CONSUMER PRODUCT SAFETY COMMISSION

Submission for OMB Review; Comment Request— Safety Standard for Automatic Residential Garage Door Operators

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In the *Federal Register* of April 1, 2003 (68 FR 15707), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) to announce the agency's intention to seek extension of approval of the collection of information in the Safety Standard for Automatic Residential Garage Door Operators (16 CFR Part 1211). No comments were received in response to that notice. The Commission now announces that it has submitted to the Office of Management and Budget a request for extension of approval of that collection of information without change for a period of three years from the date of approval.

The Consumer Product Safety Improvement Act of 1990 (Pub. L. 101-608, 104 Stat. 3110) requires all automatic residential garage door openers manufactured after January 1, 1993, to comply with the entrapment protection requirements of UL Standard

325 that were in effect on January 1, 1992. In 1992, the Commission codified the entrapment protection provisions of UL Standard 325 in effect on January 1, 1992, as the Safety Standard for Automatic Residential Garage Door Operators, 16 CFR Part 1211, Subpart A. Certification regulations implementing the standard require manufacturers, importers and private labelers of garage door operators subject to the standard to test their products for compliance with the standard, and to maintain records of that testing. Those regulations are codified at 16 CFR part 1211, Subparts B and C.

The Commission uses the records of testing and other information required by the certification regulations to determine that automatic residential garage door operators subject to the standard comply with its requirements. The Commission also uses this information to obtain corrective actions if garage door operators fail to comply with the standard in a manner which creates a substantial risk of injury to the public.
