Basic Energy Sciences Advisory Committee

AGENCY: Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces a meeting of the Basic Energy Sciences Advisory Committee (BESAC). Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770) requires that public notice of these meetings be announced in the **Federal Register**.

DATES: Monday, October 20, 2003, 8:30 a.m. to 5 p.m., and Tuesday, October 21, 2003, 8:30 a.m. to 12 p.m.

ADDRESSES: Doubletree Hotel and Executive Meeting Center, 1750 Rockville Pike, Rockville, MD 20852.

FOR FURTHER INFORMATION CONTACT: Sharon Long; Office of Basic Energy Sciences; U.S. Department of Energy; 19901 Germantown Road; Germantown, MD 20874–1290; Telephone: (301) 903–5565.

SUPPLEMENTARY INFORMATION:

Purpose of the Meeting: The purpose of this meeting is to provide advice and guidance with respect to the basic energy sciences research program.

Tentative Agenda: Agenda will include discussions of the following: Monday, October 20, 2003.

- News from the Office of Science.
- News from the Office of Basic

Energy Sciences.

- Basic Energy Sciences Hydrogen Workshop Follow-up and Related Activities.

- Summary of the Chemical Sciences, Geosciences, and Biosciences Division.
- Update of the Linac Coherent Light Source.

- Update and Status of the Spallation Neutron Source.

- BESAC Charges and Directions,

Tuesday, October 21, 2003.

- Review of Recent DOE and National Studies on High-end Computing.
- BESAC Discussion.

Public Participation: The meeting is open to the public. If you would like to

file a written statement with the Committee, you may do so either before or after the meeting. If you would like to make oral statements regarding any of the items on the agenda, you should contact Sharon Long at 301–903–6594 (fax) or sharon.long@science.doe.gov (e-mail). You must make your request for an oral statement at least 5 business days prior to the meeting. Reasonable provision will be made to include the scheduled oral statements on the agenda. The Chairperson of the Committee will conduct the meeting to facilitate the orderly conduct of business. Public comment will follow the 10-minute rule.

DEPARTMENT OF ENERGY

[FE Docket No. PP–285]

Application for Presidential Permit; Sharyland Utilities, L.P.

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: Sharyland Utilities, L.P. (Sharyland) has applied for a Presidential permit to construct, connect, operate, and maintain a single-circuit, 138,000-volt (138-kV) alternating current electric transmission line across the U.S. border with Mexico.

DATES: Comments, protests, or requests to intervene must be submitted on or before November 3, 2003.

ADDRESSES: Comments, protests, or requests to intervene should be addressed as follows: Office of Coal & Power Import and Export (FE–27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585–0350.

FOR FURTHER INFORMATION CONTACT: Ellen Russell (Program Office) 202–586–9624 or Michael T. Skinker (Program Attorney) 202–586–6667.

SUPPLEMENTARY INFORMATION: The construction, operation, maintenance, and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of a Presidential permit issued pursuant to Executive Order (EO) 10485, as amended by EO 12038.

On September 11, 2003, Sharyland filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) for a Presidential permit. Sharyland is a transmission and distribution service provider operating within a 6,000-acre master-planned community called Sharyland Plantation, situated between the cities of McAllen and Mission, Texas, along the border between the United States and Mexico.

Sharyland proposes to develop a single-circuit 138-kV transmission line in two phases. In the first phase Sharyland would tap an existing 138-kV transmission facility also owned by Sharyland, construct a 150-megawatt

(MW) back-to-back alternating current/direct current/alternating current converter station in the immediate vicinity of the tap, and construct approximately one mile of 138-kV transmission line to the Mexico-U.S. border near the southern boundary of the City of Mission, Texas. At the border the facilities would interconnect with similar facilities owned by Comision Federal de Electricidad (CFE), the national electric utility of Mexico, and continue an additional five miles to CFE's Cumbres substation located approximately 6 miles from the City of Reynosa, Tamaulipas, Mexico. In the second phase, Sharyland would expand the converter facility to a capacity of 300 MW. Sharyland proposes to operate the transmission line as an "open access" facility available for use by other parties to transfer electric power between the United States and Mexico. Sharyland does not intend to seek an electricity export authorization from DOE.

Since the restructuring of the electric power industry began, resulting in the introduction of different types of competitive entities into the marketplace, DOE has consistently expressed its policy that cross-border trade in electric energy should be subject to the same principles of comparable open access and non-discrimination that apply to transmission in interstate commerce. DOE has stated that policy in export authorization granted to entities requesting authority to export over international transmission facilities. Specifically, DOE expects transmitting utilities owning border facilities constructed pursuant to Presidential permits to provide access across the border in accordance with the principles of comparable open access and non-discrimination contained in the FPA and articulated in Federal Energy Regulation Commission Order No. 888, as amended (Promoting Wholesale Competition Through Open Access Non-Discriminatory Transmission Services by Public Utilities). In furtherance of this policy, DOE intends to condition any Presidential permit issued in this proceeding on compliance with these open access principles.

Procedural Matters: Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214).
