

The Corporation expects to make awards to applicants proposing innovative service-learning initiatives in two program areas of high importance to the Corporation: (1) *Homeland Security* through creation of programs that engage schools, students, their families, with community-based organizations in activities to minimize the damage or speed the recovery from disasters and emergencies (Schools often serve as the locus of a community's response to disasters by storing supplies and providing shelter and housing for victims and responders to any local emergency); (2) *Bridging the Digital Divide* through programs that reduce inequality in technological literacy, access to technology, or address underutilization of available technology and its applications. In both program areas the Corporation strongly encourages incorporation of adult, especially senior, volunteers.

Applicants may also address both issues areas within a single program design. **DATES:** *Teleconference Dates:* The first three calls, focused on developing high-quality programs, will take place on Wednesday, October 29, 2003, from 2–3:30 p.m. e.s.t., on Thursday, October 30, 2003, from 4–5:30 p.m. e.s.t., and on Tuesday, November 4, 2003, from 1–2:30 p.m. e.s.t. DATES: Interested persons are invited to submit comments on or before December 1, 2003.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 82, 85, 86, 97, 98, and 99.

SUPPLEMENTARY INFORMATION: This program is a Special Focus Competition to support projects addressing a particular problem area or improvement approach in postsecondary education. The competition also includes an invitational priority to encourage proposals designed to support the formation of educational consortia of American, Canadian, and Mexican institutions of higher education to encourage cooperation in the coordination of curricula, the exchange of students and the opening of educational opportunities throughout North America. The invitational priority is issued in cooperation with Canada and Mexico. Canadian and Mexican institutions of higher education participating in any consortium proposal responding to the invitational priority may apply, respectively, to Human Resources Development Canada and the Mexican Department of Public Education for additional funding under separate Canadian and Mexican competitions.

Priority

We are particularly interested in applications that meet the following invitational priority.

Under 34 CFR 75.105(c)(1) we do not give an application that meets the invitational priority a competitive or absolute preference over other applications.

Invitational Priority: Projects that support consortia of institutions of higher education that promote institutional cooperation and student mobility among the United States, Canada, and Mexico.

Aligning Your Proposal to the Review Criteria

The success of this Special Focus Competition depends upon (1) the extent to which funded projects are being replicated—i.e., adopted or adapted by others; and (2) the manner in which projects are being institutionalized and continued after grant funding. These two results

constitute FIPSE's indicators of the success of our program.

If funded, you will be asked to collect and report data from your project on steps taken toward these goals. Consequently, applicants are advised to include these two outcomes in conceptualizing the design, implementation, and evaluation of the proposed project. Consideration of FIPSE's two performance outcomes is an important part of many of the review criteria discussed below. Thus, it is important to the success of your application that you include these objectives. Their measure should be a part of the project evaluation plan, along with measures of objectives specific to your project.

Methods for Applying Selection Criteria

We give equal weight to the listed criteria. Within each of the criteria, we give equal weight to each of the factors.

Selection Criteria

In evaluating applications for grants under this program competition, we use selection criteria chosen from those listed in 34 CFR 75.210 of EDGAR.

Application Procedures

Note: Some of the procedures in these instructions for transmitting applications differ from those in the Education Department General Administrative Regulations (EDGAR) (34 CFR 75.102). Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed regulations. However, these amendments make procedural changes only and do not establish new substantive policy. Therefore, under 5 U.S.C. 553(b)(A), the Secretary has determined that proposed rulemaking is not required.

Pilot Project for Electronic Submission of Applications

In FY 2004, the Department is continuing to expand its pilot project for electronic submission of applications to include additional formula grant programs and additional discretionary grant competitions. The Program for North American Mobility in Higher Education [84.116N] is one of the programs included in the pilot project. If you are an applicant under the Program for North American Mobility in Higher Education, you may submit your application to us in either electronic or paper format.

The pilot project involves the use of the Electronic Grant Application System (e-Application). Users of e-Application will be entering data on-line while completing their applications. You may not e-mail a soft copy of a grant application to us. If you participate in
