SUPPLEMENTARY INFORMATION:

I. Background

This regulation prescribes labor standards for federally financed and assisted construction contracts subject to the Davis-Bacon and Related Acts (DBRA), as well as labor standards for construction contracts subject to the Contract Work Hours and Safety Standards Act (CWHSSA). The Davis-Bacon Act provides that every contract subject to the Act must contain a provision (wage determination) stating the minimum wages and fringe benefits to be paid the various classes of laborers and mechanics employed on the contract. Any class of laborer or mechanic not listed in the wage determination which is to be employed under the contract shall be classified in conformance with the wage determination, and a report of the action shall be submitted through DOL for review and approval. Further, where a benefit plan is not of the conventional type described in the Act and/or

common in the construction industry which is established under a customary fund or program, the regulation provides for contractors to request approval of unfunded fringe benefit plans. This information collection is currently approved for use through April 30, 2004.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
