

actions related in any manner to said solid or hazardous substances or wastes; or (6) Natural resource damages as defined by Federal and State law. This covenant shall be construed as running with the patented real property and may be enforced by the United States in a court of competent jurisdiction.

No warranty of any kind be given or implied as to the potential use of the land offered for sale. It is the buyer's responsibility to be aware of all applicable local government policies and regulations that would affect the subject lands. It is also the buyer's responsibility to be aware of existing or prospective uses of nearby properties. The sale parcel is currently without legal access. Any land lacking access from a public road or highway is conveyed as such. Future acquisition of access is the responsibility of the buyer.

This parcel of land located in Amargosa Valley, Nevada, is being offered for sale through modified competitive bid sale procedures. The adjacent land uses and general location of the subject parcel make this tract of land difficult and uneconomic to manage as part of the public lands. As such, the sale parcel meets the disposal criteria found under Title 43 CFR 2710.0-3(a)(3). The proposed action is consistent with the objectives, goals, and decisions of the Las Vegas Resource Management Plan. An appraisal report has been prepared by a certified appraiser for the purposes of establishing fair market value. The appraisal report is available for review at the address shown above.

Publication of this Notice in the **Federal Register** segregates the subject lands from all appropriations under the public land laws, including the general mining laws, except sale under the Federal Land Policy and Management Act of 1976. The segregation will terminate upon issuance of the patent or July 26, 2004, whichever ever occurs first. The segregation for exchange purposes is being terminated and replaced by the new segregation in order to allow for sale. For a period until December 12, 2003, interested parties may submit comments to the Tonopah Field Station Manager at the above address. Any adverse comments will be reviewed by the State Director, who may sustain, vacate, or modify this realty action and issue a final determination. In the absence of timely filed objections this realty action will become the final determination of the Department of the Interior. The land will not be offered for sale until December 29, 2003.

Dated: September 18, 2003.

Assistant Field Manager, Tonopah.
