With the development and release of the Occupational Information Network (O\*NET) system, some modifications were needed to make the OCR form correlate more closely to the information in the O\*NET system. The OCR form, with these modifications, has been renamed the Occupational Code Assignment (OCA) form.

## Proposed Information Collection Submitted for Public Comment and Recommendations: Quick Turnaround Surveys of WIA

#### **ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of the collection requirements on respondents can be properly assessed.

**DATES:** Submit comments on or before December 23, 2003.

#### SUPPLEMENTARY INFORMATION:

#### I. Background

The Employment and Training Administration (ETA) is soliciting comments regarding an extension of a current Office of Management and Budget (OMB) clearance for a series of quick turnaround surveys in which data will be collected from state workforce agencies and local workforce investment areas. The surveys will focus on issues relating to the governance, administration, funding, service design, and delivery structure of workforce programs authorized by the Workforce Investment Act (WIA). Enacted in 1998, WIA sought to redesign the workforce development system by linking over a dozen separately funded Federal programs and streamlining services, and establishing new accountability requirements. WIA is set to expire in September 2003 and Congress is now considering reauthorizing and amending the legislation.

ETA is currently is the process of developing a quick turnaround survey on services and outreach to businesses, under the current OMB clearance. Other surveys are also under consideration at this time.

The agency has a continuing need for information on WIA operations and is seeking an extension of the clearance for conducting a series of eight (8) to twenty (20) separate surveys over the next three vears. Each survey will be relatively short (10-30 questions) and, depending on the nature of the survey, may be administered to state workforce agencies, local workforce boards, One-Stop Centers, employment service offices, or other local-area WIA partners. Each survey will be designed on an ad hoc basis and will focus on emerging topics of pressing policy interest. Each survey will either cover the universe of respondents (for state level information) or a properly drawn random sample (for local level information). Examples of broad topic areas include:

• Local management information system developments

• New processes and procedures

Services to different target groupsIntegration and coordination with

other programs

• Local workforce investment board membership and training

Quick turnaround surveys are needed for a number of reasons. The most pressing concerns the need to understand key operational issues in light of challenges deriving from the Administration's policy priorities and from the coming reauthorization of WIA and of other partner programs. Timely information, that identifies the scope and magnitude of various practices or problems, is needed for ETA to fulfill its obligations to develop high quality policy, administrative guidance, regulations, and technical assistance.

The data that will be requested in the quick turnaround surveys is not otherwise available. Other research and evaluation efforts, including case studies or long-range evaluations, either cover only a limited number of sites or take many years for data to be gathered and analyzed. Administrative information and data are too limited: The five-year Workforce Investment Plans, developed by states and local areas, are too general in nature to meet ETA's specific informational needs and are updated infrequently. Quarterly or annual data reporting by states and local areas do not provide information on key operational practices and issues. Thus, ETA has no alternative mechanism for collecting information that both identifies the scope and magnitude of emerging WIA implementation issues and provides the information on a quick turnaround basis.

ETA will make every effort to coordinate the quick turnaround surveys with other research it is conducting, in order to ease the burden on local and state respondents, to avoid duplication, and to explore fully how interim data and information from each study can be used to inform the other studies. Information from the quick response surveys will complement but not duplicate other ETA reporting requirements or evaluation studies.

#### II. Desired Focus of Comments

Currently, ETA is soliciting comments, concerning the proposed extension of the Quick Turnaround Surveys of WIA, that:

(a) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) enhance the quality, utility and clarity of the information to be collected: and

(d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses. A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed above in the addressee section of this notice.
