

## SUPPLEMENTARY INFORMATION:

## History

On Tuesday, August 26, 2003, the FAA proposed to amend 14 CFR part 71 to establish Class D airspace at Ramona, CA. (68 FR 51205). The proposal was to establish a Class D surface area within a 4-mile radius of the airport from the surface up to, but not including, 3,800 feet mean sea level (MSL). This action was due to the construction of a non-federal contract tower and to accommodate aircraft executing instrument flight procedures into and out of Ramona Airport.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class D airspace designations are published in paragraph 5000 of FAA Order 7400.9L dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1 The Class D airspace designation listed in this document will be published subsequently in the Order.

## The Rule

This amendment to 14 CFR part 71 establishes Class D airspace at Ramona, CA, to accommodate aircraft executing instrument flight procedures into and out of Ramona Airport. The area will be depicted on appropriate aeronautical charts. This action also corrects the coordinates for Ramona published in the Notice of Proposed Rulemaking (68 FR 51205).

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

## 15 CFR Part 902

RIN 0648–AR71

**NOAA Information Collection Requirements; Update and Correction**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Final rule; technical amendment.

**SUMMARY:** This final rule, technical amendment, updates and corrects Office of Management and Budget (OMB) control numbers and related regulatory citations for NMFS information collection requirements. Under the Paperwork Reduction Act (PRA), agencies are required to display a current control number assigned by the Director of OMB for each agency information requirement. The intent of this action is to update and correct the NOAA inventory of control numbers so that the inventory reflects the valid OMB control number with its associated regulatory citation for each NMFS information collection requirement.

**DATES:** This regulation is effective October 28, 2003.

## FOR FURTHER INFORMATION CONTACT:

Catherine Belli, Fishery Management Specialist, (301) 713–2341.

**SUPPLEMENTARY INFORMATION:** Pursuant to the Paperwork Reduction Act, Part 902 of title 15 CFR displays control numbers assigned to NMFS information collection requirements by OMB. This part fulfills the requirements of section 3506(c)(1)(B)(i) of the PRA, which requires that agencies display a current control number, assigned by the Director of OMB, for each agency information collection requirement. Portions of 15 CFR 902.1(b) reflect expired or incorrect OMB control numbers. In some cases, the regulations cited have previously been removed from the CFR and, therefore, there are no approved OMB control numbers for those regulations. In addition, the OMB control numbers for some requirements have changed but the obsolete numbers are still reflected in the inventory. Also, when new collection-of-information requirements were previously approved, the final rule implementing the collection-of-information requirement did not update 15 CFR part 902.

Therefore, through this final rule, technical amendment, the inventory of OMB approved control numbers is corrected and updated to reflect the currently valid control numbers. All of the collection-of-information requirements displayed in § 902.1(b) have previously been submitted to OMB for approval during implementation of regulations appearing in the individual parts of title 50. Therefore, this final rule, technical amendment does not involve any new reporting or recordkeeping requirements.

Under NOAA Administrative Order 205–11, 7.01, dated December 17, 1990, the Under Secretary for Oceans and

Atmosphere has delegated authority to sign material for publication in the **Federal Register** to the Assistant Administrator for Fisheries, NOAA (AA).

#### Classification

Pursuant to 5 U.S.C. 553 (b)(B), the AA waives prior notice and opportunity for public comment because this action is a rule of agency organization, procedure or practice. Because this rule makes only minor, non-substantive changes and does not change operating practices in any fishery, it is unnecessary to provide for prior notice and opportunity for public comment. Because this final rule, technical amendment does not constitute a substantive rule, pursuant to 5 U.S.C. 553(d), this final rule is not subject to the 30-day delay in effectiveness. This final rule, technical amendment makes no substantive changes to existing regulations, but rather updates OMB control numbers associated with NMFS information collections, all of which OMB has previously approved during implementation of regulations appearing in the individual parts of title 50 of the Code of Federal Regulations.

Because prior notice and opportunity for public comment are not required pursuant to 5 U.S.C. 553 or any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are inapplicable. Therefore, a regulatory flexibility analysis is not required and has not been prepared.

This rule is exempt from review under Executive Order 12866.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA, unless that collection of information displays a currently valid OMB control number.
