[Docket No. AO-368-A32, AO-271-A37; DA-03-04]

Milk in the Pacific Northwest and Arizona-Las Vegas Marketing Areas; Notice of Hearing on Proposed Amendments to Tentative Marketing Agreements and Orders; Correction

7 CFR Part	Marketing area	AO Nos.
1124	Pacific Northwest	AO-368-A32
1131	Arizona-Las Vegas	AO-271-A37

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule; correction.

SUMMARY: The Agricultural Marketing Service is correcting the proposed rule that appeared in the **Federal Register** of August 6, 2003 (68 FR 46505), which gave notice of a public hearing to be held to consider proposals to amend the producer-handler provisions of the Arizona-Las Vegas and Pacific Northwest orders. The document was published with errors in the regulatory text regarding the amendments to the producer-handler definitions in § 1124.10 and § 1131.10. This docket corrects these errors.

FOR FURTHER INFORMATION CONTACT: Jack Rower, Marketing Specialist, Order Formulation and Enforcement Branch, USDA/AMS/Dairy Programs, STOP 0231-Room 2971, 1400 Independence Avenue, Washington, DC 20250-0231, (202) 720-2357, e-mail address jack.rower@usda.gov.

SUPPLEMENTARY INFORMATION: Background notice of hearing was published in the **Federal Register** on August 6, 2003 (68 FR 46505), containing 5 proposals to be considered at a public hearing scheduled to begin

on September 23, 2003. As published, errors contained in proposals 1 and 3 are misleading and are in need of clarification.

1. On page 46506, third column, § 1124.10, paragraph (a)(3) introductory text is corrected to read as follows:

Cotton Research and Promotion Program: Section 610 Review

AGENCY: Agricultural Marketing Service.

ACTION: Notice of regulatory review and request for comments.

SUMMARY: This document announces the Agricultural Marketing Service's (AMS) review of the Cotton Research and Promotion Program (conducted under the Cotton Research and Promotion Order), under the criteria contained in Section 610 of the Regulatory Flexibility Act (RFA).

DATES: Comments must be received by October 27, 2003.

ADDRESSES: Interested persons are invited to submit written comments concerning the notice to Whitney Rick, Chief, Research and Promotion Staff, Cotton Program, Agricultural Marketing Service, USDA, Stop 0224, 1400 Independence Avenue, SW., Washington, DC 20250. Comments should be submitted in triplicate and will be made available for public inspection at the above address during regular business hours. Comments may also be submitted electronically to: cottoncomments@usda.gov. All comments should reference the docket number and the date and page number of this issue of the **Federal Register**. A copy of this notice may be found at: <http://www.ams.usda.gov/cotton/rulemaking.htm>.

FOR FURTHER INFORMATION CONTACT: Whitney Rick, Chief, Research and Promotion Staff, Cotton Program, AMS, USDA, Stop 0224, 1400 Independence Avenue, SW., Washington, DC 20250-0224, telephone (202) 720-2259, facsimile (202) 690-1718, or e-mail at whitney.rick@usda.gov.

SUPPLEMENTARY INFORMATION: The Cotton Research and Promotion Act of 1966 (7 U.S.C. 2101 *et seq.*) authorized a national Cotton Research and Promotion Program which is industry operated and funded, with oversight by USDA. The program's objective is to enable cotton growers and importers to establish, finance and carry out a coordinated program of research and promotion to improve the competitive position of, and to expand markets for cotton.

The program became effective on December 31, 1966, when the Cotton Research and Promotion Order (7 CFR Part 1205) was issued. Assessments began with the 1967 cotton crop. The Order was amended and a supplemental assessment initiated, not to exceed one percent of the value of each bale,

effective January 26, 1977. The current assessment is \$1 per bale plus five-tenths of one percent of the value of the bale and is collected on every bale of cotton harvested and ginned in the U.S. and on imported raw cotton and on the non-U.S. cotton content of imported textile and apparel products.

Assessments under this program are used to fund promotional campaigns and to conduct research in the areas of U.S. marketing, international marketing, cotton production and processing, and textile research and implementation.

The program is administered by the Cotton Board, which is composed of representatives of cotton producers and importers selected by the Secretary of Agriculture from nominations submitted by eligible producer and importer organizations. The Cotton Board has thirty-two members, thirty-two alternate members and one consumer advisor. All members and alternate members serve terms of three years.

AMS published in the **Federal Register** (64 FR 8014; February 18, 1999), its plan to review certain regulations, including the Cotton Research and Promotion Program (conducted under the Cotton Research and Promotion Order), under criteria contained in Section 610 of the Regulatory Flexibility Act (RFA; 5 U.S.C. 601–612). The plan was updated in the **Federal Register** on August 14, 2003 (68 FR 48574). Because many AMS regulations impact small entities, AMS decided, as a matter of policy, to review certain regulations which, although they may not meet the threshold requirement under section 610 of the RFA, warrant review. Accordingly, this notice and request for comments is made for the Cotton Research and Promotion Order.

The purpose of the review is to determine whether the Order should be continued without change, amended, or rescinded (consistent with the objects of the Cotton Research and Promotion Act of 1966) to minimize the impacts on small entities. AMS will consider the continued need for the order; the nature of complaints or comments received from the public concerning the order; the complexity of the order; the extent to which the order overlaps, duplicates, or conflicts with other Federal rules, and, to the extent feasible, with state and local regulations; and the length of time since the order has been evaluated or the degree to which technology, economic conditions, or other factors have changed in the area affected by the order.

Written comments, views, opinions and other information regarding the order's impact on small business are invited.

Dated: August 20, 2003.

A.J. Yates,

Administrator, Agricultural Marketing Service.

14 CFR Part 25

[Docket No. NM259; Notice No. 25–03–06–SC]

Special Conditions: Bombardier Aerospace Model BD–100–1A10; Side-Facing Single Occupancy Seats

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed special conditions.

SUMMARY: This notice proposes special conditions for the Bombardier Aerospace Model BD–100–1A10 airplane. This airplane as modified by Learjet Inc. (Subsidiary of Bombardier Aerospace) will have novel or unusual design features associated with side-facing single-occupant seats. The applicable airworthiness regulations do not contain adequate or appropriate safety standards for these design features. These proposed special conditions contain the additional safety standards that the Administrator considers necessary to establish a level of safety equivalent to that established by the existing airworthiness standards.

DATES: Comments must be received on or before September 25, 2003.

ADDRESSES: Comments on this proposal may be mailed in duplicate to: Federal Aviation Administration, Transport Airplane Directorate, Attn: Rules Docket (ANM–113), Docket No. NM259, 1601 Lind Avenue SW., Renton, Washington, 98055–4056; or delivered in duplicate to the Transport Airplane Directorate at the above address. Comments must be marked: Docket No. NM259. Comments may be inspected in the Rules Docket weekdays, except Federal holidays, between 7:30 a.m. and 4 p.m.

FOR FURTHER INFORMATION CONTACT: Michael Thompson, FAA, Airframe/Cabin Safety Branch, ANM–115, Transport Airplane Directorate, Aircraft Certification Service, 1601 Lind Avenue SW., Renton, Washington, 98055–4056; telephone (425) 227–1157; facsimile (425) 227–1149.

SUPPLEMENTARY INFORMATION:

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. The most helpful comments reference a specific portion of the special conditions, explain the reason for any recommended change, and include supporting data. We ask that you send us two copies of written comments.

We will file in the docket all comments we receive, as well as a report summarizing each substantive public contact with FAA personnel concerning these special conditions. The docket is available for public inspection before and after the comment closing date. If you wish to review the docket in person, go to the address in the **ADDRESSES** section of this preamble between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

We will consider all comments we receive on or before the closing date for comments. We will consider comments filed late if it is possible to do so without incurring expense or delay. We may change these special conditions in light of the comments we receive.

If you want the FAA to acknowledge receipt of your comments on this proposal, include with your comments a pre-addressed, stamped postcard on which the docket number appears. We will stamp the date on the postcard and mail it back to you.

Background

On April 11, 2003, Learjet Inc. (subsidiary of Bombardier Aerospace) applied for a supplemental type certificate for installation of single-occupant side-facing seats on Bombardier BD–100–1A10 airplanes. Bombardier Aerospace has requested that special conditions be issued for these seats and that the special conditions be listed on the type certificate data sheet of the BD–100–1A10 airplane. The Model BD–100–1A10 is a twin engine, turboprop powered, transport category airplane which is currently the subject of a type certification program.

Section 25.785(a) at Amendment 25–64 requires that each seat “at each station designated as occupiable during takeoff and landing must be designed so that persons occupying these seats will not suffer serious injury in an emergency landing as a result of the inertia forces specified in §§ 25.561 and 25.562.” Additionally, § 25.562 requires dynamic testing of all seats that are occupied during takeoff and landing. However, side-facing seats are considered a novel design for transport
