BILLING CODE 6210-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Meeting of the President's Council on Bioethics on September 4-5, 2003

AGENCY: The President's Council on Bioethics, HHS.

ACTION: Notice.

SUMMARY: The President's Council on Bioethics will hold its thirteenth meeting, at which, among other things, it will hear and discuss presentations on the ethics and implementation of embryonic stem cell research funding, including testimony by Elias Zerhouni, MD, director, U.S. National Institutes of Health (NIH), Mark B. McClellan, MD, commissioner, U.S. Food and Drug Administration (FDA), and several interested parties from the private sector. The Council will also continue discussion of its "beyond therapy" and "biotechnology and public policy" projects. Subjects discussed at past Council meetings (and potentially touched on at this meeting) include: human cloning, embryo research, lifespan-extension research, organ procurement for transplantation, and extra-therapeutic powers to enhance or improve human mood, memory, or muscles. The Council may also discuss issues surrounding the regulation of assisted reproduction and reproductive genetics (including IVF, ICSI, PGD; sex selection, inheritable genetic modification; and the patentability of human genes, tissues, and organisms).

DATES: The meeting will take place Thursday, September 4, 2003, from 9 a.m. to 5:15 pm ET; and Friday,

September 5, 2003, from 8:30 am to 12:30 pm ET.

ADDRESSES: Hotel Wyndham Washington DC, 1400 M Street NW., Washington, DC 20005.

Public Comments: The meeting agenda will be posted at <http://www.bioethics.gov>. Members of the public may comment, either in person or in writing. A period of time will be set aside during the meeting to receive comments from the public, beginning at 11:30 am, on Friday, September 5. Comments will be limited to no more than five minutes per speaker or organization. Please inform Ms. Diane Gianelli, Director of Communications, in advance of your intention to make a public statement, and please give her your name, affiliation, and a brief description of the topic or nature of your comments. To submit a written statement, mail or e-mail it to Ms. Gianelli at one of the addresses given below.

FOR FURTHER INFORMATION CONTACT: Ms. Diane Gianelli, Director of Communications, The President's Council on Bioethics, Suite 700, 1801 Pennsylvania Avenue, Washington, DC 20006. Telephone: 202/296-4669. e-mail: info@bioethics.gov. Web site: <http://www.bioethics.gov>.

Dated: August 11, 2003.

Dean Clancy,

Executive Director, The President's Council on Bioethics.

Agency for Toxic Substances and Disease

Board of Scientific Counselors, Agency for Toxic Substances and Disease Registry: Notice of Charter Renewal

This gives notice under the Federal Advisory Committee Act (Public Law 92-463) of October 6, 1972, that the Board of Scientific Counselors, Agency for Toxic Substances and Disease Registry, of the Department of Health and Human Services, has been renewed for a 2-year period extending through July 28, 2005.

For further information, contact Robert Spengler, Sc.D., Executive Secretary, Board of Scientific Counselors, Agency for Toxic Substances and Disease Registry, 1600 Clifton Road, NE., M/S E-28, Atlanta, Georgia 30333, telephone 404/498-0003 or fax 404/498-0081.

The Director, Management and Analysis and Services office has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Dated: August 18, 2003.

Diane C. Allen,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

Centers for Disease Control and Prevention

[60Day-03-111]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 498-1210.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Anne O'Connor, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project: Prevention Research Center Information System—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

The Prevention Research Center Information System will collect in electronic format: (a) Data needed to measure progress toward, or achievement of, newly developed performance indicators, (b) information on Prevention Research Centers that is currently being reported in hard-copy documents, and (c) data on research projects that are currently submitted electronically via a spreadsheet.

In 1984, Congress passed Public Law 98–551 directing the Department of Health and Human Services (DHHS) to establish Centers for Research and Development of Health Promotion and Disease Prevention. In 1986, CDC was given lead responsibility for this program, referred to now as the Prevention Research Centers program. Currently, CDC provides funding to 28

Prevention Research Centers (PRCs) selected through competitive peer review process and managed as CDC cooperative agreements. Awards are made for five (5) years and may be renewed through a competitive RFA process. PRCs (which can be housed in a school of public health, medicine, or osteopathy) conduct multi-disciplinary, community-based, outcomes-oriented research on a broad range of topics related to health promotion and disease prevention.

In spring 2003, CDC published RFA #04003 (FY20004–20009) for the Prevention Research Centers program. The RFA introduces a set of performance indicators that have developed collaboratively with the PRCs and other program stakeholders and are consistent with federal requirements

that all agencies, in response to the Government Performance and Results Act of 1993, prepare performance plans and collect program-specific performance measures.

An Internet-based information system will allow CDC to monitor, and report on, PRC activities more efficiently. Data reported to CDC through the PRC information system will be used by CDC to identify training and technical assistance needs, monitor compliance with cooperative agreement requirements, evaluate the progress made in achieving center-specific goals, and obtain information needed to respond to Congressional and other inquiries regarding program activities and effectiveness.

There are no costs to respondents.

Respondents	No. of respondents	No. of responses per respondent	Average burden per response (in hrs.)	Total burden (in hrs.)
Clerical	28	2	164/60	153
Directors	28	2	90/60	84
Total				237

Dated: August 18, 2003.

Nancy E. Cheal,
Acting Associate Director for Policy, Planning and Evaluation, Centers for Disease Control and Prevention.

Proposed Data Collections Submitted for Public Comment and Recommendations

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 498–1210. Send written comments to CDC, Desk Officer, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503 or by fax to (202) 395–6974. Written comments should be received within 30 days of this notice.

Proposed Project

School Associated Violent Death Surveillance System—New—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

The Division of Violence Prevention (DVP), National Center for Injury Prevention and Control (NCIPC) proposes to develop a system for the surveillance of school-associated homicides and suicides. The system will rely on existing public records and interviews with law enforcement officials and school officials. The purpose of the system is to (1) estimate the rate of school-associated violent death in the United States and (2) identify common features of school-associated violent deaths. The proposed system will contribute to the understanding of fatal violence associated with schools, guide further research in the area, and help direct ongoing and future prevention programs.

Violence is the leading cause of death among young people, and increasingly recognized as an important public health and social issue. In 1998, over 3,500 school aged children (5 to 18 years old) in the United States died violent deaths due to suicide, homicide, and unintentional firearm injuries. The vast majority of these fatal injuries were not school associated. However,

whenever a homicide or suicide occurs in or around school, it becomes a matter of particularly intense public interest and concern. NCIPC conducted the first scientific study of school-associated violent deaths during the 1992–99 academic years to establish the true extent of this highly visible problem.

Despite the important role of schools as a setting for violence research and prevention interventions, relatively little scientific or systematic work has been done to describe the nature and level of fatal violence associated with schools. Until NCIPC conducted the first nationwide investigation of violent deaths associated with schools, public health and education officials had to rely on limited local studies and estimated numbers to describe the extent of school-associated violent death.

The proposed system will draw cases from the entire United States in attempting to capture all cases of school-associated violent deaths that have occurred. Investigators will review public records and published press reports concerning each school-associated violent death. For each identified case, investigators will also interview an investigating law enforcement official (defined as a police officer, police chief, or district attorney), and a school official (defined as a school principal, school superintendent, school counselor, school teacher, or school
