SUPPLEMENTARY INFORMATION:

Title: 30 CFR Part 256, Leasing of Sulphur or Oil and Gas in the Outer Continental Shelf.

OMB Control Number: 1010-0006.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior (Secretary) to prescribe rules and regulations to administer leasing of the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition. The Energy Policy and Conservation Act of 1975 (EPCA) prohibits certain lease bidding arrangements (42 U.S.C. 6213 (c)).

The Independent Offices Appropriations Act of 1952 (IOAA), 31 U.S.C. 9701, authorizes Federal agencies to recover the full cost of services that provide special benefits. Under the Department of the Interior's (DOI) policy implementing the IOAA, MMS is required to charge the full cost for services that provide special benefits or privileges to an identifiable non-Federal recipient above and beyond those that accrue to the public at large. Instruments of transfer of a lease or interest are subject to cost recovery, and MMS regulations specify filing fees for these transfer applications.

The MMS uses the information required by 30 CFR part 256 to determine if applicants are qualified to hold leases in the OCS. Specifically, MMS uses the information to:

- Verify the qualifications of a bidder on an OCS lease sale. Once the required information is filed with MMS, a qualification number is assigned to the

bidder so that duplicate information is not required on subsequent filings.

- Develop the semiannual List of Restricted Joint Bidders. This identifies parties ineligible to bid jointly with each other on OCS lease sales, under limitations established by the EPCA.

- Ensure the qualification of assignees. Once a lease is awarded, the transfer of a lessee's interest to another qualified party must be approved by an MMS regional director.

- Obtain information and nominations on oil and gas leasing, exploration, and development and production. Early planning and consultation ensure that all interests and concerns are communicated to us for future decisions in the leasing process.

- Document that a leasehold or geographical subdivision has been surrendered by the record title holder.

- Verify that lessees have adequate bonding coverage. Respondents must submit their bonds certification forms: "Form MMS-2028, Outer Continental Shelf Mineral Lessee's and Operator's Bond," and Form MMS-2028A, "Outer Continental Shelf Mineral Lessee's and Operator's Supplemental Plugging & Abandonment Bond." The MMS uses these documents to hold the surety liable for the obligations and liability of the principal/lessee or operator.

We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2) and under regulations at 30 CFR parts 250, 251, and 252. No items of a sensitive nature are collected. Responses are mandatory or required to obtain or retain a benefit.

Frequency: The frequency of reporting is annual and on occasion.

Estimated Number and Description of Respondents: Approximately 130 Federal OCS oil and gas or sulphur lessees, as well as the affected States and local governments.

Estimated Reporting and Recordkeeping "Hour" Burden: The currently approved annual reporting burden for this collection is 16,329 hours. Estimated Annual Reporting and Recordkeeping "Non-Hour Cost"

Burden: The currently approved "non-hour cost" burden for this information collection is a total of \$414,000. This cost burden is for filing fees associated with submitting requests for approval of instruments of transfer (\$185 per application) or to file non-required documents for record purposes (\$25 per filing).

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * * "

Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Agencies must also estimate the "non-hour cost" burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to

estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information, monitoring, and record storage facilities. You should not include estimates for equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Policy: Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. MMS will honor this request to the extent allowable by law; however, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.
