director James E. Gilleran (Director, Office of Thrift Supervision), seconded by Vice Chairman John M. Reich, concurred in by John M. Hawke, Jr. (Comptroller of the Currency), and Chairman Donald E. Powell, that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no notice earlier than May 29, 2003, of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(2), (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(10) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2), (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(10)).

The meeting was held in the Board Room of the FDIC Building located at 550-17th Street, NW., Washington, DC.

Dated: June 3, 2003.

Federal Deposit Insurance Corporation.

GENERAL SERVICES ADMINISTRATION

[2003-N01]

Integrated Acquisition Environment Pilot; Posting Awarded Contracts on the Worldwide Web

AGENCY: The Integrated Acquisition Environment (IAE) Program Office, GSA.

ACTION: Notice and request for comments.

SUMMARY: The Integrated Acquisition Environment (IAE) program office, which is responsible for improving Federal acquisition processes through reliance on a technology-based integrated infrastructure, is initiating a pilot to begin making Federal contracts available to the general public on the worldwide web (web). This pilot effort is intended to increase transparency in agency acquisition activities and further the Administration's global vision of a citizen-centric E-Government. The IAE program office seeks public comment to help in identifying priorities for the pilot's implementation.

DATES: Interested parties should submit comments to the Regulatory Secretariat at the address shown below on or before August 5, 2003.

ADDRESSES: Submit written comments to—General Services Administration, Regulatory Secretariat (MVA), 1800 F Street, NW., Room 4035, ATTN: Laurie Duarte, Washington, DC 20405.

Submit electronic comments via the Internet to—*Notice.2003-N01@gsa.gov*.

Please submit comments only and cite Notice 2003-N01 in all correspondence related to this case.

FOR FURTHER INFORMATION CONTACT: Ms. Teresa Sorrenti, Project Manager, Integrated Acquisition E-Gov Initiative, by phone at (703) 872-8610 or by e-mail at *teresa.sorrenti@gsa.gov*.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) and the IAE program office seek to promote greater transparency in Government contracting through the effective use of technology. Transparency fosters public confidence in the Government's procurement processes and the critical missions they support.

The Government has taken, and continues to take, important steps to leverage Federal information technology investments and increase transparency in ways that help Federal buyers to achieve better results. For example:

- FedBizOpps (*http://www.fedbizopps.gov*) enables vendors and other interested members of the public to easily acclimate themselves with the planned procurements of departments and agencies across the executive branch. This gateway hosts a wide variety of business documents, such as notices, solicitations, and other related acquisition information, that vendors need to bid on and negotiate contracts with agencies. The transparency FedBizOpps provides helps to reduce vendor transaction costs. This, in turn, generates

competition to lower cost and improve quality in purchases for taxpayers.

- The interagency contract directory (*http://www.contractdirectory.gov*), which will be rolled out later this year, will provide general information to agencies and the public about awarded contracts that are available to satisfy the needs of other Federal agencies. Information in the directory will be made available in a standardized format to facilitate market research and help agency managers rationalize contracting efforts.

- The Federal Procurement Data System—Next Generation (FPDS-NG) will entirely transform how information about acquisition activities is captured. As this new management information system is phased in over the next two years, agencies and the public will enjoy faster and wider access to transactional information as well as real-time web-based reporting.

Several public interest groups have requested that agencies make contracts available online. These groups believe this type of transparency will facilitate constructive dialogue to promote model contracting, improve weak practices, and reduce repetitive requests under the Freedom of Information Act (FOIA) for contracts that are of particular interest to the public. While a limited amount of information about awarded contracts is available today through FPDS and FedBizOpps, Federal contracts are not routinely posted on the web.

In light of the public interest in having contracts posted and the benefits derived through improved transparency in acquisition generally, the IAE program office is initiating a project to pilot the online posting of Federal contracts. The IAE program office intends to scope the pilot in a manner that is both (1) responsive to the interests of our taxpayers, and (2) reasonable in light of potential costs and burden associated with this effort and the capabilities of technology currently employed by the Government. This scope may be modified based on the success of initial pilot efforts and future enhancements to the Government's technology infrastructure. It may also be re-scoped to include grants. Irrespective of how the pilot is structured, any proprietary information contained in a contract covered by the pilot would be redacted before posting.

The program office welcomes the public's comments in helping to identify priorities for implementing the pilot. Comments are especially welcome on the following issues:

1. *Scope and availability.* What parameters (factors) should guide the initial shape of the pilot (e.g., size or

type of contract; amount of competition sought; product or service purchased; awards related to specific Federal programs)? How long should contracts remain available after they have been posted?

2. *Guidance.* What, if any, type of guidance may be beneficial to ensure posting is consistent with applicable laws and regulations (e.g., is there a need for guidance to address the redaction of proprietary information, the identification of contracts whose disclosure would compromise the national security, or the application of FOIA generally)?

Dated: June 3, 2003.

David A. Drabkin,

Deputy Associate Administrator, Office of Acquisition Policy.
