DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: Bureau of Economic Analysis (BEA), Commerce.

Title: Annual Survey of U.S. Direct Investment Abroad.

Form Number(s): BE-11.

Agency Approval Number: 0608-0053.

Type of Request: Extension of a currently approved collection without any change in the substance or in the method of collection.

Burden: 118,400 hours.

Number of Respondents: 1,600.

Avg Hours Per Response: 74 hours.

Needs and Uses: The survey provides a variety of measures of the overall operations of nonbank U.S. parent companies and their nonbank foreign affiliates, including total assets, sales, net income, employment and employee compensation, taxes, research and development expenditures, and exports and imports of goods. The survey is a cut-off sample survey that covers all foreign affiliates (and their U.S. parent companies) above a size-exemption level. The sample data are used to derive universe estimates in nonbenchmark years by extrapolating forward similar data reported in the BE-10, Benchmark Survey of U.S. Direct Investment Abroad, which is taken once every five years. The data are needed to measure the size and economic significance of direct investment abroad, measure changes in such investment, and assess its impact on the U.S. and foreign economies.

The data from the survey are primarily intended as general purpose statistics. They should be readily available to answer any number of research and policy questions related to U.S. direct investment abroad. Policy areas of particular and lasting interest are trade in goods and services, employment and employee compensation, taxes, and technology.

Affected Public: Businesses or other for-profit institutions.

Frequency: Annual.

Respondent's Obligation: Mandatory.

Legal Authority: Title 22 U.S.C., sections 3101-3108, as amended.

OMB Desk Officer: Paul Bugg, (202) 395-3093.

You may obtain copies of the above information collection proposal by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, Office of the Chief Information Officer, Department of Commerce, Room 6625, 14th Street and Constitution Avenue, NW., Washington, DC 20230, or via the Internet at dHynek@doc.gov, ((202) 482-0266).

Agency: Bureau of Economic Analysis (BEA), Commerce.

Title: Direct Transactions of U.S. Reporter with Foreign Affiliate.

Form Number(s): BE-577.

Agency Approval Number: 0608-0004.

Type of Request: Extension of a currently approved collection without any change in the substance or in the method of collection.

Burden: 67,500 hours.

Number of Respondents: 13,500 respondents, 4 responses each per year.

Avg Hours Per Response: 1¼ hours.

Needs and Uses: The survey obtains quarterly sample data on transactions and positions between U.S.-owned foreign business enterprises and their U.S. parent companies. The survey is a cut-off sample survey that covers all foreign affiliates above a size-exemption level. The sample data are used to derive universe estimates in nonbenchmark years by extrapolating forward similar data reported in the BE-10, Benchmark Survey of U.S. Direct Investment Abroad, which is taken

every five years. The data are used in the preparation of the U.S. international transactions accounts, the input-output accounts, the national income and product accounts, and the international investment position of the United States. The data are needed to measure the size and economic significance of direct investment abroad, measure changes in such investment, and assess its impact on the U.S. and foreign economies.

The data from the survey are primarily intended as general purpose statistics. They should be readily available to answer any number of research and policy questions related to U.S. direct investment abroad. In addition, the data are needed by Government agencies that are responsible for the conduct of U.S. international economic policy. Such policy must be based on an informed analysis of current information on the transactions of U.S. parent companies and their foreign affiliates. The data are particularly valuable to these agencies because they are collected, analyzed, and published within 65 days after the end of each calendar quarter, allowing data users to see the consequences of changes in economic conditions very soon after they occur.

Affected Public: Businesses or other for-profit institutions.

Frequency: Quarterly.

Respondent's Obligation: Mandatory.

Legal Authority: Title 22 U.S.C., sections 3101–3108, as amended.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau plans to expand the currently approved Annual Trade Survey (ATS) to include manufacturers' sales branches and offices (MSBO). The expanded survey will include a selected sample of firms operating establishments selling goods that they manufacture in the United States. Data will be collected annually on sales, inventories, and operating expenses. Initially, we will request two years of data for all data items. Afterwards, we will request one year of sales and operating expenses data and two years of inventory data. The expanded survey will be mailed to a sample of firms on a company basis to reduce respondent burden. In order to set up reporting arrangements for companies we will contact them in person, as well as by phone, and by mail. We will request data for calendar year and year-end inventories. Currently two separate forms are used to collect merchant data for ATS. Two additional report forms will also be used to collect MSBO data. Two forms are needed to collect both

merchant and MSBO data to accommodate both large and small firms. The mailings will be conducted in January following the survey year requested. Respondents will have thirty days to complete the report form before a follow-up form is sent. Later, as needed, an additional follow-up form will be sent, and a telephone follow-up will be conducted.

This expansion of the ATS survey is being conducted to obtain a missing component of wholesale data. The current ATS collects data for merchant wholesalers but does not obtain data for MSBOs. The Bureau of Economic Analysis (BEA) has made repeated requests for these data that they consider vital to accurately measuring sales and inventories for wholesale trade, important inputs to BEA's preparation of National Income and Product accounts and their annual input-output tables. The expanded ATS will provide annual data for almost 90 percent of the sales from the wholesale sector and over 99 percent of the inventories, as compared to about 58 percent of sales and 85 percent of inventories in the present ATS program. Data will be published at the United States summary level for selected wholesale industries. Further expansion to include all of wholesale trade is planned for the data year 2007 after the next sample revision.

II. Method of Collection

We will collect this information by mail, fax, and telephone follow-up.
