the petitioner shall provide a brief explanation of the bases of each contention and a concise statement of the alleged facts or the expert opinion that supports the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. The petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the action under consideration. The contention must be one that, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement that satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

Requests for a hearing and petitions for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, or it may be delivered to the Commission's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852-2738, by the above date. Because of the continuing disruptions in delivery of mail to United States Government offices, it is requested that petitions for leave to intervene and requests for hearing be transmitted to the Secretary of the Commission either by means of facsimile transmission to 301-415-1101 or by e-mail to hearingdocket@nrc.gov. A copy of the request for hearing and the petition for leave to intervene should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Again, because of the continuing disruptions in delivery of mail to the United States Government offices, it is requested that copies be transmitted either by means of facsimile transmission to 301–415–3725 or by e-mail to OGCMailCenter@nrc.gov. A copy of the request for hearing and petition for leave to intervene should also be sent to Mr. J.B. Beasley, Jr., Vice

President, Southern Nuclear Operating Company, P.O. Box 1295, Birmingham, Alabama 35201.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions, and/or requests for a hearing will not be entertained absent a determination by the Commission, the presiding officer, or the ASLB that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)–(v) and 2.714(d).

Detailed information about the license renewal process can be found under the Nuclear Reactors icon on the NRC's Web page at http://www.nrc.gov/reactors/operating/licensing/renewal.html.

A copy of the application to renew the operating licenses for Joseph M. Farley Nuclear Plant, Units 1 and 2, is available for public inspection at the Commission's PDR, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852-2738, and on the NRC's Web page at http://www.nrc.gov/reactors/operating/ licensing/renewal/applications/ farley.html while the application is under review. The NRC maintains an Agencywide Documents Access and Management System (ADAMS), which provides text and image files of NRC's public documents. A copy of the application to renew the operating licenses for Joseph M. Farley Nuclear Plant, Units 1 and 2, is also available electronically through the NRC's Electronic Reading Room on the Internet at http://www.nrc.gov/reading-rm/ adams.html under ADAMS Accession Number ML032721356. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC Public Document Room (PDR) Reference staff at 1–800–397– 4209, 301–415–4737 or by e-mail to pdr@nrc.gov.

The staff has verified that a copy of the license renewal application for the Joseph M. Farley Nuclear Plant, Units 1 and 2, is also available to local residents near the Farley Nuclear Plant at the Houston Love Memorial Library, 212 West Burdeshaw Street, Dothan, Alabama 36303–4421.

Dated at Rockville, Maryland, this 30th day of October, 2003.

For the Nuclear Regulatory Commission.

Pao-Tsin Kuo,

Program Director, License Renewal and Environmental Impacts Program, Division of Regulatory Improvement Programs, Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-498 and 50-499]

STP Nuclear Operating Company, et al., South Texas Project, Units 1 and 2; Notice of Consideration of Approval of Application Regarding Proposed Corporate Restructuring and Opportunity for a Hearing

The U.S. Nuclear Regulatory
Commission (NRC or the Commission)
is considering the issuance of an order
under Section 50.80 of Title 10 of the
Code of Federal Regulations (10 CFR)
approving the indirect transfer of
Facility Operating Licenses Nos. NPF–
76 and NPF–80 for South Texas Project
(STP), Units 1 and 2, respectively, to the
extent held by Texas Genco, LP (Texas
Genco).

The application requests the consent of the NRC to the proposed indirect transfer of control of the STP, Units 1 and 2, licenses by virtue of the transfer of ownership of approximately 81 percent of the stock of Texas Genco's parent company, Texas Genco Holdings Inc., from CenterPoint Energy, Inc., to Reliant Resources, Inc. The transaction would result in the indirect transfer of Texas Genco's 30.8 percent undivided ownership interest in STP, Units 1 and 2. In addition to its 30.8 percent undivided ownership interest in STP, Units 1 and 2, Texas Genco holds a corresponding 30.8 percent interest in STP Nuclear Operating Company (STPNOC), a not-for-profit Texas corporation, which is the licensed operator of STP, Units 1 and 2. The application further requests, as necessary, approval of the indirect transfer of control of this 30.8 percent interest in STPNOC, to the extent such indirect transfer requires NRC approval by reason of the transaction described above.

Pursuant to 10 CFR 50.80, no license shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission gives its consent in writing. The Commission will approve an application for the transfer of a license, if the Commission determines that the proposed transferee is qualified to hold the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto. Before issuance of the proposed Order, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the license transfer application, are discussed below.

By December 5, 2003, any person whose interest may be affected by the Commission's action on the application may request a hearing and, if not the applicant, may petition for leave to intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission's rules of practice set forth in subpart M, "Public Notification, Availability of Documents and Records, Hearing Requests and Procedures for Hearings on License Transfer Applications," of 10 CFR part 2. In particular, such requests and petitions must comply with the requirements set forth in 10 CFR 2.1306, and should address the considerations contained in 10 CFR 2.1308(a). Untimely requests and petitions may be denied, as provided in 10 CFR 2.1308(b), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.1308(b)(1)–(2).

Requests for a hearing and petitions for leave to intervene should be served upon: Mr. John E. Matthews, Morgan, Lewis & Bockius, LLP, 1111 Pennsylvania Avenue, NW., Washington, DC 20004, attorney for the licensee; the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555 (e-mail address for filings regarding license transfer cases only: OGCLT@NRC.gov); and the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, in accordance with 10 CFR 2.1313.

The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held, and designating the Presiding Officer. A notice granting a hearing will be published in the **Federal Register** and served on the parties to the hearing.

As an alternative to requests for hearing and petitions to intervene, by November 25, 2003, persons may submit written comments regarding the license transfer application, as provided for in 10 CFR 2.1305. The Commission will consider and, if appropriate, respond to these comments, but such comments will not otherwise constitute part of the

decisional record. Comments should be submitted to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, Attention: Rulemakings and Adjudications Staff, and should cite the publication date and page number of this **Federal Register** notice.

For further details with respect to this action, see the application dated September 29, 2003, a nonproprietary version of which is available for public inspection at the Commission's Public Document Room (PDR), located at One White Flint North, Public File Area 01 F21, 11555 Rockville Pike (first floor), Rockville, Maryland, and accessible electronically through the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room link at the NRC Web site http://www.nrc.gov/reading-rm/adams/ html. If you do not have access to ADAMS or if there are problems accessing the document located in ADAMS, contact the NRC PDR Reference staff at 1-800-397-4209, 301-415-4737, or send an e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 29th day of October 2003.

For the Nuclear Regulatory Commission. **David H. Jaffe**,

Senior Project Manager, Section 1, Project Directorate IV, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

Policy Statement on the Treatment of Environmental Justice Matters in NRC Regulatory and Licensing Actions

AGENCY: Nuclear Regulatory Commission.

ACTION: Issuance of draft policy statement and notice of opportunity for public comment.

SUMMARY: This draft policy statement on the treatment of environmental justice (EJ) matters in Nuclear Regulatory Commission (NRC) regulatory and licensing actions is being issued for public comment. It reaffirms that the Commission is committed to full compliance with the requirements of the National Environmental Policy Act (NEPA) in all of its regulatory and licensing actions. The Commission recognizes that the impacts, for NEPA purposes, of its regulatory or licensing actions on certain populations may be different from impacts on the general population due to a community's

distinct cultural characteristics or practices. Disproportionately high and adverse impacts of a proposed action that fall heavily on a particular community call for close scrutiny—a hard look—under NEPA. While Executive Order (E.O.) 12898, "Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations' characterizes these impacts as involving an "environmental justice" matter, the NRC believes that an analysis of disproportionately high and adverse impacts needs to be done to fulfill its NEPA obligations to accurately identify and disclose all significant environmental impacts associated with a proposed action. Consequently, while the NRC is committed to the general goals of E.O. 12898, it will strive to meet those goals through its normal and traditional NEPA review process. **DATES:** Comments on this draft policy

DATES: Comments on this draft policy statement should be submitted by January 5, 2004, and will be considered by the NRC before publishing the final policy statement. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: Submit comments to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff. Deliver comments to: 11555 Rockville Pike, Rockville, Maryland, between 7:30 a.m. and 4:15 p.m. on Federal workdays. Because of continuing disruptions in the delivery of mail to United States Government offices, it is requested that comments also be transmitted to the Secretary of the Commission either by means of facsimile transmission to (301) 415-1101, or by e-mail to hearingsdocket@nrc.gov. Comments received may be examined at the NRC Public Document Room, 11555 Rockville Pike, Rockville, Maryland or at NRC's Public Electronic Reading Room at http://www.nrc.gov/readingrm/adams.html.
