

level radioactive waste disposal facility in Clive, Utah. Cleanup activities were conducted in full compliance with applicable Federal and State waste management and transportation requirements.

Radiological decontamination of the Ventron site by the DOE occurred in two phases: In September 1995, and from May 1996 to March 1997. Supplemental sampling of the site to verify the adequacy of radiological remediation was performed in July 1997.

In September 1995, the first phase of DOE remediation of site tidal flats (harbor) adjacent to the seawall began. During this first phase of remediation, a walkover was performed over the entire harbor down to the low-tide mark, and areas with elevated levels of radioactive materials were targeted for remediation. Elevated readings were found in three areas. Excavations were completed in the first two areas, and post-remedial action samples were collected.

Excavation was halted in the third area because contamination in that area was too extensive to be removed by manual methods. During the second phase of the remedial action, this third area was remediated and post-remedial action samples were collected.

Pursuant to the MOA between DOE and Morton International, several onsite buildings were demolished and the crushed building rubble was sampled. Rubble meeting DOE guidelines contained in DOE Order 5400.5 was stockpiled and used as backfill along the seawall. Building slabs were surveyed and either decontaminated and left in place or removed and disposed of with other contaminated material.

Excavation of contaminated materials was the primary remedial action technique used at the Ventron site. Eleven discrete areas of the site were excavated and verified for compliance with radiological cleanup criteria. Excavations occurred beneath demolished buildings, in the northwest corner of the site, and in the harbor area.

Post-remedial action surveys conducted in 1996 and 1997 have demonstrated, and DOE has certified, that the subject property is in compliance with DOE radiological decontamination criteria and standards in effect at the conclusion of remedial action. These criteria and standards are established to protect members of the general public and occupants of the site and to ensure that reasonably foreseeable future use of the site will result in no radiological exposure above applicable guidelines. Accordingly, this property is released from the FUSRAP program. These findings are supported by the DOE's Certification Docket for the

Remedial Action Performed at the Ventron site in Beverly, Massachusetts. DOE makes no representation regarding the condition of the site as a result of activities conducted subsequent to DOE's post-remedial action surveys.

The certification docket will be available for review between 9 a.m. and 4 p.m., Monday through Friday (except Federal holidays), in the DOE Public Reading Room located in Room 1E-190 of the Forrestal Building, 1000 Independence Avenue, SW., Washington, DC. Copies of the certification docket will also be available in the DOE Information Center, 475 Oak Ridge Turnpike, Oak Ridge, Tennessee, 37831, and the Beverly Public Library, 32 Essex Street, Beverly, Massachusetts, 01915.

The DOE, through the Office Director, Ohio Office (EM-31), Deputy Assistant Secretary for Office of Site Closure (EM-30), the Assistant Secretary for the Office Environmental Management (EM), has issued the following statement:

Statement of Certification: Ventron Site in Beverly, Massachusetts

The DOE, Oak Ridge Operations Office (OR), Office of Environmental Management, Oak Ridge Reservation, Remediation Management Group, and the U.S. DOE Office of Environmental Management (EM), Office of Site Closure (EM-30), Ohio Office (EM-31), has reviewed and analyzed the radiological data obtained following remedial action at the Ventron site in Beverly, Massachusetts, (Deed Book 10091, Page 339, in the records of Essex County, Massachusetts). Based on the analysis of all data collected, including post-remedial action surveys, DOE certifies that any residual contamination remaining onsite at the time remedial actions were completed falls within DOE radiological decontamination criteria and standards for use of the property without radiological restrictions. This certification of compliance provides assurance that reasonably foreseeable future use of the site will result in no radiological exposure above DOE radiological criteria and standards for protecting members of the general public and occupants of the property.

Property owned by: Morton International, Incorporated, 123 North Wacker Drive, Chicago, Illinois, 60606.

Issued in Germantown, Maryland.

Sally A. Robison,

Office Director, Ohio Office, Office of Site Closure.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Energy Information Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Energy Information Administration (EIA), Department of Energy (DOE).

ACTION: Agency information collection activities: Submission for OMB review; comment request.

SUMMARY: The EIA has submitted the Petroleum Supply Reporting System surveys to the Office of Management and Budget (OMB) for review and a three-year extension under section 3507(h)(1) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13) (44 U.S.C. 3501 *et seq.*).

DATES: Comments must be filed by November 20, 2003. If you anticipate that you will be submitting comments but find it difficult to do so within that period, you should contact the OMB Desk Officer for DOE listed below as soon as possible.

ADDRESSES: Send comments to Bill Nickerson, OMB Desk Officer for DOE, Office of Information and Regulatory Affairs, Office of Management and Budget. To ensure receipt of the comments by the due date, submission by FAX (202-395-7285) or e-mail (William_Nickerson@omb.eop.gov) is recommended. The mailing address is 726 Jackson Place NW., Washington, DC 20503. The OMB DOE Desk Officer may be telephoned at 202-395-7151 (A copy of your comments should also be provided to EIA's Statistics and Methods Group at the address below.)

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be directed to Herbert Miller. To ensure receipt of the comments by the due date, submission by FAX (202-287-1705) or e-mail (herbert.miller@eia.doe.gov) is recommended. The mailing address is Statistics and Methods Group (EI-70), Forrestal Building, U.S. Department of Energy, Washington, DC 20585-0670. Mr. Miller may be contacted by telephone at (202) 287-1711.

SUPPLEMENTARY INFORMATION: This section contains the following information about the energy information collection submitted to OMB for review: (1) The collection numbers and title; (2) the sponsor (*i.e.*, the Department of Energy component); (3) the current OMB docket number (if applicable); (4) the type of request (*i.e.*, new, revision, extension, or reinstatement); (5) response obligation

(i.e., mandatory, voluntary, or required to obtain or retain benefits); (6) a description of the need for and proposed use of the information; (7) a categorical description of the likely respondents; and (8) an estimate of the total annual reporting burden (i.e., the estimated number of likely respondents times the proposed frequency of response per year times the average hours per response).

1. The Petroleum Supply Reporting System includes the following surveys: EIA-800, Weekly Refinery and Fractionator Report (previously Weekly Refinery Report), EIA-801, Weekly Bulk Terminal Report, EIA-802, Weekly Product Pipeline Report, EIA-803, Weekly Crude Oil Stocks Report, EIA-804, Weekly Imports Report, EIA-810, Monthly Refinery Report, EIA-811, Monthly Bulk Terminal Report, EIA-812, Monthly Product Pipeline Report, EIA-813, Monthly Crude Oil Report, EIA-814, Monthly Imports Report, EIA-816, Monthly Natural Gas Liquids Report, EIA-817, Monthly Tanker and Barge Movement Report, EIA-819, Monthly Oxygenate Report, (previously EIA-819M, Monthly Oxygenate Telephone Report), and EIA-820, Annual Refinery Report.

New Surveys Proposed

EIA-805, Weekly Terminal Blenders Report
EIA-815, Monthly Terminal Blenders Report
2. Energy Information Administration.
3. OMB Number 1905-0165.
4. Revision.
5. Mandatory.
6. EIA's Petroleum Supply Reporting System collects information needed for determining the supply and disposition of crude oil, petroleum products, and natural gas liquids. The data are published by EIA and are used by public and private analysts. Respondents are operators of petroleum refineries, blending plants, bulk terminals, crude oil and product pipelines, natural gas plant facilities, tankers, barges, and oil importers.
7. Business or other for profit; Federal Government; and State, Local or Tribal Government.

8. 83,289 hours (2,590 respondents times 19.37 responses per year times 1.66 hours per response).

The Office of Oil and Gas has made minor modifications subsequent to those proposed in the FR notice for public comments. These additional

changes are based upon comments received in response to the FR notice, along with changes in the industry.

These new changes are:

(1) EIA-819—delete the “isobutylene” category from the motor gasoline blending component production

(2) EIA-811—Add the category “unfinished oils” with the following subcategories:

- a. Naphthas and Lighter
- b. Kerosene and Light Gas Oils
- c. Heavy Gas Oils
- d. Residuum

(3) EIA-803 and EIA-813—Add a line for crude oil stocks at Cushing, Oklahoma

(4) EIA-811—Collect the volumes of ultra-low sulfur distillate fuel oil (15 ppm and under) downgraded at bulk terminals by PAD District. Downgraded volumes include motor vehicle diesel fuel that was designated as meeting the 15 ppm sulfur standard when it was produced or imported but was later commingled with motor vehicle diesel fuel meeting the 500 ppm sulfur standard. Downgrading of motor vehicle diesel fuel meeting the 15 ppm sulfur standard may occur because the fuel became mixed with higher-sulfur product in pipelines (i.e. pipeline interface/transmix) or because sulfur was picked up at other points in the petroleum distribution system (e.g. tanks, valves, manifolds) causing the fuel to exceed the 15 ppm sulfur standard.

Please refer to the supporting statement as well as the proposed forms and instructions for more information about the purpose, who must report, when to report, where to submit, the elements to be reported, detailed instructions, provisions for confidentiality, and uses (including possible nonstatistical uses) of the information. For instructions on obtaining materials, see the **FOR FURTHER INFORMATION CONTACT** section.

Statutory Authority: Section 3507(h)(1) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13)(44 U.S.C. 3501 *et seq.*).

Issued in Washington, DC, October 15, 2003.

Jay H. Casselberry,

Agency Clearance Officer, Statistics and Methods Group, Energy Information Administration.

ENVIRONMENTAL PROTECTION AGENCY

[OAR-2003-0070; FRL-7574-8]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; the SunWise School Program, EPA ICR Number 1904.02, OMB Control Number 2060-0439

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. This ICR is scheduled to expire on November 30, 2003. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. This ICR describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before November 20, 2003.

ADDRESSES: Submit your comments, referencing docket ID number OAR-2003-0070, to (1) EPA online using EDOCKET (our preferred method), by email to a-and-r-Docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Air and Radiation Docket and Information Center, Mailcode 6102T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Kristin Kenausius, Office of Atmospheric Programs, Global Programs Division, Environmental Protection Agency, Mail Code 6205J, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 564-2289; fax number: (202) 565-2095; email address: kenausius.kristin@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 21, 2003 (68 FR 27796), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.
