BILLING CODE 5001-08-M

DEPARTMENT OF DEFENSE**Office of the Secretary****Threat Reduction Advisory Committee**

AGENCY: Department of Defense, Office of the Under Secretary of Defense (Acquisition, Technology and Logistics).

ACTION: Notice of Advisory Committee Meeting.

SUMMARY: The Threat Reduction Advisory Committee will meet in closed session on Thursday, October 9, 2003, at the Institute for Defense Analyses (IDA), and on Friday, October 10, 2003 in the Pentagon, Washington, DC.

The mission of the Committee is to advise the Under Secretary of Defense (Acquisition, Technology and Logistics) on counterproliferation, chemical and biological defense, transformation of the nuclear weapons stockpile, and other

matters related to the Defense Threat Reduction Agency's mission.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Pub. L. 92-463, as amended (5 U.S.C. Appendix II), it has been determined that this Committee meeting concerns matters listed in 5 U.S.C. 552b(c)(1), and that accordingly the meeting will be closed to the public.

DATES: Thursday, October 9, 2003, (8 a.m. to 4 p.m.) and Friday, October 10, 2003, (8 a.m. to 9:30 a.m.).

ADDRESSES: Institute for Defense Analyses, (boardroom), 4850 Mark Center Drive, Alexandria, Virginia and the USD (AT&L) Conference Room (3D1019), the Pentagon, Washington, DC.

FOR FURTHER INFORMATION CONTACT:

Contact Lieutenant Colonel Don Culp, USAF, Defense Threat Reduction Agency/AST, 8725 John J. Kingman Road MS 6201, Fort Belvoir, VA 22060-6201. Phone: (703) 767-5717.

August 11, 2003.

Patricia L. Toppings,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3710-08-M

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Draft Environmental Impact Statement—Supplement 1.0 for Lower Mud River at Milton, West Virginia, Milton Local Protection Project

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: In accordance with the requirements of the National Environmental Policy Act (NEPA), the U.S. Army Corps of Engineers (USACE), Huntington District has prepared this Limited Reevaluation Report and

Environmental Impact Statement—Supplement 1.0 (LRR/SEIS) in response to Section 580 of the Water Resources Development Act of 1996 (WRDA) which authorizes the USACE to “* * * conduct a limited reevaluation of the watershed plan and environmental impact statement prepared for the Lower Mud River, Milton, W.V., by the Natural Resources Conservation Service, pursuant to the Watershed Protection and Flood Prevention Act (16 U.S.C. 1001 *et seq.*) and may carry out the project,” and Section 340 of the WRDA of 2000, which reads: “Modifies Lower Mud River project at Milton authority (Section 580 of WRDA of 1996) to direct the COE to construct the project as selected in the COE reevaluation report.” This report focuses on providing flood protection for the City of Milton, Cabell County, WV against flooding such as occurred in December 1978, March 1997, and February 2003. In accordance with the requirements of NEPA, the potential impacts to the natural, physical, and human environment associated with proposed flood damage reduction measures for the City of Milton (Milton Local Protection Project) are evaluated.

The flood of record for the City of Milton occurred in March 1997. The flood had an estimated return frequency of 3.7% chance (27-year) flood event, causing over \$23 million dollars in damage (1997 price level). The need for local flood protection at Milton is well documented as flooding has played a significant role in the town's history. Milton lies approximately 19 miles upstream from the confluence of the Mud River with the Guyandotte River. Within the town, approximately 736 structures (both residential and nonresidential) stand within the 100-year floodplain and potential annual damages for this reach of the Mud River are estimated to be \$3.58 million (2003 dollars).

In addition to evaluating the flood damage reduction measures for Milton and the surrounding area, the natural resources that will be impacted by these measures have been examined. Potential significant impacts from the final levee alternatives include those to aesthetics, aquatic and terrestrial resources, and socioeconomic resources. Social impacts associated with construction of a project include principally traffic and noise impacts, economic gains and losses, impacts to community cohesion due to acquisition of residences and businesses to construct a project, and aesthetic impacts from the visual prominence of the levee in the community. The document includes a detailed description of the existing
