**[Program Announcement 03063]**

#### **Enhancement of HIV/AIDS Surveillance Activities and HIV Reference Laboratory Program in Malawi; Notice of Intent To Fund Single Eligibility Award**

##### **A. Purpose**

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2003 funds for a cooperative agreement program for the enhancement of HIV/AIDS surveillance activities and an HIV reference laboratory program in Malawi. The Catalog of Federal Domestic Assistance number for this program is 93.978.

##### **B. Eligible Applicant**

Assistance will be provided only to Malawi Ministry of Health and Population (MOHP) in Lilongwe, the capital of Malawi. The Ministry of Health and Population (MOHP) is a unique agency in the sovereign country of Malawi, charged with implementing health care and public health measures nationwide. There is no other agency in Malawi charged with planning and actually implementing health care and public health activities in the public sector. The MOHP of the Government of Malawi is the only agency in the country that conducts HIV surveillance.

Over the past 18 months, the National AIDS Commission (NAC), another branch of the Malawi Government, was temporarily given responsibility for surveillance at the national level. In 2003, this responsibility is moving back to the MOHP from the NAC. CDC has been providing financial and technical support to the NAC for surveillance and is now arranging through this Cooperative Agreement to provide a smooth transition of surveillance activities back to the MOHP. Currently, a transitional team from NAC and the surveillance unit at the MOHP have responsibility for surveillance. In 2003, this responsibility will move back to the MOHP from NAC.

CDC-GAP is relatively new in Malawi and has no other formal funding

agreements with the MOHP. CDC GAP looks forward to sharing its expertise in all areas of surveillance with the MOHP, the only national agency in the government of Malawi that has responsibility and authority to implement HIV/AIDS programs in the health sector.

The MOHP is located in Lilongwe, the capital of Malawi. The CHSU of the MOHP is located in Lilongwe, the capital of Malawi. CHSU is a well-established entity in the MOHP and has responsibility for preventive services, including surveillance, and for the national lab. The national lab has been without adequate resources and needs CDC's technical and financial support in order to fully perform its function as a national reference lab. This is critically important at this particular juncture as Malawi expects to get a large Global Fund award and will need the national reference lab functions in order to provide quality HIV services to the population using these funds.

##### **C. Funding**

Approximately \$750,000 is available in FY 2003 to fund this award. It is expected that the award will begin on or before September 15, 2003, and will be made for a 12-month budget period within a project period of up to three years. Funding estimate may change.

##### **D. Where To Obtain Additional Information**

For general comments or questions about this announcement, contact:

Technical Information Management, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341-4146, Telephone: 770-488-2700.

For technical questions about this program, contact: Margaret Davis, MD, MPH, Kang'ombe Building 8 West, Lilongwe, Malawi, Telephone Number: 265-1-775-188, Fax Number: 265-1-775-848, E-mail address: DavisM@malcdc.co.mw, C/o U.S. Embassy, P.O. Box 30016, Lilongwe 3, Malawi.

### **Centers for Disease Control and Prevention**

**[Program Announcement 03104]**

#### **Strengthening Infectious Disease Control in the Democratic Republic of the Congo; Notice of Intent To Fund Single Eligibility Award**

##### **A. Purpose**

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2003 funds for a cooperative agreement program to strengthen the capacities of national control programs and local nongovernmental organization partners to reduce the transmission and impact of HIV/AIDS, other sexually transmitted infections (STIs), Tuberculosis (TB) and Malaria. The Catalog of Federal Domestic Assistance number for this program is 93.947.

##### **B. Eligible Applicant**

Assistance will be provided only to the Kinshasa School of Public Health (KSPH). No other applications are being solicited. The KSPH is the only appropriate and qualified organization to conduct a specific set of activities supportive of the CDC Global AIDS Program's technical assistance to the DRC for the following reasons:

- The KSPH is strategically placed to coordinate work with key departments of the Ministry of Health (MOH) and other DRC ministries as well as local and international partners.
- The KSPH has a well-grounded base of understanding and working knowledge of basic public health principles, specifically in the areas of research, monitoring, evaluation, training and formal public health education. KSPH is the only institution of its caliber in Central Africa.
- The KSPH has extensive experience in working on infectious disease control activities with U.S. Government agencies, including CDC and USAID, as well as collaborating partners such as Family Health International (FHI).
- The KSPH has a transparent and flexible administrative and financial management capacity to conduct extensive public health and infectious disease control activities in active collaboration with CDC and the MOH.

The KSPH is uniquely situated to operate as an independent, third party health institution that maintains a strategic separation administratively and organizationally from the official governmental structures.

### C. Funding

Approximately \$500,000 is available in FY 2003 to fund this award. It is expected that the award will begin on or before September 15, 2003, and will be made for a 12-month budget period within a project period of up to five years. Funding estimate may change.

[Program Announcement 03073]

#### Strengthen Tamil Nadu State AIDS Control Society Response to HIV/AIDS Chennai, India; Notice of Intent To Fund Single Eligibility Award

##### A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2003 funds for a cooperative agreement program for the Tamil Nadu State AIDS Control Society (TNSACS). The Catalog of Federal Domestic Assistance number for this program is 93.941.

##### B. Eligible Applicant

Assistance will be provided only to TNSACS. The State Government possesses the capability and institutional capacity to collaborate with the CDC Global AIDS Program (GAP), India in support of activities in the public sector in a way that no other agency or organization in the State of Tamil Nadu is qualified to do.

The State Government and the National AIDS Control Organization (NACO) are currently implementing their HIV/AIDS activities and programs

through the TNSACS, which is registered under the Government of India Societies Act. TNSACS is recognized at the national level as the policy and planning organization for all programs related to HIV throughout the state. TNSACS is charged with carrying out and implementing the National and State Government policies on HIV/AIDS.

TNSACS has the infrastructure, including systems to manage funds, as well as the human resources; the supervisory experience; and the expertise needed to track funds.

TNSACS, the State of Tamil Nadu, and CDC GAP have worked collaboratively in developing a plan to build infrastructure and provide training around information systems and a quality assured laboratory at the Chennai-based Government Hospital for Thoracic Medicine (GHTM) since the CDC GAP established activities in Tamil Nadu in 2001. The TNSACS is uniquely qualified to continue to support the GHTM activities initiated by CDC GAP. It is also the most appropriate organization to support the replication and expansion of CDC GAP activities into other areas of the state.

##### C. Funding

Approximately \$50,000 is available in FY 2003 to fund this award. It is expected that the award will begin on or before September 15, 2003, and will be made for a 12-month budget period within a project period of up to five years. Funding estimate may change.

##### D. Where To Obtain Additional Information

For general comments or questions about this announcement, contact: Technical Information Management, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341-4146, Telephone: 770-488-2700.

For technical questions about this program, contact: Nancy Hedemark Nay, MPH, Associate Director for Operations, Global AIDS Program, C/o U.S. Consulate, 220 Mount Road, Chennai, 600 006, India, Telephone: 91-44-2811-2000. e-mail address: [nhn1@cdc.gov](mailto:nhn1@cdc.gov).

Dated: August 4, 2003.

### Centers for Disease Control and Prevention

[Program Announcement 03126]

#### Landmine Survivor Peer-Support Networks in Mine-Affected Countries; Notice of Intent To Fund Single Eligibility Award

##### A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2003 funds for a cooperative program to continue the development, implementation, and evaluation of landmine survivor peer-support networks in the landmine-affected countries of Bosnia, Jordan, El Salvador, Ethiopia, Mozambique and Viet Nam. The Catalog of Federal Domestic Assistance number for this program is 93.283.

##### B. Eligible Applicant

Assistance will be provided only to the Landmine Survivors Network (LSN), the recipient of funding under the original announcement. The CDC cooperative agreement with LSN was required by FY2000 congressional conference language. The sponsors of the language specifically directed CDC to directly support LSN's project. Staffers from the offices of several sponsors have, on a regular basis, followed up on the progress of the cooperative agreement.

In addition to this congressional intent, LSN is singularly qualified to conduct activities under this program, because it:

1. Designed, started and administers these networks.
2. Has existing staff, both domestically and internationally, trained in public health and social sciences related to landmine survivors.
3. Has a significant global presence, allowing it to coordinate with local governments and international organizations in the implementation of projects related to landmine survivors.
4. Is the primary non-governmental organization (NGO) working with landmine survivor issues.
5. Has an existing field presence including the only peer-support networks in each of the countries identified in this announcement.

It would be financially, logistically, and programmatically difficult for an organization other than LSN to continue this program.
